HOW TO USE this catalog

Although you are enrolled at a specific University of Wisconsin Colleges campus, the policies and procedures are the same at all of the 13 UW Colleges campuses throughout Wisconsin. This catalog provides important information about admission, registration, financial aid procedures, academic regulations and programs as well as information about individual UW Colleges campuses. It also outlines what the institution can offer and what is expected of you as a student.

Student Services and/or faculty advisors will assist you in planning your academic program and transferring to another university.

Additional information on co-curricular activities, financial aid, special academic programs, and special features of local UW Colleges campuses is available in each campus Student Services Office.

Visit the UW Colleges Web page: http://www.uwc.edu/
Students, faculty, staff and administrators of the UW Colleges, in partnership with area residents, form a community of learners. Together we share the responsibility of promoting the mission of the University of Wisconsin to expand and disseminate knowledge and enrich the culture. Within the supportive and challenging environments of the UWC campuses, students of all ages and backgrounds are prepared for advanced educational and professional achievement, lifelong learning, leadership, and responsible citizenship.

In order to realize the mission, all members of the UW Colleges community have a responsibility to promote and a right to expect:

**Respect for Persons**
Basic to respect is the freedom of inquiry and expression—the right to be heard and the obligation to listen. Respect is mutual; it is founded on the recognition that members of the community are multi-faceted with many gifts and challenges and come from diverse cultural and socio-economic backgrounds. The campus environment should be free from intimidation and harassment. Disagreement within the community is expected to be resolved through a process of mutual respect.

**Personal Integrity**
All community members must meet high standards of personal and academic integrity. Recognizing the value of others’ time and effort, we strive to be accurate, to be timely, and to evaluate critically. Views should be presented honestly; taking credit where credit is not due contradicts the goals of learning.

**Individual Development**
Initiative, critical thinking, the pursuit of truth and the exchange of ideas are essential to any academic experience. Community members should be committed to continuous improvement in themselves and others. All should be prepared to devote whatever time and effort is necessary both to educate and be educated. As the learning community fosters self-development, it should provide ample and accurate advising. Opportunities for professional development and training are essential for individual growth.

**Considerate Assessment**
The learning environment requires considerate assessment. The criteria for assessment should be mutually acknowledged, public and unambiguous. Assessment should be ongoing, focusing not only on individual community members but also on the educational process itself. The community helps its members to identify and assess their various responsibilities.

**Responsive Institution**
Each member of the community has a right and a responsibility to contribute to the success of the institution. The university should provide a responsive curriculum, smooth transfer procedures, and fair grievance processes and policies. All segments should be involved in budgeting and other long-range planning. Leaders seek and respect input gained through the shared governance process, so that decisions are made in the best interests of all members. Institutional and campus policies contribute to the success of all members of the community.
Wisconsin Statute 36.01 Statement of Purpose and Mission

1. The legislature finds it in the public interest to provide a system of higher education which enables students of all ages, backgrounds and levels of income to participate in the search for knowledge and individual development, which stresses undergraduate teaching as its main priority, which offers selected professional graduate and research programs with emphasis on state and national needs, which fosters diversity of educational opportunity, which promotes service to the public, which makes effective and efficient use of human and physical resources, which functions cooperatively with other educational institutions and systems, and which promotes internal coordination and the wise use of resources.

2. The mission of the system is to develop human resources, to discover and disseminate knowledge, to extend knowledge and its application beyond the boundaries of its campuses and to serve and stimulate society by developing in students heightened intellectual, cultural and humane sensitivities, scientific, professional and technological expertise and a sense of purpose inherent in this broad mission are methods of instruction, research, extended training and public service designed to educate people and improve the human condition. Basic to every purpose of the system is the search for truth.
In addition to the UW System mission, the University of Wisconsin Colleges has the following select mission:

The University of Wisconsin Colleges, as part of the University of Wisconsin System, shares the university’s overall responsibility to disseminate knowledge, expand information, enrich our culture, and to provide outreach services. Those activities are carried out at the 13 locally-owned campuses which, collectively, are the freshman-sophomore, liberal arts transfer institution of the University of Wisconsin System, entitled to offer a general education associate degree. Its programs aim to provide qualified students of all ages and backgrounds with the proficiencies and breadth of knowledge that prepare them for baccalaureate and professional programs, for lifelong learning, and for leadership, service, and responsible citizenship.

To carry out its select mission, the University of Wisconsin Colleges commits itself to the following goals:

1. To plan and to deliver the freshman-sophomore years of baccalaureate programs and professional studies.
2. To place major emphasis on teaching excellence.
3. To support the development, testing and use of effective teaching methods.
4. To expect scholarly activity, including research, scholarship and creative endeavor, that supports its programs at the associate degree level.
5. To serve the citizens in the University of Wisconsin Colleges service areas by (a) promoting the integration of the extension function and encouraging faculty and staff to participate in outreach efforts, through, for example, providing continuing education programs, (b) facilitating the delivery of programs offered by other University of Wisconsin System institutions.
6. To participate in inter-institutional relationships including but not limited to private colleges, public schools, other University of Wisconsin institutions, and the Wisconsin Technical College System, in order to maximize educational opportunity and resources for the citizens of the University of Wisconsin Colleges’ service areas.
7. To serve the special needs of minority, disadvantaged, disabled and returning adult students, especially those in immediate service areas.
8. To provide opportunities for cultural enrichment in the service areas of each University of Wisconsin Colleges campus.
9. To make available, as a service to business, industry, and the general public, the unique professional expertise of the faculty and staff.

The roots of the UW Colleges lie in the establishment of off-campus classes and the beginning of extension services in 1907. In 1946, the UW Regents developed a policy for local communities to provide buildings for exclusive use by the UW Colleges. Early UWC campuses were part of the former University of Wisconsin-Madison. Later, other UWC campuses were added by institutions of the former Wisconsin State University System. The merger of the University of Wisconsin and the State University System in 1972 resulted in the University of Wisconsin System and reunited the UWC campuses into its mission under the name University of Wisconsin Center System. In 1983, the name of the institution became the University of Wisconsin Centers. In 1997, the name of the institution was changed to University of Wisconsin Colleges.
The physical facilities of the 13 freshman/sophomore campuses were built by and are owned and maintained by local counties and cities. Educational programs are provided by the University of Wisconsin System. This unique relationship has created strong campus-community bonds and a pride which gives the UW Colleges (UWC) a special character within the UW System.

The UWC campuses enroll approximately 11,000 students, including the largest number of freshmen in any one institution of the UW System. Nearly 29 percent of the enrolled UWC students are more than 22 years old, making the returning adult student an important component of the student body. The UWC is effective in meeting the needs of adult learners seeking lifelong education near their work and families.

Each UWC campus is administered by a campus dean and executive officer who reports to the chancellor. The student services staff on each campus works closely with the campus dean as a vital part of the campus administrative team. You will become familiar with the student services staff members as they assist you in your academic, career and financial aid planning. Shared governance is organized through campus collegiums, the UWC Senate (consisting of faculty, academic staff and students), and through 17 institution-wide academic departments. Student governance is organized both on a campus basis and institution-wide.

The chancellor is the chief executive officer of the UWC and reports to the president of the UW System. Assisting the chancellor in the operation of the UWC are the provost/vice chancellor, associate vice chancellor for academic affairs, assistant vice chancellor for information technology, the assistant chancellor for administrative services and their staffs. A central headquarters for the chancellor and the administrative staff is located in Madison.

FREQUENTLY ASKED questions

What is the University of Wisconsin Colleges (UWC)?
A. The UWC offers freshman/sophomore-level university instruction. Each UWC campus offers a transfer curriculum for the baccalaureate degree, professional studies, and a general education associate degree. Most students live in or near the community where the UWC campus is located and commute to the campus. The physical facilities of each UWC campus were constructed and are owned by local county and/or city government. UWC campuses are vital educational and cultural resources for area residents.

How does the UWC fit into the University of Wisconsin System?
A. The UW Colleges is one of 13 institutions within the UW System. The System also includes 11 comprehensive universities granting bachelor's and master's degrees; two doctoral universities granting bachelor's, master's, and doctoral degrees; and UW Extension.

Will my credits transfer?
A. Yes. The UW Colleges is accredited by the Higher Learning Commission and a member of the North Central Association. Therefore, UWC credits will be accepted by other institutions of higher education throughout the country. It is important, however, that you ensure that the courses you take at a UWC campus will not only transfer for credit but will also fulfill the requirements of your specific program. Research carefully the specific requirements of your intended transfer institution.

If you plan to transfer to another UW institution, the UW System Undergraduate Transfer Policy states that students holding the UW Associate of Arts and Science degree will have satisfied the university-wide general education breadth requirements of the receiving institution as well as college and school general education breadth requirements. Individual colleges and schools within the UW institution may require transfer students to complete additional general education credits beyond the university-wide total if it is also required of continuing students. The associate degree may not, however, necessarily satisfy competency or proficiency requirements; upper-division general education courses; general education courses that are prerequisites integral to a particular program or major and which are required of continuing students; and requirements mandated by external professional accrediting associations or program approving agencies.

As you plan your program of study, you should seek the help of an advisor, consult the catalog of your intended transfer campus and use the UW System's computerized Transfer Information System (TIS), which is available on every UW campus. Also note that courses that are considered remedial (those with a course number beginning with a zero) usually will not transfer. Ask about Guaranteed Transfer (see pages 13 & 44) and special transfer agreements which may ease your transfer to UW institutions and private colleges.

Am I eligible for admission?
A. Anyone who desires a university education and applies for admission to the UWC will be considered for admission. If you graduated from high school with the required units or have a high school equivalent certificate, such as a GED, your chances of being accepted are good (see the Admissions section, page 11). If you are accepted and your high school record indicates that you may have difficulty with university work, you...
FREQUENTLY ASKED questions

will be asked to participate in special programs and advising through the Campus Student Services Office. The UW gives special consideration on the basis of minority status, physical or learning disability, U.S. Armed forces veteran status, age group, incarceration, or economic or educational disadvantage. Consult the admission section of this catalog for the specific policy affecting you.

If I have a disability can I obtain accommodations?  
A. Yes, if you are a qualified student with a disability which requires accommodation and can provide appropriate documentation. Contact the Student Services Office on your campus or the coordinator of Services for Students with Disabilities in Madison at 608/262-2001 (voice) or 608/265-7666 (TTY) for information and assistance.

How do I apply?  
A. Applying example: Obtain a UW System Application for Undergraduate Admission from your high school guidance office, your local UW Student Services Office, or UW admissions office and complete the form. It will list an address to which you should send your completed application and other required materials.

Are financial aid funds, scholarships, and part-time jobs available?  
A. Yes, at all UW campuses. To find the programs for which you qualify, see the financial aid section of this catalog and contact your local UW campus Student Services Office. This office also has information about on-campus and off-campus employment.

What degree can I learn at the UWC?  
A. The UWC offers a liberal arts Associate of Arts and Science degree which is a foundation for most majors in the UW System and is accepted by University of Wisconsin institutions in fulfilling the university-wide, college, school and general education breadth requirements. The associate degree requirements can be found on page 40. A number of UW colleges have negotiated collaborative agreements with UW four-year institutions. This means you can now earn all the credits you need to obtain a bachelor's degree without leaving a UW campus. For details about these collaborative agreements, check with the campus Student Services Office.

Do the UW Colleges offer Distance Education courses?  
A. Yes. There are four types of courses: compressed video (video conferencing), Audographics (audio and computer connection), online, and Computer Based Training (CBT). The compressed video and Audographics courses are delivered from one of the UW Colleges campuses to students on other UW Colleges campuses. CBT courses are a combination of online and computer based training. Students can complete these courses on campus or at home. Online courses are delivered totally online.

Can I take courses online?  
A. Yes, the UW Colleges offers courses online. These courses follow the UW Colleges' academic calendar, but students can take the course from home or work, and complete assignments at any hour of the day or night. To learn more about the UW Colleges Online program go to http://www.uwcolleges.com/

What kind of faculty will I find at the UWC?  
A. The UWC places a major emphasis on teaching excellence. The faculty are highly qualified, dedicated individuals whose primary interest is teaching freshmen and sophomores. UW faculty understand the importance of one-on-one communication between a student and a professor and they are committed to that kind of teaching. This commitment will be reflected in the high quality of your UW education.
FREQUENTLY ASKED questions

I graduated from high school several years ago. Are there any programs at the UWC to help me ease into school again?
A. Yes. The UWC believes in the importance of a mix of ages and experiences in a university classroom. A significant percentage of UWC students are over age 25. Faculty, members and advisor are particularly aware of the special needs of returning adult students. Returning Adult Student Advisors are ready to help ease you into the college experience. He or she will support you throughout your time at the UWC. In addition, you will find orientation programs, services, and organizations for students like you.

And, if you wish to attend part-time, the Returning Adult Student Advisor can assist you in planning a class schedule around your job and family life. A number of UWC campuses have evening and Saturday classes. Check with the campus Student Services Office for offerings.

Are there special programs to help me improve my academic skills?
A. Many UWC campuses offer special programs to help you improve the academic skills you need, and tutoring services are available. Your Student Services advisor can give you details about these programs.

My academic achievement always has been very high. Are there special programs for me?
A. Yes. Several UWC campuses offer honors programs, independent research, or other special projects for exceptional students. Inquire at the campus Student Services Office.

How can I become involved in co-curricular activities?
A. Whether your interests are in student government, drama, music, athletics, musical activities, student publications, or other student-related activities, you'll find them on all campuses. Student advisors are offered opportunities for study and travel abroad. For details about how to get involved, contact a faculty member in your area of interest at the Student Services Office.

Do UWC campuses offer vocational-technical college classes?
A. No. Vocational technical courses are not offered. Wisconsin has a separate and well-developed system of vocational technical colleges. That system and the UWC have different missions and goals and, therefore, different course and program offerings.

Whom do I contact if I have questions or would like to visit a campus?
A. If you would like more specific information or wish to visit a particular UWC campus, contact the Student Services Office at the campus of your choice. Names, addresses and telephone numbers of the 13 UWC campuses are included in this catalog on page 1. Campus descriptions begin on page 10.

What types of continuing education opportunities are available on UWC campuses?
A. Each UWC campus has a continuing education program that promotes intellectual stimulation, personal/professional growth, and cultural enrichment through a variety of non-credit seminars, workshops and short courses. Topics may vary from computer applications to theatre or art exhibits or from Colleges for Kids to lifelong learning. To meet the needs of lifelong learners, the campuses collaborate with business, industry, K-12 schools and libraries, and non-profit agencies.

What kind of library services will I find at a UWC campus?
A. Each UWC library provides a full range of services, from a convenient place to study on campus to in-depth research assistance for students and faculty. You will find helpful, professional staff ready to assist you with your information needs. Each library maintains collections of books, periodicals, videos, and provides access to numerous electronic information resources, including the World Wide Web. If the information you need is not in the campus library, the staff will order it for you from another library. Whatever your information needs, just ask!

What kind of computer access will I find at the UWC campuses?
A. Although the specific hardware and software differ among the UWC campuses, each campus gives students computer access. Campus networks provide students with electronic mail and access to the Internet including, the World Wide Web. Various software programs (such as word processing, spreadsheet, and database programs) are available for student use.
COMMITMENT

The University of Wisconsin Colleges, a collection of 13 locally-owned campuses throughout the state, is proud of its transfer mission within the University of Wisconsin System. The UWC freshman/sophomore curriculum will provide you with the breadth of knowledge necessary for baccalaureate or professional study. Whatever your age, you will find the UWC experience to be excellent preparation for responsible citizenship and a valuable step toward lifelong learning.

We emphasize teaching excellence. Faculty and staff will take individual interest in your personal and intellectual development and encourage you to take an active role in learning. Each campus has programs to serve the special needs of its students, particularly those who are high achievers, returning adults, members of minority groups, disadvantaged, or at risk. At a UWC campus, you won't wait until your upperclass years for experiences such as independent study, research, international travel, professional conferences, academic organizations and extracurricular activities. Faculty and staff are available to introduce you to these important aspects of academic life.

Our commitment also includes service to our local communities. Local citizens benefit from continuing education, off-campus instruction, cultural enrichment and the professional resources of the UWC.

Teaching excellence, personal interest, academic achievement, enriching experiences and community service—this is our commitment to you.

Under Wisconsin law, a student may not be denied admission to, participation in or the benefits of, or discriminated against in any service, program, course or facility of the University because of the student's race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status or parental status. §36.12, Wisconsin Statutes, also requires that the University establish policies and procedures to protect students from discrimination and report annually to the Legislature the number of complaints received in violation of this law and the disposition of each complaint.

Federal laws also prohibit discrimination against students and require that the University have procedures for complaints of discrimination on the basis of disability (§504 and ADA) and sex (Title IX). Discrimination also is prohibited on the basis of race, color and national origin under Title VI.

Inquiries concerning the application of AA/EOO procedures may be directed to the Office of Human Resources, 780 Regent Street, P.O. Box 8680, Madison, WI 53708-8680, 608/262-2578.

The University of Wisconsin Colleges reserves the right to change any regulation or requirement at any time during a student's attendance. This catalog does not constitute a contract between a student attending a University of Wisconsin Colleges campus and the institution. The sole purpose of this catalog is to provide students with information on course listings, requirements, and regulations in effect at the time of publication.
admission
TO THE UW COLLEGES’ CAMPUSES

the best start for the life you want
Anyone who desires a university education will be considered for admission to the University of Wisconsin Colleges. Prospective students should apply early. Certain applicants who meet the minimum admission requirements (e.g., those who rank in the bottom quarter of their high school graduating class, or hold a certificate of GED) may have their admission deferred to a future term.

If you are admitted and your high school record, placement test scores, or other previous academic performance indicates that you may have difficulty with university work, you will be required to participate in special programs aimed at remedying these difficulties. This policy is outlined under "High risk and waiting list admissions categories" (page 13).

**Students With Disabilities**

Qualified students with disabilities (those who have been admitted and can provide documentation of their disability) have the right to request accommodations from the University, as stipulated within Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. Students needing accommodations should provide early notice to the campus Student Services Office. Many students with disabilities in Madison at 608/262-3901 (voice) or 608/263-5766 (TDD/TTY) for information and assistance.

**Placement Testing**

You will be required to take English and mathematics placement tests prior to registering as a freshman. Students whose scores on the English or mathematics placement test fall below institutional cutoffs will be considered high-risk students and required to participate in special programming.

The American College Test (ACT) or Scholastic Aptitude Test (SAT) is required of all incoming University of Wisconsin freshmen. ACT or SAT scores are not required for students over 21 years of age or special students. The test will be used for academic advising, career planning, and placement test interpretation.

**ADMISSION requirements**

To be admitted to the UW Colleges as a new freshman, a student must:

1. Have graduated from a recognized high school, have a certificate of GED, or present other evidence of ability to begin university work.
2. Have a minimum of 17 college preparatory credits. Thirteen of the 17 credits must be distributed as follows:
   - English: 4 credits
   - Social Science: 3 credits
   - Mathematics: 3 credits
   - Science: 3 credits
   - Other Academic Areas:
     - Language: 1 credit
     - Fine Arts, Computer Science: 1 credit
     - Other: 1 credit
   - The remaining four credits will be from the above areas, foreign languages, fine arts, computer science, or other academic areas.

3. Take the American College Test (ACT) or Scholastic Aptitude Test (SAT). The ACT or SAT scores must be received by the UW Colleges before you will be permitted to register for classes.

Students who fail to meet these requirements may appeal to the director of student services for an exemption. Particular consideration will be given to applicants on the basis of minority group status, physical or learning disability, U.S. Armed Forces veteran status, age group, immigration, or economic or educational disadvantage. Applicants who have special needs should contact the campus Student Services Office.
Students will be required to participate in special programming if they have any of the following characteristics:

1. High school class rank in lowest quartile;
2. GED or HSED certificate;
3. High school academic course deficiencies; or
4. Transfer student entering on probation.

In Special Programming:

1. You will receive mandatory advising prior to registration.
2. At the discretion of your advisor and the UW Colleges, you may be required to:
   a. restrict your course load and course selection;
   b. attend regular meetings with an advisor throughout the semester or session; and/or
   c. enroll in appropriate basic skills courses and/or tutoring.

You will be required to meet with an advisor prior to each registration until you achieve a cumulative grade point average (GPA) of 2.0 with 12 or more UWC credits.

If your scores on the English or mathematics placement tests indicate that you must enroll in remedial course work, UW policy requires that you complete successfully the remedial course(s) before you earn a total of 30 credits. In addition, you may be required to limit the number of credits carried while you are enrolled in remedial courses.

If you do not wish to register under these conditions, you may appeal for an exception to the appropriate committee at your UWC campus.

The Guaranteed Transfer Program enables students to begin their education as freshmen at the University of Wisconsin Colleges and be guaranteed admission to a UW System institution as juniors. After fulfilling certain credit and grade point average requirements, students will transfer with the same rights and privileges as those who begin their education at the baccalaureate institution.

Students must submit a "Declaration of Intent to Participate" form at any time prior to the start of their sophomore year (thirty credits). Students must then complete, with a minimum grade point average of 2.00 (2.6 for UW-Madison), the number of credits required for junior status at the baccalaureate institution. Students will have three academic years from the time of matriculation in the UWC in which to complete the minimum credits required. The baccalaureate institution may make exceptions to the required number of credits for those majors/programs for which early transfer is recommended.

The Guaranteed Transfer Program guarantees admission to the baccalaureate institution only. Students must meet the same criteria (e.g. GPA, course requirements, etc.) for admission to specific majors/programs as continuing students.

To be considered for admission, you must submit a University of Wisconsin System Application for Undergraduate Admission. You can obtain this application form from your high school guidance office or from a UW Colleges campus. The completed form and any required materials should be sent to the UWC campus you are interested in attending.

A $35 fee must accompany the application of prospective freshmen and transfer students from schools outside the University of Wisconsin System. Special students do not pay the application fee unless they become degree candidates.

Applications are accepted after September 15 for the following fall or spring semester or summer term. High school students are encouraged to apply early in their senior year. Early applicants have an advantage in obtaining academic counseling, financial aid and their preferred schedule of courses.

You can apply for admission using the UW System Electronic Application for Undergraduate Admission on the World Wide Web at: http://www.apply.wisconsin.edu/. This application is also available from the Admission area of HELP On-Line or the UWC homepage. Students will be able to apply to multiple institutions in the UW System using this form.

You can find HELP On-Line at: http://uwhelp.wisconsin.edu/ or the UWC homepage at: http://www.uwc.edu/
TRANSFER into the UWC

If you attended another college before applying for admission to the UWC, you must complete the UW System Application for Undergraduate Admission form and submit official transcripts from all colleges you attended. If you maintained a C average or higher (2.00 on a 4.00 scale) at your previous college(s), you are likely to be admitted. If you were admitted and had less than a 2.0 semester or cumulative GPA, the UW academic regulations (probation, suspended, or dismissed status) will be used to determine your probation status.

A transfer student’s application is not complete until official transcripts of all prior college work have been received and evaluated. In the event of unavailability of transcripts, other materials such as grade reports, may be submitted. However, admission based on such data is tentative and may be revoked. Students suspended from another institution will not be admissible to the UWC until the period of suspension elapses.

If you are admitted as a transfer student with lower than a C average, particularly during your last semester of attendance, you may be asked to meet the conditions outlined for new freshmen ranking in the lower 25 percent of their high school classes.

If you are a transfer student and are applying for financial aid, refer to the financial aid section of the catalog for application procedures. You must send a Financial Aid Transcript form to each institution you previously attended even if you did not receive financial aid there. This will then be forwarded to the UWC Financial Aid Office. The forms are available at any campus financial aid office.

UWS/WTCS UNIFORM POLICY STATEMENT on credit transfer

Students enrolled in the Wisconsin Technical College System (WTCS) who wish to continue their education in the UW System (UWS) may be eligible to transfer credits toward their associate degree in the following ways:

1. Students enrolled in the college parallel program at Madison Area Technical College, Milwaukie Area Technical College, or Nicolet Area Technical College may be eligible to transfer up to 72 credits.

2. WTCS students may be eligible to transfer up to 15 credits of general education coursework in two areas of communications, behavioral sciences, and social sciences. In addition, students may transfer up to a total of two courses from mathematics and/or natural sciences.

3. Students transferring from the WTCS may be eligible for credit by earning appropriate scores on national standardized examinations (e.g., College Level Examination Program) or examinations developed by the UW Colleges.

For more information about these transfer opportunities, students should consult with their WTCS advisor or the Student Services Office at a UWC campus.
returning students

if you wish to attend the uw-c and were not enrolled the previous semester (excluding summer session), you must take a university of wisconsin system application for undergraduate admission and submit official transcripts of any non-uwc college work attempted since you were last enrolled at the uw-c. if you were dropped or suspended at the end of your last semester of enrollment at the uw colleges, you must seek permission to re-enter from the campus student services office.

re-entry applicants with less than a 2.0 cumulative gpa will be placed on a waiting list and will be reviewed according to the uw-c academic regulations to determine their acceptance and probation status. applicants returning after an absence of four or more consecutive semesters must meet the degree requirements of the catalog in effect upon their return, or of a subsequent catalog.

returning adults

the uw-c encourages adults to apply for admission and work toward a degree, audit courses, or simply take courses for enrichment. the adult enrollment varies from one uw-c campus to another, but all campuses have returning adult students in classes.

international students

the admission requirements outlined in the catalog do not apply to students who are not residents of the united states. international applicants are admitted on the basis of superior scholastic ability demonstrated by school records and certificates, and on their ability to effectively use and understand the english language. international applicants also must provide proof of their ability to pay all expenses while they are students.

all enrolled international students may be required to carry health insurance or show comparable coverage for medical expenses.

special students

persons interested in taking certain courses, but not seeking a degree, are classified as "special students." in most cases, this special student admission criteria are more flexible than for degree students. however, special students must meet the academic standards of the university. special student applicants who have attended institutions other than the uw-c may be required to submit transcripts and educational records as part of the admission process. degree-seeking students may be given priority over special students in registering for classes because of course demand and/or enrollment limitations. if you are interested in enrolling as a special student, please consult with the campus student services office about additional requirements prior to application.

high school students

high school students, especially seniors, who wish to enroll in courses before graduation may take the courses for credit or audit. however, they must file the standard uw system application for undergraduate admission and have the recommendation of their high school principals. students should consult with the student services office about additional requirements prior to application. any uw-c credits and grades earned by high school students are part of their official records and are fully accredited, transferrable uw-c credits.

matriculating special students

special students who wish to become degree-seeking students must submit a uw system application for undergraduate admission, the application fee and official educational records after completing six hours of course work before they will be permitted to enroll in additional uw-c courses.

auditors

the uw-c encourages adults to audit courses. all auditors must have approval of the instructor teaching the course. approval is usually granted unless an auditor decreases the classroom space requirements or costs of instruction. distance education courses are not eligible for audit. non-degree students enrolling for courses on an audit-only basis generally pay a reduced fee. wisconsin residents who are disabled and receiving federal student assistance and disability insurance benefits (fadisb) may audit courses without charge if this will not result in additional laboratory or instructional costs. students combining audit credits and regular credits pay regular tuition and fees for all the credits, including those audited. wisconsin residents who are 60 years of age or older as of the first day of the semester may audit courses without charge if this will not result in additional laboratory or instructional costs. these students, if combining audit and regular credits, pay tuition for the regular credits only. for specific information about auditing courses, students should consult the campus timetable for the term in which they wish to enroll.
Resident Status for Tuition Purposes

Regulations determining residency status for University of Wisconsin admission and tuition are in the Wisconsin Statutes. Students are classified as resident or non-resident when they are admitted to the UW System.

Students who do not qualify as a Wisconsin resident must pay non-resident tuition in addition to student fees. Residency regulations for tuition purposes differ from those established for voting or paying taxes.

Minnesota residents may qualify for Minnesota resident tuition by applying to the:

Minnesota Higher Education Coordinating Board
Suite 400, Capitol Square
550 Cedar St.
St. Paul, MN 55101

Students who have been residents of Minnesota County, Michigan, for at least one year prior to their enrollment date may enroll at UW-Madison as Michigan-Wisconsin compact students. This compact agreement permits students to pay the resident tuition rate at UW-Madison only.

Students who are classified as a non-resident for tuition purposes and believe their classification is incorrect should contact the campus student services office.

Academic tuition is set by the UW Board of Regents. Student fees are recommended by each local campus, reviewed by the Chancellor and approved by the Board of Regents. UW tuition and fees are the lowest in the UW System.

For Wisconsin residents, the 1998-99 tuition and fees range from $1,117 to $1,408 per semester for full-time students who carry 12 through 18 credits. Full-time, non-resident tuition and fees range from $3,854 to $4,945 per semester. Additional fees will be assessed for students who carry more than 18 credits. Part-time students, defined as those carrying 11 or fewer credits, pay from $94 to $102 per credit if they are residents and from $322 to $330 per credit if they are non-residents. The tuition charged for web-based courses may be higher than normal tuition charges found elsewhere in the campus timetable. Because tuition and fees change each year, contact either the UW campus student services office or business office for current information.

All tuition and fees are payable at the time of registration. Students must either pay in full or enter into a formal partial payment agreement. Under special circumstances, a student may be granted a payment deferral to extend the time to pay fees. Policies for cancellation of registration, withdrawal, late payment fees, refunds, etc., which include financial aspects, are listed in the campus timetable or are available in the campus business office.

Students must officially withdraw through the student services office. The date of this official withdrawal will be used to calculate fees due, required repayments of financial aid, or refunds. Merely ceasing to attend class does not constitute official withdrawal from the UW system. Students who do officially withdraw may be eligible for refunds. The refund schedule is available in the campus business office.

The UW assesses own additional fees:

1. A $3 per copy charge for transcripts. (Transcripts are not issued to students with delinquent accounts)
2. A $20 check charge for $20, plus any additional charges levied by the bank.

To avoid any misunderstandings about the various tuition and fee policies, students should obtain specific information about these from the campus business office prior to registration.
STUDENT

financial aid

The University of Wisconsin Colleges participates in all federal and state financial aid programs. A central office in Madison administers financial aid for the 12 campuses of the UW Colleges. A financial aid advisor is located in the Student Services Office at each campus. These advisors are able to assist you in applying for financial aid.

de the best start for the life you want
APPLYING FOR FINANCIAL AID

Follow these steps in applying for financial aid:

**Step One:** Apply for admission to the University of Wisconsin Colleges.

**Step Two:** Complete and promptly submit the Free Application for Federal Student Aid (FAFSA) each year as soon after January 1 as possible. The FAFSA is available in paper copy or electronically through the Internet (FAFSA on the Web) at http://www.fafsa.ed.gov/

Paper copies are available from all UW Colleges Student Services Offices or from high school guidance offices.

You can apply electronically from home or at your UW Colleges campus. Each campus has a computer and a printer available for your use.

Electronic applications are processed more quickly than paper applications. Your data are protected by the highest security available. Electronic applications also have fewer errors than paper applications.

Remember to complete your application for financial aid as soon after January 1 as possible.

STUDENT ELIGIBILITY FOR FINANCIAL AID

To be eligible for most types of financial aid, you must:

- be a United States citizen or a permanent resident of the U.S.
- have a valid Social Security number
- be enrolled in a degree program. If you already have a bachelor's degree and you are enrolled in a second degree program or in a teacher certification program, please contact your campus Student Financial Aid Advisor regarding your eligibility for aid.
- be enrolled for at least six credits per term (full-time enrollment) whether it's a fall, spring, or summer term. Exceptions may be made for Pell Grant funding and for scholarships.
- maintain satisfactory academic progress. (Refer to “Satisfactory Academic Progress” in this section of the catalog.)
- register with the Selective Service if required.
- have made timely repayments on previous loans or federal grants at any postsecondary institution.
- provide all requested documentation.

FINANCIAL AID PROGRAMS

There are four general types of financial aid: scholarships, grants, loans, and employment.

**Scholarships**

Scholarships are monetary gifts from community, private, and campus sources and are usually based on academic merit or some criteria other than financial need. Campus Foundations, local businesses, and other sources provide scholarships for students at the 13 UW Colleges campuses. No repayment of scholarships is required. Contact your high school counselor and/or your campus Student Services Office for scholarship information.

**Grants**

Grants are need-based financial assistance. No repayment is required unless you withdraw from school. The amount of a grant will depend on your financial need, the availability of funds, and specific federal, state, and institutional awarding policies.

Federal Pell Grants are the most common source of federal grants for...
undergraduates. The federal government determines a student's eligibility and award amount.

**Federal Supplemental Educational Opportunity Grants (FSEOG)** are federal funds awarded to low-income students according to institutional and federal guidelines.

**Wisconsin Higher Education Grants (WHEG)** are need-based funds awarded to Wisconsin residents according to state eligibility criteria.

**Indian Grants** are available to students who are at least 1/4 Native American. Grants are available through both the Federal Bureau of Indian Affairs and the State of Wisconsin.

**Talent Incentive Program (TIP)** grants are awards for disadvantaged Wisconsin residents who meet specific state eligibility criteria.

**Wisconsin Handicapped Grants** are state awards for Wisconsin residents who have auditory or visual impairments.

**Minority Grants** (available through the University of Wisconsin System) are for Wisconsin residents who are African American, Hispanic, Native American, or Southeast Asian heritage. These grants are based on both financial need and academic merit.

**Loans**

Loans are awards that must be repaid. Some loans require repayment while you are still in school. You do not need to repay others until after you graduate or if you drop below half-time enrollment. Some loans are based on financial need; others are not. All loans require that you sign a promissory note in which you promise to repay the loan according to specific provisions.

**Federal Perkins Loans** are loans awarded by the UW Colleges with funds provided by the federal government. Funding is limited in this low-interest loan program. To qualify, you must show financial need and be enrolled at least half-time. Interest does not accrue on this loan until repayment begins nine months after you graduate, leave school, or enroll less than half-time.

**Federal Stafford Loans** are federally guaranteed loans available through banks and other lenders. You must be enrolled at least half-time to qualify. There are two types of Stafford Loans:

The **subsidized Stafford Loan** is awarded based upon financial need. This loan carries an interest-free deferment of payments while you are enrolled at least half-time and for six months after you are no longer enrolled at least half-time.

The **unsubsidized Stafford Loan** can be awarded even if you have no financial need. Interest accrues on the loan while you are in school. You may pay the interest while you are enrolled, or it can be added to the loan total and deferred while you are enrolled at least half-time and for six months after you are no longer enrolled at least half-time.

**Federal Parent Loans for Undergraduate Students (FLIPS)** are loans made to parents of dependent students to help parents finance their children's education. These loans are not based upon financial need. The interest rate varies according to a federal index. Repayment of FLIPS loans begins within 60 days after the money is disbursed.
FINANCIAL AID
programs (continued)

Employment
Employment is a form of financial aid that you earn. There are many opportunities for you to work while you attend the UW Colleges. Jobs are available both on campus and in the local community.

Federal Work-Study is a program offering employment to students who show financial need. Jobs are usually part-time; however, full-time work may be available during the summer. Although most jobs are on campus, there are employment opportunities in community service agencies as well.

Regular Student Employment is also available on campus regardless of your financial need.

For more specific information about Student Financial Aid programs, contact the Financial Aid Advisor in your campus Student Services Office. You can also consult the U.S. Department of Education’s free booklet, The Student Guide, which is available in public libraries, in high school guidance offices, in UW Colleges Student Services Offices, and through the World Wide Web at: http://www.ed.gov/prog_info/SFA/StudentGuide/

Other Aid and Benefit Programs
In addition to federal and state financial aid programs, other sources of funding are available to assist you in financing the cost of your education.

Vocational Rehabilitation Grants are provided to qualified students by the state Division of Vocational Rehabilitation (DVR). To qualify, you must have a physical, emotional, academic or learning disability and meet other criteria established by DVR. Contact the local DVR office for additional information.

Veterans Benefits are available to qualified veterans; to members of the National Guard or Reserves; and in some cases to the sons, daughters, or spouses of deceased or disabled veterans. There are a wide variety of veterans programs offered through the federal Veterans Administration and through the State of Wisconsin. Contact the local Veterans Administration Office or your campus Student Services Office for details.

The UW Colleges is fully approved for the certification of educational benefits for veterans and veterans’ dependents under both federal and state Veterans Administration programs.

COST of attendance

The UW Colleges Central Student Financial Aid Office estimates the Cost of Attendance (COA) for students each academic year. Cost of Attendance includes tuition and fees, as well as allowances for books and supplies, rent and utilities, food, transportation, and miscellaneous expenses such as clothing, recreation, and minor medical costs. Tuition is the same at all UW Colleges campuses. However, fees vary from campus to campus. Standard budgets are developed by the UW Colleges Central Student Financial Aid Office.

Individual Cost of Attendance is based upon residency, housing status (living with parents or away from parents), and enrollment (full-time or less-than-full-time).

The following chart is an example of costs to attend a University of Wisconsin Colleges campus for the 2000-2001 academic year.

Cost of Attendance figures are adjusted each year.

Example from 2000-2001

<table>
<thead>
<tr>
<th>Costs for 2000-2001 Academic Year</th>

<td>$ 6,820</td>
<td>$ 9,810</td>
</tr>
</tbody>
</table>

*This figure represents an average of tuition and fees paid by Wisconsin residents and residents of Menominee County, Michigan. Actual amounts will vary slightly among the 13 UW Colleges campuses because each campus determines its own fees. In 2000-2001, non-residents paid an additional $6,004 in tuition.
FINANCIAL need

To be considered for federal and state financial aid, you must submit the Free Application for Federal Student Aid (FAFSA) or the Renewal FAFSA (if you filed a FAFSA last year). When you apply, the information that you report is calculated in a formula established by the United States Congress. The formula determines your Expected Family Contribution (EFC), which is the amount that you and your family are expected to contribute toward your education. To estimate your family contribution, visit the financial aid calculator on the World Wide Web at http://www.finaid.org/

Your Cost of Attendance and your Expected Family Contribution determine the types of financial aid for which you are eligible.

<table>

<td>- Expected Family Contribution</td>
</tr>
<tr>
<td>- Financial Need</td>
</tr>
</tbody>
</table>

The University of Wisconsin Colleges Central Student Financial Aid Office will calculate a financial aid package that is designed to meet as much of your financial need as possible. Aid awards may be a combination of grants, loans, and employment.

Once your financial aid has been calculated, you will receive an Award Offer in the mail. The accompanying Award Guide will explain how to accept or decline aid funds, how and when the aid will be disbursed, and how aid is used to pay your college bills.

Because some funds are limited, the total amount awarded to you may be less than the amount for which you are eligible.

Contact your campus Student Services Office if you believe you have special circumstances that should be considered in calculating your financial aid.

ACADEMIC withdrawal

If you received financial aid and you are considering withdrawing from the university, be sure to discuss your situation with the Financial Aid Advisor in your campus Student Services Office to learn the implications of your decision.

You may owe a repayment of financial aid if you withdraw from school. Repayments are calculated based upon the number of days that you were enrolled, the amount of aid that you received, the amount of tuition that you paid, and the estimated cost of your attendance. You will not owe a repayment on aid that paid for your tuition, books, or living costs during the period before you withdrew. However, you will be responsible for repaying any amount of financial aid that you received beyond these costs. If you do not repay, you will not receive UW Colleges academic transcripts, and you will not be eligible to receive financial aid at any other institution until repayment has been made.
SATISFACTORY ACADEMIC PROGRESS (SAP) for financial aid eligibility

Once you have received financial aid at the UW Colleges, you must maintain Satisfactory Academic Progress (SAP) to remain eligible for aid.

Your academic progress is continuously monitored. If you fail to meet SAP standards, you will be notified by mail, and you may lose your eligibility for financial aid.

At the time this catalog was printed, our UW Colleges SAP policy was in review. Please contact your campus Student Services Office for the current policy.

INTERNET resources

There are many addresses on the World Wide Web that provide information about financial aid. We recommend the following:

The University of Wisconsin Colleges
http://www.uwc.edu/
This is the University of Wisconsin Colleges' home page. At this site, you will find information about UW Colleges and about financial aid.

The University of Wisconsin System
http://uwhelp.wisc.edu/on-line.htm
The "HELP On Line" site of the University of Wisconsin System provides you with comprehensive information.

Access America for Students
http://www.students.gov/
This site is the student gateway to the U.S. government. You will find helpful financial aid information here.

FAFSA on the Web
http://www.fafsa.ed.gov/
You can complete and correct your electronic FAFSA at this location.
enrolling
IN THE UW COLLEGES' CAMPUSES

the best start for the life you want
Registration is the process of enrolling in courses each semester. A student services or faculty advisor will help you select classes to fit your individual course of study.

The schedule of classes and specific information on the time, dates and places of registration are available from your campus student services office.

If you submit a completed registration form, you are registered whether or not you pay fees and tuition or attend classes. Once registered, you must complete the withdrawal process explained in this catalog. Nonattendance does not constitute official withdrawal—see "withdrawal" section of catalog on p. 25. Failure to withdraw officially does not end your obligation to pay your fees, tuition or other fees. If you leave the university without course registration, you will be charged tuition and fees as if you were enrolled. The amount of fees owed is determined by the fee policy established by the Regents of the University of Wisconsin System.

Registration Hold Policy
If you have an outstanding obligation to the UWSystem, (e.g., you owe a fine, money, materials, or financial aid), a hold may be placed on your educational records. The hold may prohibit you from registering in the future and you will not be able to receive a transcript of your academic record.

Class Attendance
Instructors may establish reasonable class attendance policies. Such policies will be announced in the course syllabus. You are responsible for completing all work as stated when you are absent from class. If you plan to be absent because of field trips or extracurricular activities sponsored by your campus, the faculty member in charge of the activity will provide that information to instructors whose classes you will miss.

If you are receiving benefits from the Veterans Administration and/or Social Security Administration, you are expected to attend all classes. You should consult the Student Services Office for concern about information.

Concurrent Registration
You may enroll in courses at more than one University of Wisconsin campus. However, in order to do so, you must obtain written permission from your UW campus student services director. If you enroll in more than one UW campus, the number of credits you take is combined to determine your status, either full- or part-time, and your fees and tuition assessments. You must present proof of fees, paid and courses, and credits being taken. If you are enrolled full time in one institution, no additional fees will be assessed by the second campus. If you are not enrolled full time at the first campus, the second campus will charge a per credit rate until the full-time credit charge is reached. The full-time rate will not be more than the lowest or more than the highest, full-time rate of the campuses involved. You should consult with the UW campus Student Services Office and Business Office for information about concurrent registration.

UW-Learning Innovations
Independent Study
UW System students may enroll in an independent study course (correspondence course) through the UW-Learning Innovations if the course is offered at a UW System campus and if the UW-Learning Innovations Independent Learning catalog indicates the course is offered for university credit. Students will be expected to complete the correspondence course at the same time as their regular UW-correspondence courses. Full-time students may take one UW-Learning Innovations course at no
You may add a course or courses by completing the appropriate Change of Program/Add form during the first two weeks of a semester, the first week of an eight-week course, or during a proportionate time for shorter courses. Your campus may require the signature of your advisor and/or instructor. The form must be turned in to the campus Student Services Office by the deadline date published in the campus timetable. The date the completed form is turned in to the campus Student Services Office is the effective date used for official records and billing.

You may add a course after the second week of classes of a semester if the change was necessary because you dropped a course and are substituting a lower level course in the same discipline. Exceptions to the time limit are made only with the written consent of the instructor.

A course or courses may be dropped by completing the Change of Program/Drop form during the first 10 weeks of a semester-long course, the first five weeks of an eight-week course, or a proportionate time for shorter courses. The campus may require the signature of your advisor and/or instructor. The form must be turned in to the Student Services Office by the deadline date published in the campus timetable. The date the completed form is turned in to the campus Student Services Office is the effective date used for official records and billing.

If a course is dropped after the second week of classes, for a semester course, or after the end of the first week for courses less than 12 weeks in length, a grade of W will be recorded on the student's official record. The UW may establish procedures for dropping students administratively if the students do not attend one or more of the first class sessions in a semester. The number of class sessions missed before implementation of an administrative drop is at the discretion of the UW Colleges.
WITHDRAWAL

Withdrawal means terminating your registration in all courses for the semester. Non-attendance does not constitute official withdrawal. You may officially withdraw from the University by:

1. Withdrawal Form. Submitting a completed Withdrawal Form to the campus Student Services Office.

The effective date of withdrawal will be the date this form is received in the Student Services Office.

2. Letter. Directing a dated letter with your signature to the campus Student Services Office stating your desire to withdraw. The postmark date will be used to determine the effective date of withdrawal. This letter must be postmarked no later than the end of the 10th week of classes.

3. Telephone call. If this option is used, the date of the call will be used as the effective date of withdrawal. The telephone call must be followed by a signed letter of authorization, postmarked within two (2) days of the call. If the letter is not postmarked within these two days, the postmark date will determine the effective date of withdrawal.

If you are attending a UW System campus that rents textbooks, the official withdrawal process includes the return of the textbooks to the appropriate office.

You must complete the official withdrawal process in one of these three ways no later than the 10th week of classes of any semester, the end of the 8th week of an eight-week summer session, or proportionate time for a shorter session. If you do not withdraw in any of the ways described, you will receive grades in all courses for which you were registered.

Tuition refunds are governed by the UW Board of Regents Fee Refund Schedule, issued annually. The date your withdrawal is completed officially is the date used for calculating tuition refunds.

Any student who withdraws from two consecutive semesters will not be eligible to enroll without seeking readmission. This does not affect students who enroll for an original credit load of less than six credits in each of two consecutive semesters.

Due to federal regulations that govern Student Financial Aid, you may owe a repayment of your financial aid if you withdraw from the University. See “Academic Withdrawal” in the Student Financial Aid section of this catalog, page 21. Withdrawing from school may also affect your future eligibility for financial aid. If you do not fulfill the Satisfactory Academic Progress policy requirements, see “Satisfactory Academic Progress for Financial Aid Eligibility” in the Student Financial Aid section of this catalog, page 22. Contact your campus Student Services Office if you have questions about financial aid and/or withdrawing.
academic policies
AND REGULATIONS
ACADEMIC 

credit

Each course is assigned a number of credit hours. Credit is measured in semester hours. A credit of one semester hour usually represents one hour of lecture or two hours of laboratory or studio per week. You should expect to spend two to three hours each week outside of class in preparation and study for each credit.

Student Classification
Zero to 29 degree credits equal freshman standing; 30 or more degree credits equal sophomore standing.

Credit Load
Freshmen and sophomores may enroll in up to 18 credits during the fall or spring semester. High school special students will be limited to six credits per semester. Credit restrictions also may be imposed on students who are designated as high risk and/or are enrolled in remedial course work. Students are allowed to enroll in a maximum of nine credits during summer session, whether in an eight week session and/or any combination of shorter sessions. The maximum credit load for a four-week session is four credits. The approval of the Student Services Office or the advisor is required to enroll in more than the maximum number of credits.

Non-Degree Credit
Some courses are offered for non-degree credit. Examples are Math 081 and 091, which are high school algebra and geometry. Such courses will not be counted towards the associate degree and are not used in determining a grade point average for any purpose. However, non-degree credits will count in determining whether a student has completed sufficient course work to maintain satisfactory academic progress and as part of load for financial aid purposes.

Zero Credit Courses
Some courses are offered for zero degree credit. If you take a zero credit course, a grade will be recorded. You are expected to do all assigned work in the course. Zero credit courses count as one credit for fee purposes.

30 Credit Rule
If your scores on the English or mathematics placement tests indicate that you must enroll in remedial course work, UW policy requires that you complete successfully the remedial course(s) before you earn a total of 30 credits. In addition, you may be required to limit the number of credits carried while you are enrolled in remedial courses.

Pass/Fail
You may enroll in elective courses on a pass/fail basis. This option allows you to explore a field or subject without worrying about the letter grade you earn. Courses to be applied to the Associate of Arts and Science degree and general education requirements may not be taken on a pass/fail basis. Students undecided about a major should not take courses on a pass/fail basis because these courses might later become part of major requirements. Many universities do not permit pass/fail courses to count toward meeting major or general studies requirements. Instructors assign final grades of 5 (pass) and 0 (fail) for courses taken on a pass/fail basis. The results of any pass/fail course will not affect your grade point average (GPA).

A student may take only one pass/fail course in any semester, including summer session. You may elect two such courses as a freshman and two such courses as a sophomore.

You must decide whether to take a pass/fail course during the time period allowed for adding a course. You may not change a course either to or from pass/fail after the deadline for adding a course.

Instructions In non-degree credit courses listed in the catalog and instructors in lecture forum (LEC) courses in the catalog may grade an entire class on a pass/fail basis. If that is the case, it will be indicated in the campus timetable.

Auditing
You may, with the consent of the instructor, audit a course. As an auditor,
you will not take exams nor have any course work evaluated by the instructor. You may not be allowed to audit a course if your presence will result in additional classroom space requirements or in increased instruction costs.

Audited courses carry no degree credit, do not count toward your GPA, and do not count toward full time attendance for purposes such as certification for Social Security or Veterans Administration benefits. They also do not count for purposes of financial aid eligibility.

You may change from audit to credit status during the same period allowed for adding a course, and you may change from credit to audit during the period allowed for dropping a course. You may take a previously audited course for credit.

Repeating Courses
You may repeat courses to improve your grade point average (GPA) or to improve your foundation of knowledge before taking succeeding courses in a discipline. A student may not repeat a course after having completed a succeeding course in the discipline. A "succeeding course" is one that has the course the student wishes to repeat as a prerequisite. Exemptions to the policy may be granted by the Director of Student Services. There is no limit to the number of times you may repeat a course, but all attempts and the resulting grades earned will appear on your transcript. If you repeat a course to improve your GPA, you must so indicate when registering. In this case, only the most recent credits attempted and the grade earned are used to compute your GPA. Courses repeated at institutions other than the UW Colleges will not affect a student's UW Colleges grade point average.

Students should be aware that some institutions will average the grades of all courses attempted when computing a GPA for transfer admission purposes. Courses you repeated at other schools will not affect your UW Colleges GPA.

If you do not indicate that a course is a repeat, all credits attempted and grades earned are used to compute your GPA. Ordinarily, courses you repeat will not be counted twice toward the credits necessary to earn your associate degree. For example, if you take HHS 101 twice for three credits each time, you will have earned only three credits toward your degree. Orchestra and Chorus are examples of courses you can take for degree credit more than one time.

Consult the campus Student Services Office if you plan to repeat a course, especially if you are receiving Veterans Administration or Social Security benefits.

Degree-seeking freshman or sophomore students may earn advanced standing credit for specific UW College courses. The courses in which this applies are determined by the academic departments and are described in the three sections that follow (Advanced Placement, College Level Examination Program, and additional academic department offerings). In some cases, standard examinations such as the College Level Examination Program (CLEP) or the College Board Advanced Placement Examination are used. Advanced standing credits will be recorded on the student's transcript as such and grades will not be assigned to those courses. Additional information on earning advanced standing credits is available at the campus Student Services Office.

1. Advanced Placement
The UW accepts for degree credit all successfully completed College Board Advanced Placement Examinations with scores of three, four, or five. See the Academic Department Additional Offerings section for the specific UW College credit that is awarded for each of the AP exams.

2. College Level Examination Program
Degree-seeking students may earn degree credits by taking the College Level Examination Program (CLEP) General Examinations. These tests must be taken before completing the first 16 college credits. Credits may be earned for the CLEP General Examination sections in Humanities, Social Sciences, and/or Natural Sciences. Minimum scores to earn credits are as follows:

- Humanities—569, 4 cr.
- Social sciences—568, 4 cr.
- Natural Sciences—571, 4 cr.

Credits earned for the Natural Sciences section will not count toward the associate degree natural science laboratory requirement.

Students will not receive credit for the English or math sections of the CLEP
ADVANCED STANDING

credit continued

General Examination. Credit cannot be awarded in any area in which a college course has been completed prior to the exam. Any credits earned by taking the CLEP General Examination will be recorded as such on students’ transcripts. CLEP Subject Examinations accepted by the UW Colleges are listed under each department in the Academic Department Additional Offerings section below.

3. International Baccalaureate
The UWC accepts for degree credit all successfully completed International Baccalaureate Examinations with a score of four or higher. See the Academic Department Additional Offerings section for the specific UWC credit that is awarded for each of the AP exams. Three additional elective credits will be awarded to students who complete the full International Baccalaureate Diploma.

4. Academic Department
Additional Offerings
A. Art Department
Students may earn two credits of Art Elective with a score of three, four or five on the Advanced Placement History of Art Exam, the Advanced Placement Studio Art: Drawing Exam, or the Advanced Placement Studio Art: General Portfolio Exam. Portfolios may be submitted to establish credit in studio courses.

B. Biological Sciences Department
Students may earn three credits of Biology Elective with a score of three on the Advanced Placement General Biology Exam. Students may earn five credits of BIO 109 with a score of four or five on the Advanced Placement General Biology Exam. Students may earn three credits of Biology Elective with a score of three, four or five on the Advanced Placement Environmental Science Exam.

Five credits for BIO 109 may be earned with a grade of four or higher on the Higher Level Biology Examination on the International Baccalaureate (IB) Program. The department does not offer credit through challenge examinations in any courses.

C. Business Department
Students may earn four credits in BUS 201. Contact the campus business faculty for exam and minimum score requirements.

D. Chemistry
Students may earn three credits of Chemistry Elective with a score of three on the Advanced Placement General Chemistry Exam. Students may earn five credits of CHE 145 with a score of four or five on the Advanced Placement General Chemistry Exam.

Students may earn five credits of CHE 145 and five credits of CHE 155 with a score of four or higher on the Higher Level Chemistry Examination on the International Baccalaureate (IB) Program.

E. Computer Science
Students may earn three credits of CPS 216 with a score of three, four or five on the Advanced Placement Computer Science A Exam. Students may earn three credits of CPS 216 with a score of three, four or five on the Advanced Placement Computer Science AB Exam.

F. Economics
Students may earn three credits of Economics Elective with a score of three, four or five on the Advanced Placement Macroeconomics Exam. Students may earn three credits of Economics Elective with a score of three, four or five on the Advanced Placement Microeconomics Exam.

Students may earn three credits of ECON 101 with a score of four or higher on the Higher Level Economics Examination on the International Baccalaureate (IB) Program. Students may earn three credits of ECON 203 with a score of six or seven on the Higher Level Economics Examination on the International Baccalaureate (IB) Program.

G. English Department
Students may earn credit by examination in the following courses:

ENG 101: by scoring three, four or five on the Advanced Placement English Language and Composition Exam.

ENG 102: by earning a minimum score of 50 on the 90-minute multiple-choice objective section of the CLEP Subject Examination in College Composition and by submitting a satisfactory (C or better) 90-minute impromptu essay and a satisfactory documented essay of at least four pages to the local English faculty.

ENG 201: by earning a minimum score of 55 on the 90-minute multiple-choice objective section of the CLEP Subject Examination in College Composition and by submitting a satisfactory (C or better) 90-minute impromptu essay and a satisfactory documented essay of six to eight pages to the local English faculty.

ENG 202: by earning a score of four or higher on the Higher Level International Baccalaureate examination in Language A (English IB).

ENG 250: there are three ways to receive credit by exam for this course:
- by earning a minimum score of 60 on the 90-minute multiple-choice objective section and by earning a satisfactory grade (C or better) on the 90-minute essay section of the CLEP Subject Examination in Analysis and Interpretation of Literature;
- by scoring three, four or five on the Advanced Placement English Literature and Composition Exam;
- by earning a score of five, six or seven on the Higher Level International Baccalaureate examination.

ENG 270: by earning a minimum score of 50 on the 90-minute multiple-choice objective section and by earning a satisfactory grade (C or better) on the 90-minute essay section of the CLEP Subject Examination in English Literature.
ADVANCED STANDING credit continued

ENG 272: by earning a minimum score of 50 on the 90-minute multiple-choice objective section and by earning a satisfactory grade (C or better) on the 90-minute essay section of the CLEP Subject Examination in American Literature.

ENG 280: by earning a minimum score of 50 on the 90-minute multiple-choice objective section and by earning a satisfactory grade (C or better) on the 90-minute essay section of the ACT/Proficiency Examination Program Test in Shakespeare.

H. FOREIGN LANGUAGE DEPARTMENT

Students may earn four credits of FRE, GER, or SPA 101 with a score of three on the Advanced Placement French, German or Spanish Language Exam.

Students may earn eight credits of FRE, GER, or SPA 101 and 105 with a score of four on the Advanced Placement French, German or Spanish Language Exam. Students may earn twelve credits of FRE, GER, or SPA 101, 105, and 201 with a score of five on the Advanced Placement French, German or Spanish Language Exam. Students may earn three credits of French or Spanish Elective with a score of three on the Advanced Placement French or Spanish Literature Exam. Students may earn three credits of FRE or SPA 221 with a score of four or five on the Advanced Placement French or Spanish Literature Exam.

Students may earn four credits of FRE, GER, or SPA 101 with a score of four on the Higher Level French, German or Spanish Examination on the International Baccalaureate (IB) Program. Students may earn twelve credits of FRE, GER, or SPA 101, 105 and 201 with a score of five or higher on the Higher Level French, German or Spanish Examination on the International Baccalaureate (IB) Program.

Students receiving foreign language credit for either the AP Language or IB exams may receive retroactive credits for courses between those for which they receive credit and the first foreign language course they take in the UW Colleges provided they receive a grade of B or better in that course.

French, German, Spanish credits may be earned for the elementary and intermediate courses (101, 105, 201, 205) lower than the first course (including the 107, 201, and 207 two-credit, modular courses) completed at the UW if that course is completed with a grade of B or higher. This policy is strictly enforced: a B- is not acceptable. Students must take a course and then take it again in a higher level course for credit and receive credit for the lower level course(s). Such retroactive credits (for coursework prior to the course taken) do not satisfy requirements for the Associate of Arts and Science Humanities designation. You may earn a maximum of 10 foreign language retroactive credits. If you wish to earn credits by this method, contact the appropriate instructor at the beginning of the semester.

Students also may earn credits for the elementary and intermediate courses (100, 105, 201, 205) lower than the first pair of two-credit modular courses (106/107, 203/204, 206, 207) successfully completed. A grade of B or better must be earned in each course of the modular pair; a B- is not acceptable in either course.

In addition, students may earn foreign language credit by obtaining a minimum score of 55 on the Level 1 CLEP exam in French, German or Spanish. Before credit is granted, students also must have an interview with a UW foreign language faculty member. Students may earn a maximum of eight credits for foreign language 101 and 105 courses by CLEP exam.

In addition, students may earn foreign language credit by obtaining a minimum score of 55 on the Level 1 CLEP exam in French, German or Spanish. Before credit is granted, students also must have an interview with a UW foreign language faculty member. Students may earn a maximum of eight credits for foreign language 101 and 105 courses by CLEP exam.
Students wishing to earn credit by examination in other foreign language courses must contact the appropriate instructor and a student services advisor.

I. Geography Department
Students may earn three credits of GEO 101 with a score of three, four or five on the Advanced Placement Human Geography Exam.

Students may earn three credits for Geography Elective by earning a score of four or higher on the Geography Examination of the Higher Level International Baccalaureate program.

J. History Department
Students may earn three credits of History Elective with a score of three on the Advanced Placement European History Exam. Students may earn six credits of HIS 119 and 120 with a score of four or five on the Advanced Placement European History Exam.

Students may earn three credits of History Elective with a score of three on the Advanced Placement United States History Exam. Students may earn six credits of HIS 101 and 102 with a score of four or five on the Advanced Placement United States History Exam.

Students may earn three credits of History Elective with a score of four or higher on the Higher Level International Baccalaureate examination in History of the Americas. Students may earn three credits of History Elective with a score of four or higher on the Higher Level International Baccalaureate examination in History of Europe.

K. Mathematics Department
Students may earn three credits of MAT 117 with a score of three, four or five on the Advanced Placement Statistics Exam. Students may earn five credits of MAT 221 with a score of three, four or five on the Advanced Placement Calculus AB Exam. Students may earn five credits of MAT 221 with a score of two on the Advanced Placement Calculus BC Exam. Students may earn ten credits of MAT 221 and 222 with a score of three, four or five on the Advanced Placement Calculus BC Exam.

Students may earn credit for MAT 221 by passing a department exam and then completing MAT 222 with a grade of C or higher. A grade of C is not acceptable. To earn credit by exam, contact a mathematics instructor. Students may earn five credits of Math 221 with a score of four or higher on the Higher Level International Baccalaureate examination in Mathematics.

L. Music Theory
Students may earn five credits of MUS 171 and 181 with a score of three on the Advanced Placement Music Theory Exam. Students may earn ten credits of MUS 171, 172, 181 and 182 with a score of four or five on the Advanced Placement Music Theory Exam.

M. Physics
Students may earn three credits of Physics Elective with a score of three, four or five on the Advanced Placement Physics B Exam. Students may earn three credits of Physics Elective with a score of three, four or five on the Advanced Placement Physics C: Electricity and Magnetism Exam. Students may earn three credits of Physics Elective with a score of three, four or five on the Advanced Placement Physics C: Mechanics Exam.

N. Political Science
Students may earn three credits of Political Science Elective with a score of three, four or five on the Advanced Placement Comparative Government and Politics Exam. Students may earn three credits of Political Science Elective with a score of three on the Advanced Placement United States Government and Politics Exam. Students may earn three credits of POL 104 with a score of four or five on the Advanced Placement United States Government and Politics Exam.

O. Psychology Department
Students may earn three credits of Psychology Elective with a score of three on the Advanced Placement Introductory Psychology Exam. Students may earn three credits of PSY 202 with a score of four or five on the Advanced Placement Introductory Psychology Exam.

Students may earn three credits for PSY 202 with a minimum score of 57 on the multiple choice portion of the CLEP Subject Examination in General Psychology.

P. Theatre Arts
Students may earn 3 credits of COM 130 with a score of four or higher on the Higher Level Theatre Arts Examination on the International Baccalaureate (IB) Program.
GRADING system

Semester grades are recorded by letter only. Each letter grade equals a certain number of grade points per credit. A grade of B in a three-credit subject equals nine grade points as illustrated by the following scale of grades and grade points:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Grade Points Per Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>A (excellent)</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
</tr>
<tr>
<td>B (good)</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>
</tr>
<tr>
<td>C+</td>
<td>2.33</td>
</tr>
<tr>
<td>C (average)</td>
<td>2.00</td>
</tr>
<tr>
<td>C-</td>
<td>1.67</td>
</tr>
<tr>
<td>D+</td>
<td>1.33</td>
</tr>
<tr>
<td>D (poor)</td>
<td>1.00</td>
</tr>
<tr>
<td>D-</td>
<td>0.67</td>
</tr>
<tr>
<td>F (fail)</td>
<td>0.00</td>
</tr>
</tbody>
</table>

The following symbols are used as grades where grade points are not assigned:
- CO-Audited course completed
- IA-Audited course not completed
- I-Incomplete
- R-Repeat

Used in remedial English and math courses, and in English 101 and Mathematics 105, when the student is making progress, but has not mastered the subject and must repeat the course.

S-Satisfactory
A passing grade for courses taken on a pass/fail basis.

U-Unsatisfactory
A failing grade for courses taken on a pass/fail basis.

W-Withdrew
Recorded opposite the course number and title on the academic transcript for any course dropped after the end of the second week of classes for a semester course or after the end of the first week for courses less than 12 weeks in length, and before the deadline for dropping courses. Only a statement of withdrawal will be recorded when students withdraw from an entire program.

The following symbols may appear following the number of credits:
- N-Course offered for non-degree credit
- H-Course taken for honors credit
- A-Course audited

Grade Point Average (GPA)
The quality of your work is indicated by your grade point average (GPA). The highest possible GPA is 4.0, representing an A grade in each course attempted; the lowest GPA, 0.0, represents an F grade in every course attempted. Your GPA is determined by dividing the total number of grade points earned by the total number of credits attempted.

Courses in which you received a grade of CO, IA, I, R, S, U or W are not counted when determining your GPA. If you complete a course in which you originally received a grade of I, the credits and points associated with the new grade will be included in your GPA.

Dean's List
Each UWC campus may publish a Dean's List to honor students with high GPAs. Dean's List Honors will be awarded to full-time students carrying at least 12 semester credits used to determine GPAs as detailed below. Dean's List Honors will be awarded to part-time students who have earned at least 15 credits with a cumulative average of 3.5 and who carry a minimum of three semester credits used in determining the GPA, and earn a semester GPA as detailed below. Honors will be awarded to full-time students carrying fewer than 12 semester GPA credits who meet the conditions described for part-time students. Part-time status will be identified on the Dean's List. You may request that your name be deleted from the public announcement of the Dean's List.

Honors:
Grade point average of 3.50-3.74
High Honors:
Grade point average of 3.75-3.99
Highest Honors:
Grade point average of 4.00

Incompletes
An Incomplete (I) may be recorded if you carried a passing grade in a class until near the end of the semester and then, because of substantiated cause beyond your control, were unable to take the final exam or complete a limited amount of term work. It is the student's responsibility to request an Incomplete or to consult with the instructor regarding the possibility of receiving an Incomplete.

In addition to submitting an Incomplete, the instructor also will submit a grade to be recorded as a permanent grade in the course if you fail to remove the Incomplete. The tentative grade is recorded by the instructor on the final grade sheet for a class along with the grade of I.

You are responsible for consulting with your instructor about the work to be completed. The instructor will file a detailed report of the work to be completed to allow you to finish the course. The format of the report and the filing place are determined by each UWC campus.

You must remove the Incomplete before the end of the next semester. If you and your instructor agree, an exception to the time limit may be made in writing to the campus Student Services Office. If you do not remove the Incomplete within the time limit, it will be replaced by the tentative grade indicated by your instructor on the final grade sheet.

Mid-term and Final Grades
Mid-term grades will be made available to you, informing you of your progress, usually by the end of the ninth week of the semester. The specific mechani-

ACADEMIC standing

You are expected to maintain quality standards of academic achievement in your work at the UWC. Quality is measured by high semester and cumulative GPAs.

Certain exceptions are allowed for part-time students but, unless otherwise noted, part-time students are expected to meet the same standards of academic achievement as other students.

Good standing is the status assigned when your semester and cumulative GPA is 2.0 or higher.

Probation and final probation are the statuses assigned when your academic progress is inadequate as determined by semester and/or cumulative GPA.

Academic suspension is the status assigned when your record of achievement is unacceptable to the extent that continued enrollment in the UWC is not permitted.

Probation and Suspension

The UWC is concerned about students whose academic achievement indicates they are unable to meet the expectations of their instructors or are experiencing other problems which may be interfering with their studies. Probation is a warning that you should take appropriate action to improve your achievement. You will be suspended when the UWC faculty believe your academic achievement record to date indicates a need to interrupt your enrollment to reassess and reevaluate your goals and plans. If you are placed on probation or suspended, you should give careful consideration to the factors which may be involved, and you should ask assistance from advisors and course instructors. Students who are on final probation should be regarded as at risk and may be required to limit their course credits and participate in special programming. Special programming may include, but is not limited to, advising prior to registration and a course load restriction normally not to exceed twelve credits maximum. Students may appeal the campus academic actions committee for exceptions to the guidelines established by the campus.

You are expected to maintain a 2.0 GPA on all work carried. If you fail to maintain the minimum GPA, you may be put on probation, final probation or suspended. Probation, final probation or suspension actions will be assessed at the end of a summer session. Credits attempted and grade points earned are included in the cumulative GPA and will be used in determining subsequent actions.

Suspension Status

The first suspension status results in a suspension from the UWC for one semester. A subsequent suspension will result in a suspension from the UWC for two semesters. If you are in suspension status and wish to enroll in summer session, you must obtain the permission of the campus dean.

You may appeal a suspension to the appropriate committee at your campus. Any appeal must include a clear explanation of problems causing your inadequate achievement and how you propose to resolve those problems. If you are allowed to continue, you will be on final probation and may be subject to other special conditions.

Appeals

Any academic action may be appealed, except probation or final probation. Exceptions will be determined at each UWC campus. Normally the appeal will be heard by the academic actions committee.

Academic Progress

Students are expected to make satisfactory progress in their course of study. Those who do not complete at least half of the credits for which they are registered as of the end of the period for adding classes in any one
Application for readmission:

If you have been out of school for a period of one year or more and wish to return to your studies, you must submit an application for readmission. You will be reviewed and notified of the decision to be made. If you are approved for readmission, you will be required to participate in an orientation and counseling session, and may have additional requirements imposed by the academic program. For more information, contact the Office of the Dean of Students at the University of [University Name].

Admission requirements:

- A minimum of 60 credits must be completed at the University of [University Name].
- A minimum of 12 credits must be completed at the University of [University Name].
- A minimum of 18 credits must be completed at the University of [University Name].
- A minimum of 24 credits must be completed at the University of [University Name].

- A minimum of 1095 credits must be completed at the University of [University Name].
- A minimum of 1110 credits must be completed at the University of [University Name].
- A minimum of 1125 credits must be completed at the University of [University Name].
GRADE APPEAL policy

The UW Colleges Grade Appeal Policy is based on the following principles:
(1) the faculty has responsibility for assignment of grades, (2) students should be free from prejudicial or capricious grading, and (3) no grade may be assigned or changed without departmental faculty authorization. The following steps constitute the procedure to be followed by a UW Colleges student wishing to appeal a grade:

1. A grade appeal should normally be initiated within 30 days of receipt of the grade report. Prior to making a formal appeal, the student should check with the instructor to make sure that no clerical error has been made.

2. The student shall submit a written appeal to the instructor detailing the basis on which the student believes the grade ought to have been different. During this first phase of the process, the student and instructor might meet to discuss the basis for the grade, if both are willing to do so. The instructor shall normally respond in writing to the student within 30 days.

3. The student may continue the appeal process by submitting his/her case, including copies of all correspondence to date, to the chair of the appropriate academic department or, in the case of a conflict of interest, to a designee appointed by the department's Executive Committee. This must be done within 30 days of receiving a written response from the instructor and the department chair or designee shall acknowledge the appeal in writing with a copy to the instructor.

4. Each department must have a review process and review body to adjudicate grade appeals. The review body shall examine available information to determine if any of the following grounds for changing a grade are present: inconsistent treatment, procedural errors, capricious judgments, or use of inappropriate criteria. The review body may request additional information from the instructor and/or may ask to see copies of the student's work. The department shall conclude its review within 60 days. After first securing the endorsement of the Department Chair, the chair of the reviewing body shall inform the instructor and student of the outcome of the review with copies to the Vice Chancellor for Academic Affairs, the Department Chair, the Registrar, the campus Director of Student Services, and the Campus Dean. If the review process finds with the student a change in grade is recommended, the Department Chair or designee shall notify the instructor, discuss the findings and suggest that the instructor change the grade and so notify the student. Should the instructor decline to change the grade, the Chair or designee shall forward the findings to the Vice Chancellor for Academic Affairs who will effect the change.

5. The student may appeal a decision upholding the original grade by requesting that the Vice Chancellor for Academic Affairs receives such a request for review. If or she shall examine the record created by the departmental review body, and shall uphold the decision of that body unless he or she finds:

a. The evidence of record does not support the findings and recommendations of the departmental review body;

b. Established procedures were not followed by the departmental review body and material prejudice to the student resulted;

c. The decision was based on factors prohibited by state or federal law regarding equal educational opportunities;

d. The decision was arbitrary and capricious. Should the Vice Chancellor's review find any of the above, the Vice Chancellor will remand the appeal to the department for action consistent with the finding.
student rights
AND RESPONSIBILITIES

the best start for the life you want
STUDENT RIGHTS & responsibilities

All students in the University of Wisconsin Colleges are governed and protected by federal, state and local laws, and by UW System and UWC policies and procedures.

The following chapters of the Wisconsin Administrative Code acknowledge the need to preserve the orderly processes of the UWC with regard to its teaching and public service missions, as well as the need to observe every student's procedural and substantive rights. Such laws, policies and regulations include Chapter UW-14 Student Academic Disciplinary Procedures; Chapter UW-17 Student, Nonacademic Disciplinary Procedures and Chapter UW-18 Conduct on University Lands.

Students are also protected by such provisions as Wisconsin Statute Section 36.12 which prohibits discrimination against students, and Chapter UW-22 which mandates accommodation of students' religious beliefs. Your right to a positive learning environment is protected by the UWC Code of Conduct, the Consensual Relations Statement and the Sexual Harassment Policy.

Information about these various rights and responsibilities is distributed to all new students at the time of orientation, and to continuing students in a manner determined by each UWC campus.

Student Right-to-Know & Campus Security Act

Each UWC Colleges campus Annual Security Report includes statistics for the previous three years concerning crimes that occurred on campus, in certain off-campus buildings or property owned or controlled by the campus, and on public property within, or immediately adjacent to and accessible from the campus. The report also includes institutional policies concerning campus security, such as policies concerning alcohol and drug use, crime prevention, the reporting of crimes, sexual assault and other matters.

Equity in Athletics Disclosure Act

The Equity in Athletics Disclosure Act of 1994 requires educational institutions that participate in federal student financial aid programs and have intercollegiate athletic programs to prepare an annual report which provides information about their intercollegiate athletic programs. Copies of the UWC reports may be obtained from the Student Services Office at each campus.

Safety and Health Policy

The University of Wisconsin System will provide and maintain adequate facilities for a safe and healthy learning environment. It is the university's responsibility to work with faculty and staff so that they are equipped to educate their students on practices and procedures that ensure safety for all members of the university. Employees with instructional responsibilities are expected to comply with state and federal safety laws and regulations in their institutional areas. Certain courses and research projects require that the student work with hazardous materials while engaging in academic studies. Instructors of these courses and research projects shall inform and train students on procedures that will maintain the students' personal health and safety, and provide them with information on the hazards of specific chemicals that will be used during their course of study. Furthermore, instructors will encourage and follow safety policies. Before using hazardous materials and equipment, the student shall review the procedures and information and discuss any associated concerns with the instructor.
The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their educational records. These are:

1. The right to inspect and review the student's educational records within 45 days of the day the University receives a request for access.

Students should submit to the Director of Student Services written requests that identify the records they wish to inspect. The Director of Student Services will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the Director of Student Services, the Director shall advise the student of the correct official to whom the request should be directed.

2. The right to request the amendment of the student's educational records that the student believes are inaccurate or misleading.

Students may ask the University to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student's educational records, except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities.

Upon request, the University may disclose educational records without consent to officials of another school in which a student seeks or intends to enroll.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University of Wisconsin Colleges to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
600 Independence Ave., SW
Washington, DC 20202-4605

5. You should be aware that, under the Act, the UW Colleges reserves the following to be directory information which is available to the public name, address (including e-mail address), telephone number, date of birth, dates of attendance, part-time/full-time status, degrees and awards received, major field of study, participation in officially recognized activities and sports, and previous educational institutions attended.

No other information will be released without your prior consent. If you choose to have directory information restricted, you should file the appropriate request form in the campus Student Services Office.

6. Each UW Colleges campus may publish a Dean's List to honor students with high grade point averages. (See page 34.) You may request that your name be deleted from the public announcement of the Dean's List.
The Higher Education Location Program (HELP) has provided toll-free educational advising for the institutions in the UW System since 1973. By calling 1-800-642-6459, you can speak with an advisor about virtually any topic related to your educational goals. HELP is now on-line. It provides a one-stop-shop for UW System student information and features Web pages with information about these and other topics:

**Gearing Up for College**

- Admission to the UW System
- Campus contacts and links to campus homepages

**Paying for College**

- and how to apply for financial aid

**Choosing A Major**

**Transfer Information**

- course equivalencies between the UW System and the Wisconsin Technical College System

**Special Services for Students**

- multicultural students, veterans and students with disabilities

**Counselor's Corner**

- (for high school counselors) contains issues of the HELP ByLine Newsletter and links to frequently asked questions

**Communicate With Us!**

- an area where students, their parents and counselors can order UW System publications and ask questions of HELP advisors by e-mail

As of Fall 1997, students are able to apply for admission using the UW System Electronic Application for Undergraduate Admission on the World Wide Web. This application is available from the Admission area of HELP On-Line or the UW Colleges homepage. You will be able to apply to multiple institutions in the UW System using this form. You can find HELP On Line at:

http://www.uwex.edu/ce/help/on-line.htm
transfer
FROM A UW COLLEGES' CAMPUS

the best start for the life you want
PLANNING for transfer

The UW Colleges is fully accredited by the Higher Learning Commission and a member of the North Central Association. Therefore, credits earned in the UWC will be accepted by other colleges and universities in Wisconsin and throughout the country. Students do need to plan carefully, however, to ensure that they select the courses which will fulfill the specific requirements of the program of study they expect to pursue. The UWC encourages you to consult your campus Student Services Office as early as possible for advice regarding transfer admission requirements and procedures.

TRANSFER AND the Associate Degree

According to the UW System Undergraduate Transfer Policy, students holding the UWC Associate of Arts and Sciences degree will be considered to have satisfied the university-wide general education breadth requirements. Colleges and schools may require transfer students to complete additional general education credits beyond the university-wide total if required of continuing students. In addition, the Associate Degree may not necessarily satisfy competency or proficiency requirements, upper division general education courses, general education courses that are prerequisites integral to a particular program or major and which are required of continuing students, and requirements mandated by external professional accrediting associations or program approving agencies.
OTHER TRANSFER
information

Admission
You must apply for admission to the university or college and provide official transcripts of all high school and postsecondary course work (such as work from the UW) you have attempted. At some schools, the particular department or program in which you wish to enroll may require a separate application so you may be required to meet separate entrance requirements. Contact your campus Student Services Office and the transfer university for information on specific application procedures, deadlines and entrance requirements.

Credits
Most colleges and universities limit the number of credits which can be transferred from a freshman/sophomore institution and applied toward a bachelor's degree. Students transferring to UW baccalaureate-granting institutions may generally transfer up to 72 semester credits. UW institutions may accept additional credits toward the degree where appropriate. This does not alter the regulations concerning credits to be earned in residence at an institution. The UW considers 72 credits to be its program length for purposes of its Financial Aid Office Satisfactory Academic Progress Policy. (See page 22 of this catalog.)

Before you have earned half the credits necessary to complete a bachelor's degree, you should consult an advisor about the total number of credits you can transfer to the university of your choice.

Financial Aid
If you wish to receive financial aid at your transfer university, indicate this on the admission application and request information about application procedures and any separate application form the university may use. Ask the UW central Financial Aid Office in Madison and the financial aid offices of Wisconsin System institutions, contact the admissions office on the specific campus or call the toll-free UW HELP number (1-800-442-6159).

Transcript Request
If you want your official UWC transcript sent to another institution, or if you want a copy for yourself, the request must be submitted in writing (telephone requests are not accepted). Request forms are available from the campus Student Services Office or you may send a letter or request to UWC Office of the Registrar, 780 Regent Street, PO Box 8000, Madison, WI 53708-8000. There is a $5 charge for each transcript. Transcripts will not be furnished for a student who has an outstanding obligation to the UWC (e.g., owes a fine, money, materials, or financial aid). The UWC does not issue copies of official transcripts or documents that it has received from other institutions.

of any other colleges you've attended to send a financial aid transcript (FAT) to your transfer institution. (This is different from the academic transcript required for admission.) Forms to request a FAT are available in the campus Student Services Office. There is no charge for the FAT.

Housing
Arrangements for housing at a university campus are handled in various ways. Usually you are required to file a separate application for housing or you must make your own arrangements for private housing. Housing arrangements should be considered early in your transfer process.

Transfer Questions
If you have questions regarding the transfer of credits, consult your campus Student Services Office. If you have specific questions about other University...
TRANSFER
Information System

For on-line information about credit transfer, academic requirements and other transferring, you are encouraged to use the Transfer Information System (TIS). TIS is designed to provide prospective transfer students with current information to help you better prepare for transfer. Contact your campus Student Services Office to learn more about this resource and how to access it.

http://www.uwsys.edu/tis/tis.html

GUARANTEED transfer

The Guaranteed Transfer Program enables students to begin their education as freshmen at the University of Wisconsin Colleges and be guaranteed admission to a UW System institution as juniors. After fulfilling certain credit and grade point average requirements, students will transfer with the same rights and privileges as those who began their education at the baccalaureate institution.

Students must submit a "Declaration of Intent to Participate" form at any time prior to the start of their sophomore year (thirty credits). Students must then complete, with a minimum grade point average of 2.00 (2.6 for UW-Madison), the number of credits required for junior status at the baccalaureate institution. Students will have three academic years from the time of matriculation in the UWC in which to complete the minimum credits required. The baccalaureate institution may make exceptions to the required number of credits for those majors/programs for which early transfer is recommended.

The Guaranteed Transfer Program guarantees admission to the baccalaureate institution only. Students must meet the same criteria (e.g. GPA, course requirements, etc.) for admission to specific majors/programs as continuing students.
the Associate of Arts
AND SCIENCE DEGREE

the best start for the life you want
DEGREE description

To fulfill the UW Colleges mission, the degree requires that core requirements in writing and mathematics be completed as well as a distribution of credits in breadth of knowledge categories. The breadth categories in the degree are defined as follows:

**Fine Arts and Humanities**
Students must acquire knowledge of ideas, beliefs, and abiding concerns pertaining to the human condition as represented in literature, philosophy, and cultural history. They must acquire a level of aesthetic appreciation of the human imagination as expressed in the fine arts, and appreciation of the impact of the arts upon the quality and character of human life.

**Mathematical and Natural Sciences**
Students must know of the nature and workings of the physical universe. They must understand scientific method, the functions of numerical data and the solving of problems through mathematical and statistical computations, as well as the application of the scientific method in laboratory and experimental work. For this, an appropriate level of computer literacy is required. Students must also be aware of environmental conditions and challenges, the interrelationships of lifeforms and ecosystems, and the impact of human activities upon natural environments.

**Social Sciences**
Students must understand the nature and dynamics of human social systems and how and why people organize their lives and resources. In doing so, students will learn about both their own and diverse cultures to acquire a historical perspective on long-term characteristics and consequences of social change and an informed understanding of the variety of human conditions and the interrelationships of nations, regions, peoples and individuals.

**Application and Performance**
Students must demonstrate an understanding of concepts, theory, and knowledge through the application of their skills and understanding of specific problems and activities.

**Ethnic Studies**
Students must become aware of and sensitive to diversity issues and problems. Courses fulfilling this requirement will have a substantial emphasis on cultural diversity within the US and examine those issues from at least one of the following perspectives: African American, Hispanic, Latino, Asian American, and American Indian topics.

**Interdisciplinary Studies**
Students must acquire an appreciation for the multiple dimensions of any given subject by applying the content, methods and assumptions of two or more disciplines. Students will learn to integrate knowledge from across the curriculum. A course is an interdisciplinary studies course if instruction from two or more disciplines teach the course.

---

**DEGREE requirements**

1. A minimum of 60 credits is required.
2. The UW General Education Requirements must be fulfilled.
3. At least 25 of the 60 credits must be completed within the UW, at least 15 of the final 30 credits must be earned within the UW.
4. A student must have a cumulative grade point average (GPA) of 2.0 earned at the UW, and 2.5 overall GPA in credits applied to the Associate of Arts and Science degree.
5. Students must be enrolled at a UW campus during the semester in which the degree requirements are completed or have earned the degree credits prior to transferring from the UW to a baccalaureate degree granting institution.
GENERAL EDUCATION requirements

The Associate of Arts and Science degree is a foundation for many majors in the UW System and is generally accepted by University of Wisconsin institutions as fulfilling the university-wide, college, and school general education breadth requirements. The degree may not fulfill certain proficiency, major, and/or program-specific requirements.

The University of Wisconsin Colleges offers the Associate of Arts and Science degree. There are no provisions for you to receive more than one associate degree.

I. Core Requirements
Grade of C or better in or exemption from the following:

WRITING - ENG 102
MATHMATICS - MAT 108
or MAT 110

The writing and mathematics requirements and their prerequisites may not be used to satisfy a breadth requirement when used to satisfy a core requirement.

II. Breadth Requirements

Fine Arts and Humanities
A student must earn a minimum of nine credits with at least one course designated as Fine Arts and at least one course designated as Humanities.

Mathematical and Natural Sciences
A student must earn a minimum of 11 credits in this category. A minimum of eight of these credits must be in at least two disciplines of the Natural Sciences and must include one laboratory science course.

Social Sciences
A student must earn a minimum of nine credits in this category. These courses must be selected from at least two disciplines.

Application and Performance
A student must earn a minimum of three credits in courses designated as Application and Performance.

Ethnic Studies
A student must earn a minimum of three credits in courses designated as Ethnic Studies. Ethnic Studies courses may also be counted toward another breadth category.

Interdisciplinary Studies
A student must earn a minimum of three credits in courses designated as Interdisciplinary Studies. Interdisciplinary Studies courses may also be counted toward another breadth category.

III. Electives
A student who has met the core requirements and the other breadth category minimums may complete the 60 credit minimum requirement with courses in this category.

IV. Exemptions
Exemption from ENG 102
Students may be exempted from ENG 102 based on an English Placement Test score of 655 or better and demonstrated competence in the writing of a research paper. Each request for exemption is to be treated individually and the campus English department representative will either review a paper employing documented support, written less than one year before the review, or will assign a relatively short (4-6 pages) paper which utilizes a minimum of four sources. No papers will be reviewed or exemptions granted after Nov. 1 in the fall and April 1 in the spring. The department representative is to inform the campus Student Services Office and the department chair of each exemption granted. The chair will then inform the Office of the Registrar. The department representative is also to inform the chair of each circumstance in which a request for exemption is denied. If you receive an exemption from ENG 102 and are planning to transfer to another institution, consult with your prospective institution regarding its composition requirements. No exemptions will be granted for students who have earned more than 30 credits, unless they have transferred to the UW Colleges with 30 or more credits. In that case, they must pursue the exemption within the first semester of attendance at the campus.

Exemption from Mathematics Core Requirement
A student is exempted from the Mathematics Core Requirement by obtaining a grade of C- or better in either MAT 124, or in both MAT 110 and MAT 113, or in any 200 level mathematics course of three or more credits, or mathematics placement into a 200 level course on the mathematics placement exam.

A student who completes both MAT 110 and MAT 113 with a C- or better will receive five credits in the Mathematical and Natural Sciences Breadth Category.

A student who completes both MAT 108 and MAT 110 may use one of the courses for the Mathematics Core Requirement and the other as Mathematical and Natural Sciences Breadth Category credits.

Disciplines:
DEGREE proficiencies

The UW Colleges is guided by the principles that a love of learning and a sense of identity, integrity, truth, beauty, and community benefit both the student and society. Given these principles and our mission to provide students with the proficiencies needed for further success, the UW regards the following areas of proficiency to be of primary importance in the education of our students.

The proficiencies will permeate the courses we offer. We expect that with the acquisition of the associate degree, students will have taken at least one course, and in most cases, several, which will address each proficiency. Assessment methods to determine student progress toward acquisition of the proficiencies at the course level are being developed. Students must be required to participate in assessment testing as a condition of receiving the degree.

I. Clear and Logical Thinking
The informed and disciplined use of rational thought in collecting, evaluating, and synthesizing information, and in framing and addressing “problems,” as well as constructing and supporting logical arguments has long been and must remain a fundamental goal of higher education. Students must be able to:

- analyze, synthesize, evaluate and interpret information and ideas,
- construct and support hypotheses and arguments,
- distinguish knowledge, values, beliefs, and opinions,
- select and apply scientific and other appropriate methodologies,
- solve quantitative and mathematical problems,
- interpret graphs, tables, and diagrams,
- use statistics appropriately and accurately,
- integrate knowledge and experience to arrive at creative solutions,
- evaluate situations of social responsibility.

- make decisions based on an informed understanding of the moral and ethical issues involved, and
- articulate accurately strengths and weaknesses of one’s own work.

II. Effective Communication
Students must develop and demonstrate proficiency in sharing knowledge with other people. Students must be able to:
- read and listen with comprehension and critical perception,
- recognize fallacies and inconsistencies,
- respond to the media actively and analytically,
- write clearly, precisely, and in a well-organized manner,
- develop a large and varied vocabulary,
- recognize and use a variety of written communication forms and styles,
- transmit information effectively through skillful speech delivery,
- respond orally to questions and challenges,
- recognize and use a variety of oral communication forms and styles,
- work collaboratively as part of a team,
- understand and communicate with people different from themselves,
- gather information from printed sources, electronic sources, and observation,
- use computer technologies for communication and problem-solving, and
- learn independently, simulating and satisfying intellectual curiosity.

III. Aesthetic Response
For an enhanced awareness and appreciation of art and the power and importance of creativity in human life, students need to develop and demonstrate aesthetic understanding and skill. Students must be able to:
- employ and expand the imagination,
- engage in creative expression, and
- respond to the natural world and creative expression with knowledge and sensitivity.

Distance Education Courses
The UW Colleges Distance Education Program offers courses to students using four different modes: audiographics, compressed video, computer based training (CBT) or online. Both audiographics and compressed video courses meet on campus at specific days and times like traditional classes, whereas online courses and CBTs are taken entirely over the Internet.

Audiographics uses an audio and computer link so that faculty and students can talk to each other and edit each other’s documents in a real time classroom setting even though they are not all in the same room.

Compressed video uses audio, computer links and video so that faculty and students can not only converse and edit each other’s documents, but can also see each other in a real time classroom setting even though they are not all in the same room.

Computer Based Training (CBT) courses are delivered to students using a course web site and the CBT modules on CD-ROMs. Students complete modules, submit homework via e-mail, and take a final exam to complete the course requirements. There is no seat time requirement. Correspondence with the instructor is done via e-mail.

Online or web-based courses never meet at a particular time or place although they are structured within an academic semester time frame. With a personal computer and the Internet, students attend class by reading lecture notes, interact with their professor via e-mail, participate in discussion groups with fellow students, download reference materials and revisit lecture notes at any time. Offline reading and regular assignments are also part of the curriculum. Online courses are described in detail at http://www.uwcolleges.com/.
American Indian Studies

The new American Indian Studies Program allows students planning to major or minor in American Indian Studies or Ethnic Studies degree programs at a 4-year institution to complete their freshman/sophomore coursework at the UW Colleges. While a full range of courses is available, many are not yet cross-listed under the American Indian Studies (AIS) designation. For more information about currently available courses and for an AIS Program Transfer Guide, contact the chair of the UW Colleges Political Science Department.

</tbody>
</table>
ANTHROPOLOGY - ART

ANT 200 Cultural Anthropology 3 cr
Survey of cultural anthropology with emphasis on ethnographic description, methodology and contemporary theory. Cross-cultural comparisons of societies and institutions. Course includes both humanistic and social scientific approaches to human sociocultural diversity. SS

ANT 204 CULTURES OF THE WORLD 3 cr
Ethnographic survey of the world's peoples and their cultures. Major regions of the world considered in an attempt to outline the variety, richness, and significance of cultural traditions. SS

ANT 250 Women in Cross-Cultural Perspective 3 cr
(Also as WOM 250.) Study of women in a variety of cultures around the world, both past and present. Includes consideration of the sexual division of labor, marriage systems, child rearing, relationships between men and women, systems of myths and ideologies concerning women's roles and the effects of socio-economic development and rapid social change. SS

ANT 260 American Indian Art 3 cr
A survey of Native American Indian art and its relationship to Native American cultures, past and present. Looks at pre-Columbian art; changes in art with European contact; and the most recent trends in Native American art. Philosophies of aesthetics and the relationship of art to material culture and world view will be analyzed from the cross-cultural perspective of the anthropology of art. FA/ES

ANT 314 Indians of North America 3 cr
Description and analysis of native cultures and the role of environmental and historical factors in North America. Prereq: previous anthropology course or cons. instr. SS/ES

ANT 325 Peoples and Cultures: Focused Explorations 3 cr
Ethnographic survey of the peoples and cultures of a specified geographic region or culture area. Explores the diversity of societies in the region, as well as persistence and change in cultural traditions. Emphasis may include the role of environment and prehistoric and historic events; social organization, kinship, belief systems, law, economics, and language. The selected area reflects the instructor's area of special competence. When offered, the selected area is indicated in the campus timetable. Course may be repeated for credit if selected area is different. Prereq: previous anthropology course or cons. instr. SS

ANT 343 Anthropology of Religion 3 cr
Anthropological approaches to selected religious systems, including geographic and topical comparisons, critical considerations of outstanding contributions and a view of religion as an ethnographic problem. Prereq: previous anthropology course or cons. instr. SS

ANT 350 Illness and Healing in Anthropological Perspective: Introduction to Medical Anthropology 3 cr
The interrelationships between ecology, culture, society, disease, and medicine from the beginning of humankind to the present. Includes the study of paleopathology (the analysis of disease found in the fossil record); how health, illness and disease are defined in a variety of societies; and how people construct cultural systems to cope with stress and illness. SS

ANT 353 Indians of the Western Great Lakes 3 cr
Analysis of Indian cultures in the area around the western Great Lakes, with emphasis on traditional cultures of the Indians in Wisconsin. Prereq: previous anthropology course or cons. instr. SS/ES

ART 100 Art Introduction 3 cr
Fundamental principles of two and three dimensional design: projects for the non-art major. Lecture-lab. Not recommended for students planning to major in art. AP

ART 101 Intro to Drawing 3 cr
Principles of creative and structural drawing; a Foundation course that explores a variety of ideas, techniques, and materials with a perceptual focus; drawing as a fine art and a basis for structure. An investigation of methods and materials. Lecture-lab. AP

ART 102 Intermediate Drawing 3 cr
Continuation of ART 101. Studio work in drawing with a variety of materials, techniques, and ideas. The class is conceptually based with an involvement and emphasis on structure, ideas and process. Lecture-lab. AP

ART 103 Drawing II 3 cr
Advanced drawing problems of expression and form. Emphasis on both skill and creative expression. Prereq: ART 102. Lecture-lab. AP

ART 111 Two-Dimensional Design 3 cr
Investigation of the basic elements and principles of two-dimensional design: arrangement of line, value, texture, and color theory. Lecture-lab. AP

ART 112 Three-Dimensional Design 3 cr
Investigation of the basic elements and principles of three-dimensional design; in the use of volume and spatial arrangement. Lecture-lab. AP

ART 121 Introduction to Painting 3 cr
Basic experience in various media—may include oil, watercolor, acrylic media: a survey of studio methods. Lecture-lab. AP

ART 122 Watercolor 3 cr
Exploration of aqueous media; aspects of traditional and contemporary procedures. Lecture-lab. AP

ART 125 Oil Painting 3 cr
Exploration of oil media; aspects of traditional and contemporary procedures. Lecture-lab. Prereq: ART 121 or cons. instr. AP

ART 131 Introduction to Sculpture 3 cr
Basic experience in three-dimensional media. A survey of materials and procedures used in sculptural processes. Lecture-lab. AP

ART 141 Introduction to Printmaking 3 cr
Exploration of the graphic media. May include relief, intaglio, serigraphy, lithography. Lecture-lab. AP

ART 154 Introduction to Ceramics 3 cr
Exploration of materials and processes; hand and wheel forming; glazing, firing and kiln management. Lecture-lab. Prereq: ART 101, ART 112 recommended. AP
ART 161 Introduction to Photography 3 cr
Black and white still photography: the camera, the negative, the print. Lecture-lab. AP

ART 175 Worlds of Art—Images/Objects/Ideas 3 cr
An introduction to the visual arts, intended for the non-art major, which emphasizes cross-cultural perspectives—specifically the impact race and ethnicity have on artistic production, art criticism, art philosophies and aesthetics among the five major ethnic groups in the United States—Mesoamerican, Native American, West African, Asian, and Western European. Field trips may be required. FA/ES

ART 180 The Artist and Visual Arts 3 cr
Cultural history as it is discerned through the investigation of the artist and the work of art. Lecture. FA

ART 181 Survey: Ancient and Medieval Art 3 cr
Art and architecture from the old stone age to the Gothic era. Field trip. Lecture. FA

ART 183 Survey: Renaissance to Modern Art 3 cr
Architecture, sculpture, painting and decorative arts from the late middle ages to the modern era. Field trip. Lecture. FA

ART 185 Survey: Renaissance Art 3 cr
Renaissance art and architecture in Italy and northern Europe. Field trip. Lecture. FA

ART 187 Survey: Modern Art 3 cr
Painting, sculpture, printmaking and drawing of the modern era. Field trip. Lecture. FA

ART 188 Survey: Modern Architecture and Design 3 cr
Architecture, landscape architecture, city planning, interior and industrial design of the modern era. Field trip. Lecture. FA

ART 201 Introduction to Life Drawing 3 cr
Anatomical and compositional considerations related to drawing from the human figure. Lecture-lab. AP

ART 202 Intermediate Life Drawing 3 cr
Continuation of ART 201. Lecture-lab. Prereq: ART 201. AP

ART 222 Intermediate Watercolor 3 cr
Continuation of ART 122 with emphasis upon individual development. Lecture-lab. Prereq: ART 122. AP

ART 225 Intermediate Oil Painting 3 cr
Continuation of ART 125 with emphasis upon individual development. Lecture-lab. Prereq: ART 125. AP

ART 231 Intermediate Sculpture 3 cr
Continuation of ART 131 with emphasis upon technical problems related to individual projects. Lecture-lab. Prereq: ART 131. AP

ART 232 Sculpture II 3 cr
Advanced work in sculptural expression; traditional and contemporary methods of production. Lecture-lab. Prereq: ART 231. AP

ART 241 Lithography 3 cr
Planographic printing, use of stone and metal plates, with exploration of various offset media. Lecture-lab. AP

ART 243 Intaglio 3 cr
Incised printing, engraving, etching and other processes used with the intaglio press. Lecture-lab. AP

ART 245 Serigraphy 3 cr
Methods and techniques. May include problems in color registration photo processes; other stencil applications. Lecture-lab. AP

ART 247 Relief Printing 3 cr
Woodcut and line cut processes; a survey of problems related to color registration and production. Lecture-lab. AP

ART 254 Intermediate Ceramics 3 cr
Continuation of ART 154. Further development of craftsmanship with emphasis upon individual projects. Lecture-lab. Prereq: ART 154. AP

ART 255 Ceramics II 3 cr
Advanced work in ceramic processes. May include construction and use of molds, slip casting; production technology. Lecture-lab. Prereq: ART 254. AP

ART 261 Intermediate Photography 3 cr
Continuation of ART 161 with emphasis on individual development. Lecture-lab. Prereq: ART 161. AP

ART 291 Special Topics 1-3 cr
Prereq: cons. instr.

ART 299 Independent Study 1-3 cr
Prereq: cons. instr.

Astronomy

AST 100 Survey of Astronomy 3-4 cr
Descriptive survey of astronomy for students with minimal background in mathematics and science; the solar system, stars, nebulae, galaxies, cosmology, astronomical methods. May be offered for three credits without laboratory work or for four credits with laboratory work consisting of telescopic observation, laboratory demonstration and astronomy exercises. Normally not open to students who have had the prerequisite for AST 200. Prereq: high school algebra and geometry or cons. instr. NS (if 4 cr. also LS)

AST 101 Observational Astronomy 1 cr
Observation of solar system, galactic and extra-galactic objects and introduction to basic observational techniques in astronomy. Includes telescopic and unaided eye observation, positional astronomy, astro-photography, optic spectroscopy, interpretation of astronomical data and astronomy laboratory exercises. Students who have AST 200 or AST 100 for 4 credits or equivalent courses, are not eligible for this course. Prereq: one year of high school algebra and one year of high school geometry or one semester of college algebra. If the prerequisite math course was taken more than five years ago, cons. instr. required. NS/ES taken concurrently with AST 100/152

AST 200 General Astronomy 4 cr
Survey of astronomy for students who have some background in mathematics and physics; the solar system, stars, nebulae, galaxies, cosmology, astronomical methods. Telescopic observation, laboratory demonstration and astronomy exercises; three hours lecture, two hours lab-discussion per week. Not open to students who have taken AST 100. Prereq: PHY 141, PHY 301 or equivalent. NS/ES
ASTRONOMY - BIOLOGICAL STUDIES

BIOLOGICAL STUDIES

BIO 160 Students may not receive credit for both BAC discussion and field trips.

AST 291 Topics in Astronomy 1-3 cr
An extended coverage of one or more topics in astronomy such as extra-terrestrial life, archaeoastronomy, cosmology, astrophysics, radio astronomy, stellar structure, dynamical astronomy, galactic structure and observational astronomy. Prereq: cons. instr.

Biological Sciences

Bacteriology

BAC 101 General Survey of Microbiology 4-5 cr
Survey of micro-organisms and their activities; emphasis on structure, taxonomy, function, ecology, nutrition, physiology, pathology and genetics. Survey of applied microbiology: agricultural, medical, industrial, environmental and food. The laboratory is an introduction to standard techniques and procedures in general microbiology. Lecture, lab, and may also include demonstrations, discussion and field trips. Prereq: introductory CHE, BIO courses recommended. NS/LS.

BAC 299 Reading and Research in Microbiology 1-3 cr
(Same as BOT/ZOO 299.) Supervised undergraduate reading and research in biological sciences. This course is designed to acquaint the undergraduate with the literature and research techniques used in biological investigation and to give practical experience in scientific problem-solving. Prereq: cons. instr.

BAC 303 Procaryotic Microbiology 3 cr
Basic biology of procaryotic microorganisms, including structure, function, physiology, genetics and ecology of bacteria. Required of Bacteriology majors and recommended for students majoring in basic biological sciences. Students may not receive credit for both BAC 101 and 303. Possible field trip(s). Prereq: Previous course in biology and completion of or concurrent registration in CHE 343. NS

BAC 304 Procaryotic Microbiology Laboratory 2 cr
The laboratory is an introduction to standard techniques and procedures in microbiology. This is the companion lab to BAC 303. Students may not receive credit for both BAC 101 and 304. Possible field trip(s). Prereq: Previous course in biology and completion of or concurrent registration in CHE 343. NS/LS

BIO 103 Human Environmental Biology 3-4 cr
A contemporary study of the natural world through the human perspective. Emphasis on humans as a modifying force in the biophysical environment, including selected topics in ecological principles, pollution, population biology and environmental management. This course meets the statutory requirement for Conservation of Natural Resources required for State certification for teachers of science and social sciences. Lecture, lab, and may also include demonstrations, discussion and field trips. NS/LS

BIO 107 Biological Aspects of Conservation of Natural Resources 3 cr
The principles underlying the proper management of our resources—water, soils, minerals, forests, wildlife and human. The current and past attitudes relating to the resources with the interaction and complexities of humans' interests. This meets the statutory requirement for Conservation of Natural Resources required for State certification for teachers of science and social sciences. Lecture and may also include demonstrations, discussion and field trips. NS

BIO 109 Concepts of Biology 5 cr
An introduction to the fundamental principles of living organisms. Includes cell and tissue structure, growth, basic physiological processes, reproduction and inheritance, classification, evolution and ecology. Lecture, lab, and may also include demonstrations, discussion and field trips. NS

BIO 160 Heredity 3 cr
Principles of heredity with applications to plant, animal and human inheritance; current advances in genetics and their bearing on the life sciences. Lecture and may also include demonstrations, discussion and field trips. NS

BIO 250 Principles of Ecology 4 cr
The interrelationships between living organisms and their environment, ecosystems concepts, population dynamics, community organization and distribution, and application of ecological principles to humans and their environment. Lecture, lab, and may also include demonstrations, discussion and field trips. Prereq: introductory BIO course. NS/LS

BIO 260 Genetics 3-4 cr
Laws of variation and heredity and their modification by environment, genetic engineering and chromosome behavior with emphasis on human genetics. Lecture, lab, and may also include demonstrations, discussion and field trips. Prereq: introductory BIO course. NS/LS

Botany

BOT 100 Survey of Botany 3 cr
Structure, functions, life histories, taxonomy and evolution of representative plants throughout the plant kingdom. Lecture, lab, and may also include demonstrations, discussion and field trips. NS/LS

BOT 130 General Botany 5 cr
An introduction to plant sciences including the structure, development, physiology and genetics of plants. The relation of the major plant groups and the principles of biology. Lecture, lab, and may also include demonstrations, discussion and field trips. NS/LS

BOT 202 Dendrology 3 cr
Identification, classification and economic importance of evergreen and deciduous woody plants, both native and exotic species. stressing characteristics of leaf, fruit, twig, bark and wood structure. Lecture, lab, and may also include demonstrations, discussion and field trips. No prerequisite; however, a course in general botany is recommended. NS/LS

BOT 240 Plants and Civilization 2 cr
The study of plants from an historical and geographical perspective, and how plants are used in the modern world as a source of food, drugs and other materials. Lecture and may also include demonstrations, discussion and field trips. NS
BOT 291 Special Topics in Botany 1-3 cr
(Same as ZOO 291.) Designed to cover topics in biology not ordinarily covered in other courses. Prereq: cons. instr.

BOT 299 Reading and Research in Botany 1-3 cr
(Same as BAC/ZOO 299.) Supervised undergraduate reading and research in biological sciences. This course is designed to acquaint the undergraduate with the literature and research techniques used in biological investigation and to give practical experience in scientific problem-solving. Prereq: cons. instr.

Natural Resources
NAT 250 Introduction to Fish, Forest and Wildlife Resources
An integrated introduction to the theoretical and applied aspects of the management of our biotic resources. This course will stress sustainable management and ecosystem integrity using contemporary conservation issues and local examples. NS/LS

Physiology
PHS 170 Human Anatomy and Physiology 3 cr
(Same as ZOO 170.) This is a basic course which introduces the nonbiology major to the study of how the human body is organized. Through lecture and laboratory, the student studies the major organ systems of the human body and how its structure relates to function. Lecture, lab, and may also include demonstrations, discussion and field trips. NS/LS

PHS 202 Anatomy and Physiology 4 cr
An examination of the structure and function of the human body at the molecular, cellular, tissue, organ and system levels of organization. The integration of these levels of organization within the human organism is emphasized. This is the first semester of a two-semester sequence. Students with credit in PHS 202 and PHS 203 may not receive associate degree credit for PHS 235 and ZOO 234. Lecture, lab, and may also include demonstrations, discussion and field trips. NS/LS

PHS 203 Anatomy and Physiology 4 cr
An examination of the structure and function of the human body at the molecular, cellular, tissue, organ and system levels of organization. The integration of these levels of organization within the human organism is emphasized. This is the second semester of a two-semester sequence. Students with credit in PHS 202 and PHS 203 may not receive associate degree credit for PHS 235 and ZOO 234. Lecture, lab, and may also include demonstrations, discussion and field trips. Prereq: Physiology 202. NS/LS

PHS 230 Human Anatomy and Physiology 5 cr
A study of the fundamental principles of human structure and function with applications to health and disease. The course will explore all organ systems of the human body at various levels of organization from the cellular and subcellular to the organ system level. Lecture, lab, and may also include demonstrations, discussion and field trips. Prereq: ZOO 101 or equivalent; introductory chemistry recommended. NS/LS

PHS 235 Human Physiology 5 cr
An examination of the physiological processes of the human body. Students with credit in PHS 235 and ZOO 234 may not receive associate degree credit for PHS 202 and PHS 203. Lecture, lab, and may also include demonstrations, discussion and field trips. Prereq: introductory courses in CHE and BIO or cons. instr. NS/LS

PHS 250 Updates in Biochemistry, Human Physiology and Microbiology
For nursing consortium only. This course is a review and recent update of concepts in biochemistry, human physiology and microbiology, designed for practical nurses or nursing assistants who plan to enter a BSN program. This course utilizes an extensive review packet of basic concepts in biochemistry, physiology and microbiology which must be completed by the student prior to and during the course. Lecture only, audiorographics class. Prereq: CNA, LPN or other clinical certification or license required.

Wildlife
WIL 140 Introduction to Wildlife Resources 3 cr
(Same as ZOO 140.) Wildlife resources of the United States; the importance of wildlife to our past and present economic and cultural life and selected problems in wildlife conservation. Lecture, lab, and may also include demonstrations, discussion and field trips. Prereq: introductory BIO course. NS/LS

Zoology
ZOO 101 Animal Biology 5 cr
General biological principles—structure and function of cells, histology, embryology, heredity, ecology and evolution; survey of the animal kingdom; and structure and function of the vertebrate body. Lecture, lab, and may also include demonstrations, discussion and field trips. NS/LS

ZOO 105 Introduction to Human Biology 3 cr
Introduction to the development, nature and processes of human adaptability. Lecture and may also include demonstrations, discussion and field trips. NS

ZOO 140 Introduction to Wildlife Resources 3 cr
(Same as WIL 140.) Wildlife resources of the United States; the importance of wildlife to our past and present economic and cultural life and selected problems in wildlife conservation. Lecture, lab, and may also include demonstrations, discussion and field trips. Prereq: Introductory BIO course. NS/LS

ZOO 155 Biology of Human Sexuality and Reproduction 3 cr
This course focuses on the biological aspects of human sexuality and reproduction. In addition, the following topics will be discussed from a biological perspective: birth control, sexually transmitted diseases, birth defects, abortion, differences between the sexes and the manipulation of the human reproductive process by science. Lecture and may also include demonstrations, discussion and field trips. NS
ZOO 170 Human Anatomy and Physiology 3 cr
(Same as PHS 170.) This is a basic course which introduces the nonbiology major to the study of the human body is organized. Through lecture and laboratory, the student studies the major organ systems of the human body and how its structure relates to function. Lecture, lab, and may also include demonstrations, discussion and field trips. NS/LS

ZOO 234 Human Anatomy 3 cr
A study of the fundamental structure and organization of the organs and systems of the human body. Lecture, lab, and may also include demonstrations, discussion and field trips. Students with credit in ZOO 234 and PHS 235 may not receive associate degree credit for PHS 202 and 203. Prereq: BIO course or cons. instr. NS/LS

ZOO 237 Vertebrate Biology 4 cr
An introduction to the study of vertebrate animals considering their structure, evolution, ecology and special adaptation. Lecture, lab, and may also include demonstrations, discussion and field trips. Prereq: introductory BIO course. NS/LS

ZOO 277 Ornithology 3 cr
A course which introduces the student to the biology of birds and the methods of modern field studies, identification, life histories, ecology and behavior of birds, with emphasis on local species. Lecture, lab, and may also include demonstrations, discussion and field trips. Prereq: introductory BIO course. NS/LS

ZOO 291 Special Topics in Zoology 1-3 cr
(Same as BOT 291.) Designed to cover topics in biology not ordinarily covered in other classes. Prereq: cons. instr.*

ZOO 299 Reading and Research in Zoology 1-3 cr
(Same as BAC/BOT 299.) Supervised undergraduate reading and research in biological sciences. This course is designed to acquaint the undergraduate with the literature and research techniques used in biological investigation and to give practical experience in scientific problem-solving. Prereq: cons. instr.*

ZOO 315 Conservation of Aquatic Resources: Limnology 2 cr
General limnology; study of lake and stream communities and their conservation. Lecture and may also include demonstrations, discussion and field trips. Prereq: introductory BIO course. NS

ZOO 316 Laboratory Conservation of Aquatic Resources: Limnology 2 cr
Biological, physical and chemical characteristics and their interrelationships in Wisconsin lakes and streams. Lab and field trips. Prereq: ZOO 315 or concurrent registration. NS/LS

BUS 101 Introduction to Business 3 cr
Introduction to the role of business in the modern political, social and economic environments; describes career opportunities. EL

BUS 110 Personal Finance 3 cr
A study of personal financial management. Examines the financial problems and consequent financial decisions required of individuals in our economy. Subjects covered are applications in family budgeting, consumer buying decisions, borrowing, insurance, personal real estate, income taxation, investments and estate planning. AP

BUS 194 Career and Life Planning 2 cr
This course will enable students to develop career goals and lay out a path for achieving these goals. Students will examine their personal interests, aptitudes, values, decision-making skills, academic plans and career awareness. This personal, educational and occupational information will then be organized and translated into an individualized course of action. Integration of career goals with current and future college course work will be stressed. AP

BUS 201 Introductory Accounting 4 cr
Fundamental principles, terminology, techniques and applications; books, accounts and financial statements for retailing and wholesaling concerns; treatment and presentation of proprietorship, partnership and corporate accounts. Prereq: open to second semester freshmen or cons. instr. AP

BUS 202 Intermediate Accounting 4 cr
Accounting theory principles, concepts and procedures and their applications as applied to balance sheet and income statement accounts, presentation and interpretation of financial statements; problems of terminology, valuation and analysis are included. Prereq: BUS 201. AP

BUS 204 Managerial Accounting 3 cr
Interpretation and application of accounting reports by management in planning, coordinating and controlling business activities; presentation, analysis and interpretation of financial data; internal control and reports to management; cost-volume profit relationships, budgets, costs and managerial decision making. Prereq: BUS 201. AP

BUS 210 Business Communication 3 cr
(Same as ENG 210.) Study and practice of the techniques of achieving clarity, brevity and effectiveness in business communication. Planning, preparation, critiquing of business letters, memorandum, short and long reports, résumés, manuals of procedure and oral reports. Prereq: ENG 102. AP

BUS 227 Multicultural Business 3 cr
(Same as AIS 227) Examines business topics requiring an understanding of culture. Includes cultural diversity in the workplace and the experiences of minorities in business. SS/ES
### BUSINESS - CHEMISTRY

**BUS 230 Introduction to Management Information Systems**  
An introductory course designed to provide students with fundamental knowledge of management information systems and their concepts including the use of information systems for management decision-making and the impact of information systems on management. Topics may vary as technology changes but the students will learn the tools of productivity (i.e., Excel) such as electronic spreadsheet, data base, and graphics. AP

**BUS 242 Business Ethics**  
(Also as PHI 243.) Critical discussion of ethical reasoning and moral values in business and industry; includes relevant case studies and readings. **HU**

**BUS 243 Economics and Business Statistics**  
(Same as ECO 243.) Elementary theory and techniques, probability and normal distribution, hypothesis testing, analysis and interpretation of economic and business data, index numbers, regression and time series analysis and Chi squares. Prereq: MAT 110 or MAT 210 or MAT 211 or concurrent registration in MAT 211. **MS**

**BUS 244 Introduction to International Business**  
This course focuses on the study of how businesses conduct their operations in the global economy. The political, legal, cultural, social and economic challenges confronting businesses in international markets will be examined. Topics covered include trade strategies, international business operations, international trade and financial theory and policy, foreign exchange markets and the theory of multinational enterprises. Prereq: BUS 101 or cons. instr., and ECO 203 or ECO 204. **SS**

**BUS 297 Special Topics**  
1-3 cr  
Prereq: cons. instr. *  

**BUS 299 Independent Studies**  
1-3 cr  
Prereq: cons. instr. *

### Chemistry

**CHE 112 Foundations of Chemistry**  
2 cr  
Designed to prepare students with limited science backgrounds for success in CHE 125 or the CHE 145/155 sequence. Emphasizes fundamental chemical concepts, chemical nomenclature and problem-solving skills. Two hours lecture/discussion. **EL**

**CHE 123 Chemistry and Society**  
3 cr  
A qualitative, non-mathematical course in chemistry for non-science majors. For students interested in physical therapy. Prereq: A grade of C- or better in CHE 125 or (C- or better in CHE 145 with cons. instr.) or cons. instr. **NS/LS**

**CHE 124 Natural Science Chemistry**  
4 cr  
Non-mathematical look at our chemical world of drugs, pollutants, household chemicals, food additives, etc. Lectures and laboratories. Not a suitable prerequisite for professional chemistry courses. (A student may not earn more than four credits by taking CHE 123 and CHE 124.) **NS/LS**

**CHE 125 Introductory Chemistry**  
5 cr  
A one semester introductory course in college chemistry including an introduction to organic chemistry. Consists of lectures, discussions and laboratories. Primarily for students whose programs require only CHE 125 or CHE 125-203 combination. Students may not count both CHE 125 and CHE 145 toward the natural science or laboratory science requirement for the associate degree. **NS/LS**

**CHE 145 General Chemistry**  
5 cr  
The first semester of a one-year course in college chemistry. Consists of lectures, discussions and laboratories. For students whose programs require a year of college chemistry or who plan to take advanced courses in chemistry. Students may not count both CHE 125 and CHE 145 toward the natural science or laboratory science requirement for the associate degree. Prereq: demonstrated competency at MAT 110 level or concurrent MAT 110 registration. **NS/LS**

**CHE 155 General Chemistry**  
5 cr  
Continuation of CHE 145. Consists of lectures, discussions and laboratories. Prereq: A grade of C- or better in CHE 145 or cons. instr. **NS/LS**

**CHE 203 Survey of Biochemistry**  
3 cr  
An elementary course in the chemical makeup and metabolic processes of living organisms. For non-science majors. Three hours of lectures per week. Together CHE 125 and CHE 203 constitute a year course with emphasis on organic and biological chemistry for non-science majors. Prereq: A grade of C- or better in CHE 125 or (C- or better in CHE 145 with cons. instr.) or cons. instr. **NS/LS**

**CHE 211 Biochemistry Laboratory**  
1 cr  
Laboratory to accompany CHE 203. Three hours of laboratory per week. This course is highly recommended for degree nursing students. Prereq: CHE 203 or concurrent registration. **NS/LS**

**CHE 214 Physiological Chemistry**  
3 cr  
Lectures and demonstrations on elemental aspects of organic and physiological chemistry; provided for students who have not had organic chemistry. For students interested in physical therapy. Prereq: A grade of C- or better in CHE 125 or (C- or better in CHE 145 with cons. instr.) or cons. instr. **NS**

**CHE 244 Quantitative Analysis**  
4 cr  
A course in the fundamentals of quantitative analysis. Two hours of lecture-discussion and six to eight hours of laboratory per week. Prereq: A grade of C- or better in CHE 155 or cons. instr. **NS/LS**

**CHE 290 Special Topics in Chemistry**  
1-5 cr  
Prereq: cons. instr. *  

**CHE 299 Independent Study in Chemistry**  
1-3 cr  
Prereq: cons. instr. *  

**CHE 343 Introductory Organic Chemistry**  
3 cr  
The first semester of a year course in organic chemistry. Three hours of lecture per week. Prereq: A grade of C- or better in CHE 155 or cons. instr. **NS/LS**

**CHE 352/353 Introductory Organic Chemistry**  
3 cr  
The second semester of a year course in organic chemistry. Three hours of lecture per week. Prereq: A grade of C- or better in CHE 155 or cons. instr. **NS/LS**

**CHE 354/355 Advanced Organic Chemistry**  
4 cr  
The second semester of a year course in organic chemistry. Three hours of lecture per week. Prereq: A grade of C- or better in CHE 155 or cons. instr. **NS/LS**

**CHE 356/357 Advanced Organic Chemistry**  
4 cr  
The second semester of a year course in organic chemistry. Three hours of lecture per week. Prereq: A grade of C- or better in CHE 155 or cons. instr. **NS/LS**

**CHE 360/361 Special Topics in Chemistry**  
1-3 cr  
Prereq: cons. instr. *  

**CHE 398 Independent Study in Chemistry**  
1-3 cr  
Prereq: cons. instr. *  

**CHE 399 Independent Study in Chemistry**  
1-3 cr  
Prereq: cons. instr. *  

**CHE 450/451 Material Science**  
3 cr  
A course in the properties and behavior of materials. Three hours of lecture per week. Prereq: A grade of C- or better in CHE 155 or cons. instr. **NS/LS**

**CHE 498/499 Independent Study in Chemistry**  
1-3 cr  
Prereq: cons. instr. *  

**CHE 499 Independent Study in Chemistry**  
1-3 cr  
Prereq: cons. instr. *

### Communication and Theatre Arts

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>COM 101</td>
<td>Introduction to Interpersonal Communication</td>
<td>3 cr</td>
<td>A course aimed at introducing communication theory, increasing the student's awareness of communication with others in one-on-one situations, and improving personal communication skills. Topics studied include perception, listening, nonverbal communication, language, and conflict management. AP</td>
</tr>
<tr>
<td>COM 103</td>
<td>Introduction to Public Speaking</td>
<td>3 cr</td>
<td>Study of the principles and techniques of effective speaking and listening in a variety of selected communication experiences. AP</td>
</tr>
<tr>
<td>COM 104</td>
<td>Applied Journalism—Newspaper</td>
<td>1 cr</td>
<td>Practical application of the principles of writing, editing, photography, and production of materials for campus publications. AP</td>
</tr>
<tr>
<td>COM 105</td>
<td>Applied Journalism—Radio</td>
<td>1 cr</td>
<td>Practical application of the principles of writing, editing, and producing materials and/or presenting materials on the radio. AP</td>
</tr>
<tr>
<td>COM 106</td>
<td>Applied Journalism—Television</td>
<td>1 cr</td>
<td>Practical application of the principles of writing, editing, videotaping, and producing materials for and/or presenting materials on television. AP</td>
</tr>
<tr>
<td>COM 110</td>
<td>Listening</td>
<td>2-3 cr</td>
<td>An introduction to the theories, research, behaviors, and skills associated with the process of listening. Application of content material will be explored and analyzed through classroom exercises and evaluations. AP</td>
</tr>
<tr>
<td>COM 130</td>
<td>Introduction to Theatre</td>
<td>3 cr</td>
<td>A study of the development of theatre as an art form. Emphasis is on the role of the audience and the understanding and appreciation of the nature of theatre, important plays, dramatic styles, and elements of a theatrical production. FA</td>
</tr>
<tr>
<td>COM 131</td>
<td>Theatre Laboratory</td>
<td>1 cr</td>
<td>Participation in theatrical production activities including directing, stage management, technical production, lighting, stage design, costuming, make-up, acting, and theatre management. It is possible to register in more than one section with consent of instructor.</td>
</tr>
<tr>
<td>COM 150</td>
<td>Introduction to Film</td>
<td>3 cr</td>
<td>Study of the nature and development of film as a distinctive medium of communication and as an art form. FA</td>
</tr>
<tr>
<td>COM 160</td>
<td>Communication and Human Behavior</td>
<td>3 cr</td>
<td>An examination of the diverse theories and research in fundamental concepts, problems and effects of human communication behavior. Prerequisite: COM 101. SS</td>
</tr>
<tr>
<td>COM 201</td>
<td>Introduction to Mass Communication</td>
<td>3 cr</td>
<td>A survey course examining print, electronic and persuasive media from an historical perspective. Topics discussed include newspapers, magazines, books, radio, television, film, public relations and advertising. SS</td>
</tr>
<tr>
<td>COM 203</td>
<td>News and Informational Writing</td>
<td>3 cr</td>
<td>Instruction and practice in written communication of factual materials under direct guidance of instructor. Emphasis is on writing for news media, but time is spent on procedures and techniques which are basic for all informational writing. Prerequisite: Typing proficiency recommended and the satisfactory completion of English 101 or equivalent documentation of language skills. AP</td>
</tr>
<tr>
<td>COM 204</td>
<td>News Reporting</td>
<td>3 cr</td>
<td>Emphasis on the gathering of news and interviewing. Field work in the community. Typing proficiency recommended and the satisfactory completion of English 101 or equivalent documentation of language skills. AP</td>
</tr>
<tr>
<td>COM 210</td>
<td>Introduction to Intercultural Communication</td>
<td>3 cr</td>
<td>An overview of how people communicate with people from other cultures. Communication behavior (both verbal and nonverbal) will be examined to determine their role in other cultures. Students will learn to communicate more competently with people from other cultures and ethnic groups. SS/ES</td>
</tr>
<tr>
<td>COM 218</td>
<td>Popular Culture in the Media</td>
<td>3 cr</td>
<td>An introduction to the analysis and interpretation of Popular Culture as an academic discipline. The class will examine forms of advertisement and entertainment including print and TV ads, films, television, music, and music videos. HU</td>
</tr>
<tr>
<td>COM 220</td>
<td>Introduction to Radio Broadcasting</td>
<td>3 cr</td>
<td>A study of the principles and practices of contemporary radio production and programming, including laboratory work. AP</td>
</tr>
<tr>
<td>COM 221</td>
<td>Introduction to Television Broadcasting</td>
<td>3 cr</td>
<td>The study of the principles and practices of contemporary television production and programming, including laboratory work. AP</td>
</tr>
<tr>
<td>COM 230</td>
<td>Literature and Performance</td>
<td>3 cr</td>
<td>A course aimed at increasing the student's ability to understand and appreciate literature through oral performance. The student will critically analyze and perform literary materials individually and/or in groups. HU</td>
</tr>
</tbody>
</table>
COM 232 Introduction to Acting 3 cr
Exploration of the fundamentals of acting through exercises and improvisations designed to enhance presentation of self and to promote concentration, observation, imagination and sensory responsiveness. AP

COM 234 Introduction to Stagecraft 3 cr
Theories and techniques of stagecraft, such as set design and construction, scene painting, stage lighting, costumes and make-up. AP

COM 266 Group Discussion 3 cr
Study of the structure and dynamics of small groups. Topics include decision making, group behaviors, critical thinking, problem solving and leadership in group interaction processes. SS

COM 298 Topics in Speech and Dramatic Arts 1-3 cr
The nature and subject of this course will be announced in the timetable. Prereq: may be determined by instructor. *

COM 299 Independent Studies 1-3 cr
Readings, reports, papers or projects to be determined by the individual instructor. Prereq: introductory COM course and cons. instr. *

COM 349 Children’s Theatre Production 3 cr
Methods of directing, designing and producing plays for the child audience. Examination of scripts and study of techniques in adapting children’s literature for the stage. AP

Computer Science

NOTE: Consult with the transfer institution to determine the combination of one credit modules which will transfer optimally.

NOTE: Computer Science and Engineering major courses start at the 200 level.

CPS 100 Computers and Society 1-3 cr
Study of the functions of computers, their applications and the resultant social changes, both desirable and undesirable. Consideration of the value systems that are threatened as computer technology continues to expand. No programming required. EL.

CPS 101 Computer Orientation 1 cr
An introduction to the campus computing set-up. Emphasis on what computers can do; using computers rather than programming them. EL.

CPS 103 Computer Fundamentals I 1 cr
An overview of computers, what they are and how they work. Typical topics include history, hardware, programming languages and operating systems, application software, communications, career opportunities and ethical issues. Also included is an introduction to the campus computing network. EL.

CPS 104 Computer Fundamentals II 1 cr
A continuation of CPS 103 with increased emphasis on advanced concepts. Typical topics include systems analysis/design/implemention, system security, MIS/decision support systems, computer applications in business and industry, structured design and programming, artificial intelligence, advanced application and future computer systems. Prereq: CPS 103. EL.

CPS 105 Computer Applications 1 cr
Principles and use of computer applications including word processors, spreadsheets and data bases. May also cover other applications such as telecommunications, graphics, statistics, simulations or CAI. Does not include teaching of programming. Course may not be taken more than once for degree credit. Students may not receive credit for both CPS 105 and any of CPS 106, CPS 107, CPS 108. AP

CPS 106 Word Processing Concepts 1 cr
Text entry, editing and manipulation. Covers typical as well as many advanced features of word processing. This course involves extensive hands-on experience. Students may not receive credit for both CPS 106 and CPS 105. AP

CPS 107 Spreadsheet Concepts 1 cr
Typical features and application of electronic spreadsheets. This course involves extensive hands-on experience. Students may not receive credit for both CPS 107 and CPS 105. AP

CPS 108 Database Concepts 1 cr
Creation of data files and data manipulation (editing, sorting, deleting, etc.). Report definition and generation. Accessing and searching of remote data bases. Includes extensive hands-on experience. Students may not receive credit for both CPS 108 and CPS 105. AP

CPS 109 Internet Applications 1 cr
Locating and evaluating information using internet services such as electronic mail, the World Wide Web, file transfer and on-line interest groups. Current social and ethical issues. Web page creation. Includes extensive hands-on experience. AP

CPS 110 Introduction to Computer Science (BASIC) 3 cr
How computers work, communicating with computers, areas of application and significance, simple Algebraic Language programming, elementary data processing and problem solving. Instruction and significant experience in BASIC. Prereq: intermediate high school mathematics or equivalent. Students may not receive credit for both CPS 110 and CPS 120. EL.

CPS 130 Introduction to Programming (BASIC) 1-2 cr
The basics of programming in BASIC for beginners. Introductory information on editing, program structure, data types, input, output, calculating, looping and selection. Short programs will be written and tested on a computer. Students may not receive credit for both CPS 130 and CPS 110. EL.

CPS 216 Problem Solving and Programming 4 cr
Techniques in C++
Program design using both modular and object-oriented methods. Topics covered to include stream I/O, recursion, multi-dimensional arrays, sorting and searching, pointers and dynamic memory allocation, classes and abstract data types, and operator overloading. Prereq: advanced high school mathematics or equivalent, or previous programming experience, or consent of instructor. MS

CPS 217 Computer Science I 4 cr
Object-oriented problem solving and program design. Topics covered include objects and class definitions, methods, control structures, inheritance, string and array processing and recursion. The course will be subtitled with the programming language used in instructions and features specific to that language will also be included. Prereq: Advanced high school math or equivalent and previous programming experience, or consent of instructor. MS
CPS 260 Programming in Assembly Language 3 cr
An introduction to microcomputer assembly language programming and architecture for students with previous exposure to a high level language. Topics typically include machine instruction sets, interrupts, boolean logic, binary coding of numeric and alphanumeric data, arrays and input/output. Optional topics may include file access, macros, graphics and mixed language programming. Prereq: 2 credits of programming in a high level language or cons. instr. MS

CPS 270 Data Structures 3 cr
An introduction to the data structures used for representing information involved in problem solving. Topics covered include stacks, queues, linked lists, trees, graphs, searching, sorting, hash tables and dynamic storage allocation. Prereq: MAT 110 or equivalent and CPS 216. AP

CPS 291 Special Topics 1-3 cr
In-depth treatment of subjects introduced in other CPS courses. Choice of topics depends on student interest, staff and equipment availability. Typical topics include file handling, operating systems, social implications, simulation, management tools, specialized languages, current technology, numerical methods, artificial intelligence and digital logic. Prereq: cons. instr.

CPS 299 Independent Study in Computer Science 1-3 cr
Prereq: cons. instr.

Economics

ECO 101 Introduction to Economics 3 cr
A study of economic systems and their interdependence in the global economy, with emphasis on problems and policies. Among the subjects included are competitive and non-competitive markets, gross domestic product determination and policy, the U.S. financial system and global trade. SS

ECO 203 Economics-Macro 3 cr
The emphasis of the course is on macro analysis and covers areas such as national income, commercial banking, business fluctuations, monetary and fiscal policies and economic growth. Designed for students who desire a basic one-year course (with ECO 204) in economics. Prereq: MAT 105 and ENG 101 or cons. instr. recommended. SS

ECO 204 Economics-Micro 3 cr
Emphasizes the micro economic approach concerning households, firms and market structures with a focus on price determination and distribution of income. Foreign trade and international financial institutions are included. Prereq: MAT 105 and ENG 101 or cons. instr. recommended. SS

ECO 230 Money and Banking 3 cr
A study of the structure and operations of the commercial banking system and other financial institutions, central banking and monetary policy, monetary systems and their developments, theories of money, income and prices and their economic effect on the economy, impact of fiscal policy and international finance on monetary policy. Prereq: ECO 203 or cons. instr. SS

ECO 243 Economics and Business Statistics 3 cr
(Same as BUS 243) Elementary theory and techniques, probability and normal distribution, hypothesis testing, analysis and interpretation of economic and business data, index numbers, regression and time series analysis and Chi squares. Prereq: MAT 110 or MAT 210 or MAT 211 or concurrent registration in MAT 211. MS

ECO 250 Government and Business 3 cr

ECO 297 Special Topics 1-3 cr
Prereq: cons. instr.

ECO 299 Independent Studies 1-3 cr
Prereq: cons. instr.

Education

EDU 201 Concepts, Issues and Field Experience in Education 3 cr
Classroom discussion (two hours per week) of educational principles, concepts and issues related to student-teacher-school-community interactions, including developmental aspects, sociocultural influences and human relations. Off-campus experience involving active participation in the program at an educational institution (four hours per week of off-campus experience will usually be required, but number may vary with current DPI and 4-year campus requirements.) AP

EDU 300 The Exceptional Individual 3 cr
The definition, classification and etiology of conditions creating special education needs. Topics include intellectually retarded, gifted, emotionally disturbed, and the speech, auditorily, visually, orthopedically and neurologically impaired. Prereq: PSY 201 or PSY 202 (grade of C- or better or cons. instr.); PSY 360 recommended. SS

EDU 330 Educational Psychology 3-4 cr
A study of the developmental process in children in the context of psychological principles of teaching and learning. Emphasis will be placed on understanding the social, emotional, physical, and intellectual development of children and adolescents. Attention will be directed toward the nature and conditions of learning, including the major types of learning, critical aspects of learning and the problems encountered in fostering and directing learning. Prereq: PSY 201 or PSY 202 (grade of C- or better or cons. instr.). SS

Engineering/Graphics/Mechanics

EGR 100 Engineering Freshman Orientation 1 cr
Discussion of what is actually done by engineers in the various fields. Also covers professional ethics, responsibilities to society, environmental technology assessment and professional registration. May be taken by non-engineering majors. EL

EGR 106 Technical Communications 3 cr
This course will cover graphical, oral and written presentations. The course would be useful to any discipline requiring report writing or data analysis. AP
ENGLISH AND LITERATURE

English and Literature

(See also Non-degree Credit Courses, page 82.)

ENG 101 Composition I 3 cr
A writing course that focuses on the basic techniques of composition, on the composing process with attention to drafts and revisions, and on coherence and organization of student essays. Prerequisite: a grade of C or better in Basics of Composition or exemption based on placement test score.

ENG 102 Composition II 3 cr
A rhetoric course that focuses on writing which presents information and ideas effectively, with attention to the essay and techniques of documentation. Emphasis will be on academic writing which is applicable across the curriculum. Prerequisite: ENG 101 or exemption based on placement test score.

ENG 201 Intermediate Composition 3 cr
A course devoted to the theory and practice of writing prose that presents information and ideas and is intended to inform and/or persuade. Emphasis will be placed on coherent organization, clear and forceful phrasing, logical thinking and other aspects of effective communication. Prerequisite: ENG 102 or exemption based on placement test score or cons. instr. AP

ENG 202 Writing about Literature 3 cr
Studying and writing about various types of literature. Helps students develop the ability to write critical, analytical and expalncative papers about literature. Prerequisite: ENG 102 or exemption based on placement test score or cons. instr. AP

ENG 203 Creative Writing I 3 cr
Chiefly devoted to writing and studying one or more of the following: fiction, poetry and drama. Prerequisite: ENG 102 or cons. instr. AP

ENG 204 Creative Writing II 3 cr
Chiefly devoted to writing and studying one or more of the following: fiction, poetry and drama. A continuation of ENG 203. Prerequisite: ENG 102 or cons. instr. AP

ENG 206 Technical Writing 3 cr
The study and practice of the techniques of achieving brevity, clarity and fluency in technical prose with emphasis on generating reports, letters, proposals and other technical writing forms. Particularly appropriate for students in science, engineering, architecture and other applied sciences. Prerequisite: ENG 101 or ENG 102 or cons. instr. AP

ENG 210 Business Communication 3 cr
(Same as BUS 210.) Study and practice of the techniques of achieving clarity, brevity and effectiveness in business communication. Planning, preparation, critiquing of business letters, memoranda, short and long reports, resumes, manuals of procedure and oral reports. Prerequisite: ENG 102 or cons. instr. AP

ENG 242 The American Indian in Literature and Film 3 cr
(Same as AIS 242) This course will provide a cross-disciplinary exploration of the images of American Indians and their relevance to American society in film, literary, and historical texts. Prerequisite: ENG 101 or consent of instructor. HU/ES

ENG 250 Introduction to Literature 3 cr
Intensive analysis of literature, including poetry, drama and fiction, using representative types from several periods of literature. Not open to students with credit in ENG 251, ENG 253 or ENG 255. Prerequisite: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

ENG 251 Introduction to Dramatic Literature 3 cr
Intensive analysis of dramatic literature using representative types from several periods of drama. Prerequisite: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

ENG 253 Introduction to Narrative Literature 3 cr
Intensive analysis of fiction using representative types from several periods of narrative literature. Prerequisite: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

ENG 255 Introduction to Poetry 3 cr
Intensive analysis of poetry using representative types from several periods of poetry. Prerequisite: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU
## ENGLISH AND LITERATURE

**ENG 260 English Literature Before 1798**  
3 cr  
A study of the development of British literature before 1798 through a survey of representative literary works. Not open to students with credit in ENG 270. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

**ENG 261 English Literature After 1798**  
3 cr  
A study of the development of British literature after 1798 through a survey of representative literary works. Not open to students with credit in ENG 270. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

**ENG 262 American Literature Before 1865**  
3 cr  
A study of the development of American literature before 1865 through a survey of representative literary works. Not open to students with credit in ENG 272. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

**ENG 263 American Literature After 1865**  
3 cr  
A study of the development of American literature after 1865 through a survey of representative literary works. Not open to students with credit in ENG 272. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

**ENG 264 The Western Tradition in Literature Before 1665**  
3 cr  
Selected masterpieces of the Western tradition in literature from ancient time to the end of the seventeenth century. Not open to students with credit in ENG 274. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

**ENG 265 The Western Tradition in Literature After 1665**  
3 cr  
Selected masterpieces of the Western tradition in literature from the end of the seventeenth century to the present. Not open to students with credit in ENG 274. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

**ENG 266 Modern Literature (Before 1945)**  
3 cr  
A study of the development of modern literature through the examination of significant and representative works written before 1945. Not open to students with credit in ENG 276. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

**ENG 267 Contemporary Literature (After 1945)**  
3 cr  
A study of the development of contemporary literature through the examination of significant and representative works written after approximately 1945. Not open to students with credit in ENG 276. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

**ENG 268 International Literature Before 1750**  
3 cr  
A study of representative authors from selected regions and eras, ranging from non-Western traditions such as the Indian, Arabic, West African, Chinese, Japanese and/or Native American to Western traditions such as the Greek, Scandinavian, French, Russian, Australian, and/or Latin American. Content and focus will vary according to instructor. Not open to students with credit in ENG 273. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

**ENG 269 International Literature After 1750**  
3 cr  
A study of representative authors from selected regions and eras ranging from non-Western traditions such as the Indian, Arabic, West African, Chinese, Japanese and/or Native American to Western traditions such as the Greek, Scandinavian, French, Russian, Australian and/or Latin American. Content and focus will vary according to instructor. Not open to students with credit in ENG 273. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

**ENG 270 English Literature**  
3 cr  
A study of the nature of British literature through the examination of representative literary works by major British authors. Not open to students with credit in ENG 260 or 261. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

**ENG 271 American Literature**  
3 cr  
A study of the nature of American literature through the examination of representative literary works by major American authors. Not open to students with credit in ENG 262 or 263. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

**ENG 272 American Literature**  
3 cr  
A study of the nature of American literature through the examination of representative literary works by major American authors. Not open to students with credit in ENG 262 or 263. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

**ENG 273 Studies in International Literature**  
3 cr  
A study of representative authors from selected regions and eras, ranging from non-Western traditions such as the Indian, Arabic, West African, Chinese, Japanese and/or Native American to Western traditions such as the Greek, Scandinavian, French, Russian, Australian, and/or Latin American. Content and focus will vary according to instructor. Not open to students with credit in ENG 268 or 269. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

**ENG 274 The Western Tradition in Literature**  
3 cr  
A study of selected masterpieces of the Western tradition in literature. Not open to students with credit in ENG 264 or 265. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

**ENG 275 Twentieth Century Novels of the World**  
3 cr  
A study of the nature of British literature through the examination of representative literary works by authors from the twentieth century. Not open to students with credit in ENG 260 or 261. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

**ENG 276 Twentieth Century Literature**  
3 cr  
A study of the nature of twentieth-century literature through the examination of representative literary works by significant authors, primarily British and American, of the twentieth century. Not open to students with credit in ENG 266 or 267. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

**ENG 277 Film Studies**  
3 cr  
An exploration of some aspect, theory, problem or distinctive variety of film, particularly narrative film. Emphasis may be upon the history of a genre, a single artist, or the distinctive character of the medium in comparison to drama or narrative fiction. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. May be taken for credit more than once if content changes. HU
ENGLISH AND LITERATURE - FRENCH

ENG 278 Multicultural Literature in America 3 cr
A study of ethnic literatures in America, including but not limited to African American, Native American, Latino and/or Asian American. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. May be taken for credit more than once if content changes. HU/ES

ENG 279 Women in Literature 3 cr
(Same as WOM 279.) A study of women characters and/or authors in their cultural contexts through an examination of representative literary works by significant authors. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. May be taken for credit more than once if content changes. HU

ENG 280 Introduction to Shakespeare 3 cr
A study of representative plays and sonnets. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. HU

ENG 285 The Literature of Nature 3 cr
A study of texts characterizing the natural world as experienced primarily by American writers of the 19th and 20th centuries. Prereq: Exemption from 101 based on placement test score or ENG 101 or cons. instr. May be taken for credit more than once if content changes.

ENG 290 Special Topics 1-3 cr
Designed to take up topics which cannot be accommodated in usual course format or by other courses. Topics, which will be specified in the course timetable, could range from writing for a campus newspaper or literary magazine to the study of a literary subgenre, such as science fiction, dramatic comedy, or epic poetry. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. May be taken for credit more than once if content changes.

ENG 299 Independent Study 1-3 cr
Individual student program must be approved by the UW Colleges English Department chair. Prereq: cons. instr. May be taken for credit more than once if content changes.

ENG 370 A Theme in English and/or American Literature 3 cr
This theme varies from time to time and may be, for example, philosophical, social, political or psychological. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. May be taken for credit more than once if content changes. HU

ENG 380 A Figure or Figures in English and/or American Literature 3 cr
The figure or figures may be one writer, such as Milton, or a group of writers, such as English Romantic poets of the nineteenth century or African-American writers of the twentieth century. Prereq: Exemption from ENG 101 based on placement test score or ENG 101 or cons. instr. May be taken for credit more than once if content changes. HU

French

Not all courses are available on all campuses on a regular basis.

If only Part I is completed, elective credit will be granted. The student should consult with the transfer institution regarding the acceptance of single module credit.

FRE 101 First Semester French 4 cr
For students who have had no previous training in the language. Emphasis on reading, writing, listening and speaking in French. Classes also may include cultural studies of France and other French-speaking countries. Field trip may be required. AP

FRE 103 First Semester-Part I 2 cr
For students who have had no previous training in the language. This course is the first module of a two-part introductory sequence. Emphasis on reading, writing, listening and speaking in French. Classes may include cultural studies of France and other French-speaking countries. Field trip may be required. No prereq. (This course in combination with FRE 104 is equivalent to FRE 101.) AP

FRE 104 First Semester-Part II 2 cr
Continuation of FRE 103 and second module of a two-part introductory sequence. Field trip may be required. Prereq: FRE 103 or cons. instr. (This course in combination with FRE 103 is equivalent to FRE 101.) AP

FRE 105 Second Semester French 4 cr
Continuation of FRE 101 or FRE 104. Field trip may be required. Prereq: FRE 101 or FRE 104 or cons. instr. AP

FRE 106 Second Semester-Part I 2 cr
Continuation of FRE 101 or FRE 104. This is the first module of a two-part second-semester sequence. Field trip may be required. Prereq: FRE 101 or FRE 104 or cons. instr. (This course in combination with FRE 107 is equivalent to FRE 105.) AP

FRE 107 Second Semester-Part II 2 cr
Continuation of FRE 106 and second module of a two-part second-semester sequence. Field trip may be required. Prereq: FRE 106 or cons. instr. (This course in combination with FRE 106 is equivalent to FRE 105.) AP

FRE 118 Practical Spoken French 1-2 cr
Emphasis on the spoken language in everyday contexts. Not part of the sequence of required foreign language courses. Prereq: cons. instr. AP

FRE 201 Third Semester French 4 cr
Reviews grammar taught during first two semesters while adding new material with some stress on idiomatic usage. All four skills (reading, writing, listening and speaking) are practiced, and continued emphasis is placed on acquisition of cultural knowledge. Field trip may be required. Prereq: FRE 105 or FRE 107 or cons. instr. HU

FRE 203 Third Semester-Part I 2 cr
This course is the first module of a two-part third-semester sequence. Reviews grammar taught during the first two (or four) semesters while adding new material with some stress on idiomatic usage. All four skills (reading, writing, listening and speaking) are practiced, and continued emphasis is placed on acquisition of cultural knowledge. Field trip may be required. Prereq: FRE 105 or FRE 107 or cons. instr. (This course in combination with FRE 204 is equivalent to FRE 201.) AP

</tr>
</tbody>
</table>
GEO 106 Survey of Geographic Information Sciences (GIS) 4 cr
A survey of methods for organizing and interpreting spatial information using state-of-the-art techniques and tools of geographic information sciences. These include remote sensing, computer cartography, global positioning systems (GPS) and spatial analysis. Hands-on experiences provide a foundation for higher level courses and applications across the disciplines, e.g. anthropology, sociology, marketing, environmental science, health sciences, biology, planning, history, as well as geography, geology, and climatology. NS/LS

GEO 107 Introduction to Maps and Air Photos 3-4 cr
(Same as GLG 107.) The use and interpretation of aerial photos and other forms of remote sensing and the basics of map reading, analysis and interpretation including a brief introduction to the principles of map design and construction. Emphasis on topographic and thematic maps and vertical air photos. NS (if 4 cr. also LS)

GEO 110 World Regional Geography 3 cr
Introduction to cultural geography through the integrated study of representative and significant world regions. Examples will compare and contrast present and potential ethnic, social, political, and environmental problems across the regions of the world, and explore basic solutions. SS

GEO 115 Economic Geography 3 cr
Analysis of location of population and the distribution and character of the leading global economic activities: agriculture, fishing, forestry, mining, manufacturing, transportation and trade. Field trip(s) may be required. SS

GEO 120 The Physical Environment 4-5 cr
Characteristics and world distribution of physical factors which in combination form the natural environment: elements of weather and climate, climatic types, earth materials, landforms and earth resources. Two or four hours of lab per week depending on the credit. Field trip(s) may be required. May not be taken for credit by students who have had GEO 123 or GEO 124. NS/LS

GEO 123 Physical Geography: Weather and Climate 4-5 cr
Study of Earth's atmospheric elements in both the short term (weather events) and long term (climate and climate change). Study includes: temperature; the seasons; pressure, wind and wind systems; humidity, cloud cover, stability and precipitation; jet streams, cyclones and fronts, thunderstorms, tornadoes and hurricanes. Study of the world's different climate regions, soils and vegetation; climate change (Greenhouse Effect, Ice Age); and human interaction with weather and climate. Lab work includes data, map and chart analysis. Field trip(s) may be required. NS/LS

GEO 124 Physical Geography: Landforms 4-5 cr
Study of the evolution and distribution of Earth's surface features (landforms) and physical landscapes, including the processes that have shaped them. Study covers plate tectonics, volcanoes, faults, rivers and river flow, glaciers, beaches, dunes, landslides, etc. Lab work includes the study of common rocks and minerals, and instruction in the use of topographic maps and aerial photographs to analyze the features and landscapes. Field trip(s) may be required. NS/LS

GEO 125 Survey of Physical Geography 3 cr
Characteristics and world distribution of physical factors which in combination form the natural environment: elements of weather and climate, climatic types, earth materials, landforms and earth resources. May not be taken for credit by students who have had GEO 120, GEO 123 or GEO 124. NS

GEO 130 Human Impact on the Environment 3-4 cr
A natural science course describing the alteration of the physical environment with the resulting effects on air, water, soils, vegetation, animal life and humans. Field trip(s) may be required. Geo 130 meets DPI requirements for environmental education at some UW baccalaureate institutions. NS (if 4 cr. also LS)

GEO 200 Historical Geography of the American Frontier 3 cr
An analysis of human adjustment to and alterations of the natural environment of the United States and adjacent parts of Canada at succeeding stages of time. Emphasis given to the westward movement of settlement and the impact of major cultural groups on the land, with special attention directed to the role of these groups in the formation of the present cultural landscape. SS

GEO 277 Geography of World Energy 3 cr
An analysis of traditional and innovative energy resources. SS

GEO 291 Geographic Field Study 1-6 cr
For exceptional students in lieu of a regular course. Prereq: sophomore standing and cons. instr. AP *

GEO 297 Special Topics in Geography 1-3 cr
The topics selected in this course will depend on student interest and special competencies of available staff. Prereq: cons. instr. *

GEO 299 Independent Study 1-3 cr
Individual study under the supervision of an instructor. Prereq: cons. instr. *

GEO 300 Population: World Survey 3-4 cr
Contrasts in numbers, densities and qualities of population with emphasis on regional implication. Prereq: one semester of college work. SS

GEO 341 The United States and Canada 3 cr
Description and analysis of the physical and cultural landscapes of the United States and Canada. Prereq: one semester of college work. SS

GEO 342 Geography of Wisconsin 3 cr
The geography of Wisconsin's natural and cultural landscapes with an emphasis on their sequential development and changing patterns of land use and settlement. Natural resources, population, land utilization and economic development of the state. Field trip(s) may be required. Prereq: one semester of college work. SS

GEO 349 Northwestern Europe 3 cr
Description and analysis of the physical and cultural landscapes of Northwestern Europe. Includes the British Isles, Scandinavian countries, Low countries, France, Germany, Switzerland and Austria. Prereq: one semester of college work. SS

GEO 350 Environmental Conservation 3 cr
Study of the human use, conservation, and management of the Earth's resources; ecosystems; human interactions with the environment; human population growth; impact of technology on the environment; and practical solutions to environmental problems. Field trip(s) may be required. Prereq: one semester of college work. GEO 350 meets DPI requirements for environmental education at some UW baccalaureate institutions. SS
**GEOLOGY - GERMAN**

**Geology**

GLG 100 Survey of Geology  
A brief study of minerals, rocks, fossils, geologic maps and the processes which create and modify the surface and subsurface features of the earth. Field trip(s) may be required. Not open to those who have had GLG 101, GLG 102. NS  

**GLG 101 Physical Geology**  
Study of the physical nature of planet Earth. The processes in operation above, on and beneath the surface that continue to shape its physical evolution (e.g., plate tectonics, vulcanism, faulting and earthquakes, glaciation, rivers); the origin and nature of common minerals and rocks and their distribution in the world; landscapes and their origins (e.g., mountain ranges, glacial forms, river valleys, etc.). Lab work includes the study of rocks and minerals and the interpretation of geological and topographic maps and aerial photographs. Field trip(s) may be required. NS/LS  

**GLG 102 Historical Geology**  
Study of the history of the Earth, beginning with its place in the solar system. An introduction to common rocks and minerals, to geological principles and reasoning, and to concepts of geologic time. Study of how the physical geography of Earth has changed through time and how the changes in the rock record tell of seas, mountain ranges, deserts, and ice ages through geologic time. Study of the fossil record and how life on Earth has changed to cope with the varying physical environments of Earth. Labs include work with diagrams, air photos, geologic maps, and fossils. Field trip(s) may be required. NS/LS  

**GLG 104 Landscapes of North America**  
(Same as GEO 104.) A general survey of the characteristics and origins of major natural/physical regions of North America, with an emphasis on national parks and monuments and other public areas. NS If 4 cr. also LS  

**GLG 107 Introduction to Maps and Air Photos**  
(Same as GEO 107.) The use and interpretation of aerial photos and other forms of remote sensing, and the basics of map reading, analysis and interpretation including a brief introduction to the principles of map design and construction. Emphasis on topographic and thematic maps and vertical air photos. NS If 4 cr. also LS  

**GLG 135 Environmental Geology**  
Applications of the science of geology to problems resulting from our intense use of the earth and its resources. Field trip(s) may be required. NS  

**GLG 169 Earth Science and Human Environment**  
The physical environment and our interaction with it. Emphasis on earth processes which affect humans, such as rivers, erosion, groundwater, landslides and earthquakes. The impact of humans upon the environment. Air, water and soil pollution studied from a physical-chemical standpoint. The depletion of energy and mineral resources and the need for humans to design with nature. Field trip(s) may be required. NS/LS  

**GLG 291 Geological Field Studies**  
Formal classroom study of an area of geologic interest followed by field study of the area. May be taken for credit more than once. Prereq: cons. instr. AP  

**GLG 297 Special Topics in Geology**  
The topic selected will depend on student interest and special competencies of available staff. Prereq: cons. instr.  

**GLG 299 Independent Reading**  
For exceptional students in lieu of a regular course. May involve seminar presentation. May be taken more than once. Prereq: sophomore standing and cons. instr.  

**GLG 309 Geomorphology**  
Principles and analysis of geomorphic processes and resulting landforms. Field trip(s) may be required. Prereq: One of the following—GLG 100, GLG 101, GLG 135, GLG 169, GEO 120 or GEO 124. NS  

**GLG 343 Glacial and Pleistocene Geology**  
Principles, characteristics and work of glaciers; events of the Pleistocene Period. Field trip(s) may be required. Prereq: One of the following—GLG 100, GLG 101, GLG 135, GLG 169, GEO 120 or GEO 124. NS  

**German**  

Not all courses are available on all campuses on a regular basis.

The first four semesters of German may be offered as two modules, Part I and Part II, carrying two credits each. Part I is a prerequisite for Part II. It is expected that students will complete both modules. If only Part I is completed, elective credit will be granted. The student should consult with the transfer institution regarding the acceptance of single module credit.

**GER 101 First Semester German**  
For students who have had no previous training in the language. Emphasis on reading, writing, listening and speaking in German. Classes also may include cultural studies of Germany and other German-speaking countries. Field trip may be required. AP  

**GER 103 First Semester-Part I**  
For students who have had no previous training in the language. This course is the first module of a two-part introductory sequence. Emphasis on reading, writing, listening and speaking in German. Classes may include cultural studies of Germany and other German-speaking countries. Field trip may be required. No prerequisite. (This course in combination with GER 104 is equivalent to GER 101.) AP  

**GER 104 First Semester-Part II**  
Continuation of GER 103 and second module of a two-part introductory sequence. Field trip may be required. Prereq: GER 103 or cons. instr. (This course in combination with GER 103 is equivalent to GER 101.) AP  

**GER 105 Second Semester German**  
Continuation of GER 101 or GER 104. Field trip may be required. Prereq: GER 101 or GER 104 or cons. instr. AP  

**GER 106 Second Semester-Part I**  
Continuation of GER 101 or GER 104. This is the first module of a two-part-second semester sequence. Field trip may be required. Prereq: GER 101 or GER 104 or cons. instr. (This course in combination with GER 107 is equivalent to GER 105.) AP

INTERDISCIPLINARY STUDIES - MATHEMATICS

Interdisciplinary Studies

INT 290 Special Topics in Interdisciplinary Studies
Intended courses designed to help students learn to integrate knowledge from across the curriculum. Includes investigation of the multiple dimensions of the given subject by applying the content, methods and assumptions of two or more disciplines as presented by instructors from those disciplines.

LECT 100 Freshman Seminar
Course for entering freshmen. Consult campus timetable for description. Must be approved by UWC Curriculum Committee.

LECT 101 University Forum
A lecture-discussion course designed to introduce students to current problems and significant issues. Open to freshmen and sophomores. May be taken three times for a maximum of three credits.

LECT 102 Library and Research Seminar
This course will explore research processes using print and electronic formats. It includes the identification and analysis of search sources and strategies; the proper organization and integration of information gathered, and the consideration of intellectual property issues. No prerequisites. EL

LECT 105 Greek and Latin Origins of Medical and Scientific Terminology
The course is designed to acquaint students pursuing science and other majors with the origins of technical terms they are likely to encounter. EL

LECT 290 Special Topics in Integrated Studies
Interdisciplinary courses involving components and faculty from more than one breadth area. Must have a departmental sponsor, approval of UWC Curriculum Committee, and endorsement of all departments involved. EL

MAT 105 Introduction to College Algebra
3-4 cr
Emphasizes algebraic techniques with polynomials, fractional expressions, exponents and radicals, linear and quadratic equations, and inequalities. Introduction to functions, their graphs and analytic geometry. Prereq: A grade of C or better in Elementary Algebra and a high school geometry course or one year of high school algebra and one year of high school geometry, or one year of high school algebra and concurrent registration in a geometry course, or equivalent. EL

MAT 108 Quantitative Reasoning
3 cr
This course is intended to develop analytic reasoning and the ability to solve quantitative problems. Topics to be covered include construction and interpretation of graphs, functional relationships, descriptive statistics, geometry and spatial visualization, math of finance, exponential growth, and basic probability. Appropriate use of units and dimensions, estimates, mathematical notation and available technology will be emphasized throughout the course. Prereq: a course in plane geometry and one of the following: (a) two years of high school algebra, (b) a grade of C- or better in MAT 105, (c) course(s) equivalent to (a) or (b). MS

MAT 110 College Algebra
3 cr
Definition of function; linear and non-linear functions and graphs including logarithmic and exponential functions; systems of linear equations; theory of polynomial equations and optional topics such as mathematical induction, matrix solution of linear systems and Cramer's rule. Prereq: a course in plane geometry and one of the following: (a) a grade of C- or better in MAT 105, (b) two years of high school algebra, (c) course(s) equivalent to (a) or (b). MS

MAT 113 Trigonometry
2 cr
Trigonometric functions, their basic properties and graphs, identities, inverse trigonometric functions, solving trigonometric equations, solutions of triangles. Prereq: a course in plane geometry and one of the following: (a) a grade of C- or better in MAT 110 or equivalent; (b) concurrent registration in MAT 110. MS

MAT 117 Elementary Statistics
3 cr
The primary aim of the course is a basic understanding and use of statistical concepts and methods to facilitate study and research in other disciplines. Includes measures of central tendency, measures of variability, grouped data, the normal distribution, central limit theorem, hypothesis testing, estimation, T-distribution and chi square test. Prereq: a grade of C- or better in MAT 105 or MAT 108 or equivalent. MS

MAT 124 Pre-Calculus Mathematics
5 cr
Functions and graphs, including linear, polynomial, logarithmic and exponential functions: complex numbers and theory of equations; binomial theorem; mathematical induction; trigonometric functions, their basic properties and graphs; identities; inverse trigonometric functions; solving trigonometric equations; de Moivre's theorem. Prereq: a grade of C- or better in MAT 105 or equivalent. Students may not earn more than five credits of any combination of MAT 110, MAT 113 and MAT 124. MS

Mathematics

University of Wisconsin system admission requirements include (3) units of college preparatory mathematics. This includes algebra, geometry, and other courses which have these as a prerequisite. Students who do not have a working knowledge of the background material are advised to make up the deficiency by taking courses such as MAT 081, MAT 090, MAT 091 (see page 83) and MAT 105 before attempting other university mathematics courses.

For all courses which have a prerequisite, a grade of C- or better is required in the prerequisite course. Students may be administratively withdrawn from a course if the stated prerequisites are not satisfied. In addition to the stated prerequisites, some campuses provide placement exams and recommend a satisfactory score for certain courses.

In math, credits earned in course x taken after passing course y, for which x is a prerequisite, shall not count toward the associate degree requirements.

(See also Non-degree Credit Courses, page 82)
MATHEMATICS - METEOROLOGY

MAT 130 Mathematics for Elementary Teachers 4 cr
A mathematics content course for prospective elementary teachers. Emphasis is on development of properties of arithmetic. Topics also may include elementary concepts of algebra, probability and statistics. Four hours lecture or three hours lecture and two hours laboratory per week. Prereq: a grade of C- or better in MAT 105 or MAT 108, or two years of high school algebra and one year of high school geometry, or cons. instr. MS

MAT 132 Geometry for Elementary Teachers 4 cr
The course emphasizes geometric concepts. Topics also may include concepts of algebra, probability and statistics. Four hours lecture or three hours lecture and two hours laboratory per week. Prereq: a grade of C- or better in MAT 105 or MAT 108, or two years of high school algebra and one year of high school geometry, or cons. instr. MS

MAT 140 Survey of Mathematics 3 cr
A course emphasizing the nature of mathematics, an appreciation of mathematical concepts and reasoning, and the development of mathematical systems. It is not intended as preparation for other mathematics courses. MS

MAT 210 Topics in Finite Mathematics 3-4 cr
Matrices, linear programming and applications, probability, Markov chains and mathematics of finance. Prereq: a grade of C- or better in MAT 110 or MAT 124 or equivalent. MS

MAT 211 Calculus 4-5 cr
Primarily for students in business, the social sciences and biological sciences who wish to acquire some knowledge of the techniques and applications of calculus. Topics include concepts, techniques, and applications of differential and integral calculus and multivariable calculus. Students who are preparing to major in mathematics, engineering or physical sciences should enroll in the MAT 221-MAT 222 sequence. Prereq: a grade of C- or better in MAT 110 or MAT 124 or equivalent. Students may not earn more than six credits by taking both MAT 211 and MAT 221. MS

MAT 221 Calculus and Analytic Geometry I 5 cr
Analytic geometry, functions, limits and continuity, the derivative, integrals, techniques and applications of differentiation, applications of integration, logarithmic and exponential functions and trigonometric functions. Prereq: a grade of C- or better in MAT 124 or MAT 110 and MAT 113 or equivalent. Students may not earn more than six credits by taking both MAT 211 and MAT 221. MS

MAT 222 Calculus and Analytic Geometry II 5 cr
Continuation of 221. Techniques of integration, polar coordinates, conic sections, infinite series and vectors of two and three dimensions. Note: the order of topics covered in MAT 221 and MAT 222 may depend on the text used and the instructor. Prereq: a grade of C- or better in MAT 221. MS

MAT 223 Calculus and Analytic Geometry III 4-5 cr
Continuation of MAT 222. Analytic geometry of three dimensions, functions of several variables, partial differentiation, multiple integration and introduction to differential equations. Prereq: a grade of C- or better in MAT 222. MS

MAT 224 Linear Mathematics 4 cr
Introduction to linear algebra, vector spaces, matrices, linear transformations and eigenvalues. Ordinary differential equations and linear systems of differential equations. Laplace transforms. Prereq: a grade of C- or better in MAT 223 or equivalent. MS

MAT 230 Discrete Mathematics 3 cr
Introduction to discrete mathematics with emphasis on topics applicable to computer science. Topics include symbolic logic, sets and relations, induction and recursion, counting techniques, algorithm analysis, graphs and digraphs, and Boolean algebra. Prereq: a grade of C- or better in MAT 113, MAT 124, MAT 221, or cons. instr. MS

MAT 234 Calculus of Several Variables 3 cr
Continuation of MAT 222. Analytic geometry of three dimensions, functions of several variables, multiple integration. This course is equivalent to MAT 223 without differential equations. Prereq: a grade of C- or better in MAT 222. Students may not receive credit for both MAT 223 and MAT 234. MS

MAT 240 Statistical Analysis 3 cr
Elements of probability theory; collection and presentation of sample data; basic problems of statistical inference; applications, including quality control; regression; and hypothesis testing. Prereq: a grade of C- or better in MAT 211, MAT 221 or equivalent. MS

MAT 262 Linear Algebra 3 cr
Matrix algebra, linear systems of equations, vector spaces, subspaces, linear dependence, rank of matrices, determinants, linear transformations, eigenvalues and eigenvectors, diagonalization, inner products and orthogonal vectors, and symmetric matrices. Prereq: a grade of C- or better in MAT 222. MS

MAT 270 Ordinary Differential Equations 3 cr
Ordinary differential equations of the first and second order, series solutions, higher order linear equations, the Wronskian, Laplace transform and applications, numerical methods and boundary value problems. Prereq: a grade of C- or better in MAT 222. MS

MAT 290 Special Topics in Mathematics 1-3 cr
A course focusing on a selected topic or set of topics selected by the instructor to meet special needs and interests of students. Prereq: a grade of C- or better in MAT 124 or MAT 211 or equivalent and cons. instr.

MAT 299 Independent Reading in Mathematics 1-3 cr
Prereq: Sophomore standing and cons. instr. *

Meteorology 3 cr
MLG 100 Introduction to Meteorology 2-4 cr
Introductory course in meteorology. Nature and causes of wind, clouds and precipitation; storm systems and fronts; thunderstorms, tornadoes and hurricanes; weather maps and forecasting. Field trip(s) may be required. NS (2-3 cr.)/(if 4 cr. also LS)
Music

MUS 070 Orchestra
Open to all students by tryout. AP
1-2 cr

MUS 071 Band
Open to all students by tryout. AP
1-2 cr

MUS 072 Chorus
Open to all students by tryout. AP
1-2 cr

MUS 074 Jazz Ensemble
Open to all students by tryout. AP
1-2 cr

MUS 075 Small Vocal Ensemble
Open to all students by tryout. AP
1-2 cr

MUS 076 Instrumental Chamber Ensemble
Open to all students by tryout. AP
1-2 cr

MUS 107 Vocal Techniques
Theory and practice in fundamentals of singing. AP
2 cr

MUS 115 Woodwind Techniques
Theory and practice in fundamentals of woodwind performance. AP
2 cr

MUS 130 Brass Techniques
Theory and practice in fundamentals of brass performance. AP
2 cr

MUS 145 Percussion Techniques
Theory and practice in fundamentals of percussion performance. AP
2 cr

MUS 147 String Techniques AP
Theory and practice in fundamentals of string performance. AP
2 cr

MUS 170 Fundamentals of Music
This course is designed to acquaint the student with the fundamentals of music through experiences with the keyboard, rhythm instruments, singing, listening, and note reading. Required for some elementary education majors and open to the general student. Acceptable as preparation for a music major or minor program. AP
3 cr

MUS 171 Music Theory I
A detailed study of the development of Western Music's structural techniques and basic compositional components through the study and analysis of harmony and counterpoint. Notation, rhythm, major and minor keys, modes, root position triads, inverted chords, non-harmonic tones and an introduction to part writing will be studied. Includes keyboard work to examine, explore, and understand the materials studied. Open to all students with consent of instructor. Required of students planning a music major or minor. Music majors and minors must enroll concurrently in MUS 171 to meet aural skills requirement. Prereq: Consent of instructor. FA
3 cr

MUS 172 Music Theory II
Continuation of MUS 171. Melodic harmonization, voice-leading, harmonic and rhythmic progression, dominant seventh and leading-tone seventh chords, non-dominant seventh chords, introduction to modulation, secondary dominant and leading-tone chords, introduction to two and three-part forms and an introduction to counterpoint will be studied. Required of students planning a music major or minor. Music majors and minors must enroll concurrently in MUS 182 to meet aural skills requirements. Prereq: Music 171. FA
3 cr

MUS 173 Music Literature and Appreciation
A guide to the understanding of music through listening experiences in the various styles and historical periods. FA
3 cr

MUS 174 Music Literature and Appreciation
A guide to the understanding of music through listening experiences in the various styles and historical periods. Although a continuation of MUS 173, MUS 173 is not a prerequisite for admission to this course. FA
3 cr

MUS 181 Music Theory Aural Skills I
Development of skills in sight-singing and ear-training. Required of students planning a music major or minor and enrolled in MUS 171. AP
2 cr

MUS 182 Music Theory Aural Skills II
Development of skills in sight-singing and ear-training. Required of students planning a music major or minor and enrolled in MUS 172. Prereq: MUS 181. AP
2 cr

MUS 271 Music Theory III
A continuation of MUS 172 with an introduction to advanced harmony and counterpoint. Concepts of counterpoint, harmonic sequences, chromatic harmony, advanced modulation, Neapolitan and augmented sixth chords, more complex forms such as sonata, concerto, sonata-rondo and the fugue will be studied. Required of students planning a music major or minor. Music majors and minors must enroll concurrently in MUS 281 to meet aural skills requirements. Prereq: MUS 172. FA
3 cr

MUS 272 Music Theory IV
A continuation of MUS 271. Embellishing chromatic chords, dominant prolongation, modulation to foreign keys, harmonic sequences, chromatic voice-leading, introduction to 20th century techniques including set theory, 12-tone serial techniques, pointillism, polytonality, cluster techniques, microtones, indeterminacy and 20th century notation will be studied. Required of students planning a music major or minor. Music majors and minors must enroll concurrently in MUS 282 to meet aural skills requirements. Prereq: MUS 271. FA
3 cr

MUS 273 Jazz History and Appreciation
An introduction to the styles and form of jazz through a study of its history, literature, cultural influences and musical structure. Includes recorded listening experiences. FA/ES
3 cr

MUS 275 History of Western Music
A survey of the historical development of musical style and theoretical concepts from ancient Greece to 1750. Required of students planning a music major or minor. Prereq: MUS 172 or consent of instructor. FA
3 cr

MUS 276 History of Western Music
A continuation of MUS 275 from 1750 to the present. Required of students planning a music major or minor. Prereq: MUS 275 or consent of instructor. MUS 275 is not a prerequisite for admission to this course. FA
3 cr

MUS 280 Conducting
Conducting techniques; emphasis on practical application to vocal and instrumental groups. AP
2 cr

MUS 281 Music Theory Aural Skills III
Development of aural skills in sight-singing and ear-training. Required of students planning a music major or minor and enrolled in MUS 271. Prereq: MUS 182. AP
2 cr
Music Applied Chart

Note: Applied Music courses are required for Music Majors. First-semester music majors will be limited to one-credit on their primary instrument. All applied courses are designated AP. (All applied music courses carry the prefix MUA.)

*All Beginning and Elementary Applied Piano may be taught as a class or as private lessons.
PHILOSOPHY

MUS 282 Music Theory Aural Skills IV 2 cr
Development of aural skills in sight-singing and ear-training.
Required of students planning a music major or minor and enrolled in MUS 272. Prereq. MUS 281. AP

MUS 295 Selected Studies 0-3 cr
Single course offerings not listed in the catalog, reflecting individual campus interests. Prereq: cons. instr.

MUS 299 Independent Studies 0-3 cr
Readings, papers, reports or projects to be determined by the instructor. Prereq: cons. instr.

MUA 299 Independent Studies 0-3 cr
Recitals, musicals, opera, theater or opera workshops. Prereq: cons. instr.

Natural Resources (see Biological Sciences)

Philosophy

PHI 101 Introduction to Philosophy 3 cr
An introduction to philosophy as the activity of clarifying ideas, developing positions, and evaluating arguments on problems such as what is, what ought to be, freedom, God and knowledge. Some reference to positions of leading figures and schools of thought in the history of philosophy is usually involved. HU

PHI 102 Social and Political Philosophy 3 cr
Studies of differing philosophical views about humankind and its political and social life. HU

PHI 103 Belief, Knowledge and Truth 3 cr
Study of the grounds of rational belief and knowledge and the methods used for obtaining them, with particular emphasis on problems of evidence and truth. HU

PHI 106 Philosophy of Religion 3 cr
An introduction to the problems inherent in defining the nature of religious experience and analyzing the concepts needed to explain and communicate that experience, together with an analysis of various religious assumptions. HU

PHI 201 Asian Philosophy 3 cr
An introduction to Asian philosophy through a study of opposing views about knowledge, nature, society and the individual. Areas of emphasis may include Chinese, Indian, Japanese and Muslim thought. HU

PHI 202 Feminist Philosophy 3 cr
Same as WOM 202.) An introduction to feminist philosophies through a study and critique of traditional and feminist views about women, their lives, society and knowledge, with particular attention to theories of women's oppression. HU

PHI 203 American Indian Philosophies 3 cr
A study of philosophical aspects of American Indian world views and practices—including a study of myth, ritual and ceremony—with an emphasis on systems of knowledge, explanations of natural phenomena, social and life cycle philosophies; and relations to nature. Attention will be given to historical and contemporary relations between American Indian and White cultures. HU/ES

PHI 205 Philosophy of Love, Sex, and Friendship 3 cr
A philosophical examination of the nature and value of different sorts of intimate companions—friends, lovers, and families. HU

PHI 210 Thinking Critically 3 cr
Argument in familiar contexts; emphasis on improving the student's skills in making and evaluating arguments. AP

PHI 211 Elementary Logic 3 cr
Principles, standards and methods of distinguishing good reasoning from bad, as applied to deductive and inductive inferences. The course largely consists of substituting symbols for statements in arguments and understanding and assessing the logical structure of these arguments. May include a discussion of the nature and detection of fallacies and linguistic pitfalls affecting reasoning. MS

PHI 220 Philosophy of Science 3 cr
An introduction to the presuppositions underlying the natural and social sciences; their nature and function, the logic of scientific method, and analysis of basic concepts such as cause, probability, determinism and teleology. HU

PHI 226 Philosophical Ideas in Literature 3 cr
A study of philosophical and moral ideas as embodied in selected works of literary art: aesthetic analysis of their structure and content. HU

PHI 230 The Biological Revolution: Directing our Destiny 3 cr
Combines significant elements from biology, philosophy and psychology. This course involves a multidisciplinary exploration of the ethical and practical implications of current developments and applications in the areas of molecular genetics, reproductive biology and sociobiology. HU

PHI 231 Feminism, Equality and Public Policy 3 cr
(Same as WOM 231 and POL 231.) This course involves a discussion and examination of the issues which generate public policy such as affirmative action, comparable worth, pornography, abortion, etc. from the viewpoint of philosophy and political science. HU

PHI 232 Nature and Culture: The Eighteenth Century 3 cr
This course involves participants from several disciplines, representing the humanities, social sciences, fine arts and natural sciences. The course emphasizes philosophy, literature, art, science and technology in the eighteenth century. HU

PHI 233 The Concept of Mental Illness 3 cr
PHI 237 Technology, Values, and Society 3 cr
An examination of ethical issues in technology, which may include freedom, censorship, privacy, equality, democratic participation, intellectual property, education, law enforcement, institutional change, and work. HU

PHI 240 Existentialism 3 cr
An introduction to existential philosophy through critical examination of philosophical problems found in the writings of selected existential philosophers from Kierkegaard to the present. HU
PHILOSOPHY - PHYSICAL EDUCATION AND ATHLETICS

PHI 241 Ethics 3 cr
Nature of moral problems and of ethical theory, varieties of moral skepticism, practical ethics and the evaluation of social institutions. HU

PHI 243 Business Ethics 3 cr
(Same as BUS 242.) Critical discussion of ethical reasoning and moral values in business and industry; includes relevant case studies and readings. HU

PHI 244 Environmental Ethics 3 cr
Philosophical examination of both traditional and recent concepts and values which structure human attitudes towards the natural environment. HU

PHI 248 Biomedical Ethics 3 cr
Study of ethical issues pertaining to medicine and related biological sciences. Issues covered usually include abortion, euthanasia, truth telling, confidentiality, experimentation on human subjects, behavior modification, genetic engineering, criteria of death, organ transplants, professional relationships and professional duties. HU

PHI 253 Philosophy of the Arts 3 cr
Examination of production, appreciation and criticism of works of art; sources and uses of standards. HU

PHI 258 Human Nature, Religion and Society 3 cr
Study and critique of the views of theistic and secular writers concerning religion and its relationship to individual and social problems. HU

PHI 291 Selected Topics in Philosophy 3 cr
Each course offering must be approved by both the local campus and the chair of the department. Prereq: varies with each offering.

PHI 299 Independent Reading in Philosophy 1-3 cr
Program must be approved by chair of the department. Prereq: cons. instr.

Physical Education and Athletics

Basic physical education open to all students; the courses develop skills, teach rules and prepare students for recreational enjoyment.

One credit courses. All courses are AP.

PED 001 Archery
002 Badminton
005 Basketball
006 Beginning Bowling
007 Intermediate Bowling
009 Beginning Golf
010 Intermediate Golf
012 Racquetball & Handball
014 Softball
016 Beginning Tennis
017 Intermediate Tennis
018 Beginning Volleyball
019 Weight Training
022 Intermediate Volleyball
024 Aerobic Dance
026 Bicycling
027 Introduction to Fitness
028 Advanced Fitness
032 Beginning Fencing
033 Intermediate Fencing
037 Martial Arts
041 Beginning Downhill Skiing
042 Intermediate Downhill Skiing
043 Cross Country Skiing
044 Tumbling and Trampoline
046 Yoga Relaxation
048 Orienteering
055 Beginning Swimming
056 Intermediate Swimming
058 Life Guard Training
061 Scuba Diving

Courses with emphasis on learning the skills, rules and teaching techniques. Primarily for students planning to major in physical education or related fields, but open to other students.

One credit courses. All courses are AP.

PED 102 Basketball Fundamentals
104 Badminton
106 Curling
108 Ballroom Dance
109 Golf
110 Racquetball & Handball
113 Beginning Swimming
115 Volleyball
116 Tennis
117 Soccer
118 Weight Training

PED 123 CPR 1 cr
Includes First Aid techniques for rescue breathing, cardiopulmonary resuscitation, and care for an obstructed airway for adults, children and infants. Course objectives include early warning signs, proper response and prevention. AP

PED 124 Alcohol and Other Drugs: Awareness, Alternatives 1 cr
The course will present up-to-date information on drugs and their abuse. Alternative activities such as fitness, stress management, moderation training and smoking cessation will be discussed. Opportunities for implementation of alternatives will be provided.

PED 127 Fitness for Life 2 cr
A contemporary examination of the effects of lifestyle, wellness, and health promotion on the individual. Instruction in procedures for self-evaluation as well as individualization of exercise prescription for the development of fitness. Participation in a planned program of aerobic activity is required. AP
PED 131-132
Officiating courses present a theoretical and practical approach to officiating athletic contests at various levels of competition. The mechanics of officiating, knowledge, interpretation of rules and field experience are integral parts of the courses. All courses are AP.

131 Officiating Volleyball
132 Officiating Basketball

Professional Physical Education
Courses for Majors & Minors

PED 203 Introduction to Play and Recreation 2 cr
Emphasizes design, leadership, programs and the administration of parks and playgrounds. AP

PED 204 Principles of and Introduction to Physical Education
An overview of health education, physical education, intramurals, athletics and recreation; specialized areas in the various fields and the vocational opportunities offered in each; personal and professional qualifications of a physical educator with emphasis on establishing the role of physical education in society. EL

PED 205 Prevention and Treatment of Athletic Injuries 2 cr
Procedures and techniques in the prevention and care of common athletic injuries. Assessment, rehabilitation and the relationship of athletic trainer to athletes, coaches and administrators. AP

PED 206 Personal Health & Wellness 3 cr
Survey of the various aspects of health and wellness which affect both the individual and the community. EL

PED 207 Basketball Theory and Coaching 2 cr
Theory and methods of teaching and coaching basketball. Skill analysis, practice schedules, rules and fundamentals of individual and team play are covered. AP

PED 208 Developmental Activities for Children 2 cr
The theory, organization and teaching of developmental activities to elementary school children. Observation and practical teaching labs. AP

PED 211 Physical Education for Elementary Schools 2-3 cr
Thorough examination of elementary school curricula through field observation, teaching and participation in activities. Bases for planning curriculum for primary and elementary grades are developed through selective readings and discussions. AP

PED 212 Tumbling, Trampoline and Floor Exercise 2 cr
Skill development, safety, spotting techniques and teaching progressions in tumbling, trampoline and floor exercise for students majoring in physical education and related fields. AP

PED 213 First Aid and Emergency Medical Care 3 cr
Principles and procedures in emergency and home medical care designed to prepare the layperson for emergencies likely to be encountered in daily living. AP

PED 217 Social Aspects of Sport 3 cr
A course focusing on sport institutions as social organizations and how they function within a culture. Emphasis is placed on group structure and membership and group pressure, socialization, stratification and deviance as they apply to the sport's setting. Selected topics include sport in educational institutions, minorities and women in sport, sport as work and play, and sport and the media. SS

PED 220 Water Safety Instructor 2 cr
Designed to train instructor candidates to teach American Red Cross water safety courses (not Lifeguard Training). Use of program materials, planning and conducting effective courses, evaluation of student progress, and preparation and submission of accurate reports and records are included in the course. Students successfully completing the course will be ARC certified. AP

PED 291 Special Topics in Physical Education 1-3 cr
Course content must be approved by the local campus and the department chair. EL

PED 299 Independent Study in Physical Education 1-3 cr
Program must be approved by the department chair. EL

Physics

PHY 107 Ideas of Modern Physics 3-4 cr
An introductory course for non-science majors, with particular emphasis on the development of modern theoretical concepts. Central topics: classical mechanics, electromagnetism, quantum theory, relativity theory; and some discussion of historical and philosophical aspects. May be offered without laboratory work for three credits or with laboratory for four credits. Check the campus timetable for credit limits. Not open to those who have had more than one or more courses in college physics; does not apply toward engineering or physics majors or toward the physics requirements for pre-professional courses. Prereq: minimal mathematics preparation. NS (if 4 cr. also LS)

PHY 110 Physics for the Health Sciences 3-4 cr
A descriptive introduction to those basic concepts of physics which have application to human health in general and to the medical and paramedical professions in particular. Primary attention will be paid to the physics of various functions of the human body (e.g., muscular and skeletal motions, the several senses and neural processes) and to the physics of commonly used instruments and equipment. Prereq: high school general science and algebra or cons. instr. NS (if 4 cr. also LS)

PHY 120 Physical Science 3-4 cr
Selected topics from physics, geology and astronomy. Not intended for those planning to major in a physical science; does not fulfill the prerequisites for any more advanced courses. May be offered without a laboratory for three credits or with a laboratory for four credits. Not open to those who have had PHY 141, PHY 201 or equivalent. NS (if 4 cr. also LS)
# PHYSICS - POLITICAL SCIENCE

**PHY 141 General Physics**  
4-5 cr  
The study of mechanics, heat, wave motion and sound. Recommended for students majoring in business, elementary education, medical technology, pharmacy, pre-dentistry and pre-medical studies. Three hours of lecture and three hours of laboratory-discussion per week or equivalent. Prereq: competency at MAT 105 level. NS/LS

**PHY 142 General Physics**  
4-5 cr  
A continuation of Physics 141. Electricity, magnetism, light, and atomic and nuclear physics. Three hours of lecture and three hours of laboratory-discussion per week or equivalent. Prereq: PHY 141. NS/LS

**PHY 201 General Physics**  
5 cr  
The study of mechanics, heat, wave motion and sound. Recommended for physical science and engineering majors. Three hours of lecture, one hour of discussion and three hours of laboratory per week or equivalent. Prereq: PHY 221 or concurrent registration with cons. instr. NS/LS

**PHY 202 General Physics**  
5 cr  
A continuation of Physics 201. Electricity, magnetism, light and nuclear physics. Prereq: PHY 201, concurrent registration in MAT 222 or cons. instr. NS/LS

**PHY 205 Modern Physics**  
3 cr  
Introduction to atomic, nuclear and solid state physics; kinetic theory; and quantum theory. Prereq: PHY 202 and cons. instr. NS

**PHY 291 Topics in Physics**  
1-3 cr  
An extended coverage of one or more topics in physics such as environmental physics, energy, biophysics, mechanics, electricity and magnetism, electro-magnetic radiation, statistical physics, solid state physics, relativity, quantum mechanics, and atomic and nuclear physics. Prereq: cons. instr. *

**PHY 299 Independent Study**  
1-3 cr  
Independent study under the supervision of an instructor. The work may, for example, consist of advanced laboratory investigation into a particular topic or library research and writing of a paper on some subject of interest. Prereq: cons. instr. *

**Physiology (see Biological Sciences)**

### Political Science

**POL 101 Introduction to Politics**  
3 cr  
A general introduction to political science, including basic concepts such as power, authority, legitimacy, types of political systems and approaches to the study of politics; problems common to all political systems. SS

**POL 104 American Government and Politics**  
3 cr  
Analysis of the decision-making structure and processes of American national government, including the role of parties and interest groups, and the value preferences within American society which affect the formation of public policy. SS

**POL 105 Comparative Politics of Major Nations**  
3 cr  
An examination of the domestic and foreign politics of Britain, France, Germany, Russia, China and selected other states compared to one another and to the USA. Cultures, institutions, processes and trends toward "democratic" regimes and decentralized economic systems will be analyzed, as will examples of cooperation and conflict. Vital course for intended majors in political or other social sciences. SS

**POL 201 Introduction to Political Theory**  
3 cr  
What is the ideal in politics and government? A survey and analysis of ideas relating to political systems and values. Prereq: previous course in political science or cons. instr. SS

**POL 204 National, State and Local Government**  
3 cr  
This course satisfies certification requirements for non-social science education majors and it provides an introductory overview of United States national, state and local governments, and politics. SS

**POL 219 Public Policy**  
3 cr  
Instructor's choices of issues of public policy, such as economic management, welfare, health, environment, narcotics, etc. will be analyzed using various approaches to policy making. SS

**POL 221 Politics of Crime and Punishment**  
3 cr  
An introduction to public policy as it affects public order: crime, criminals, police behavior, the criminal courts, juvenile justice and prisons. This course includes an analysis and evaluation of existing reform proposals. SS

**POL 225 State and Local Government**  
3 cr  
Organization, structure and functions of state and local governments in general, while using Wisconsin as a prime example. SS

**POL 231 Egalitarianism, Equality and Public Policy**  
3 cr  
(Same as PHI 231 and WOM 231.) An examination of issues, such as abortion, affirmative action, sexual harassment, family law, poverty/welfare, pornography and violence, that impact on women's pursuit of "equality," "justice" and "freedom." Political science, women's studies and philosophy perspectives will focus on public policy, judicial decisions and protests to exemplify success and failure in the women's struggle. SS

**POL 235 Politics of American Minorities**  
3 cr  
Examination of the struggle between and among ethnic, racial and language groups in American politics. SS/ES

**POL 250 Government and Business**  
3 cr  
A survey of government activities, regulations and policies affecting business and the economic system, such as anti-trust, safety and health regulations, subsidies, transfer payments, public works and government corporations. Prereq: POL 104 or ECO 204. SS

**POL 261 International Politics**  
3 cr  
An examination of conflict, cooperation and contemporary international political, economic, social and military issues in the world today, i.e., terrorism, low intensity conflict, war and peace, multinational corporations and trade, United Nations and diplomacy, poverty and illness, ethnicity/racial and nationalism. SS

**POL 298 Special Topics**  
1-3 cr  
A course for topics which would be appropriate for freshmen and sophomores. Topic and number of credits will be announced in the timetable.
POL 299 Independent Reading 1-3 cr
Survey of literature in a particular subject, possibly concluding with a research project supervised by the instructor. Subject and specific requirements determined by instructor/student agreement. Prereq: cons. instr. 

POL 308 American Presidency 3 cr
The President as chief administrative leader, political leader, foreign policy initiator, commander-in-chief and head of state. Prereq: previous course in political science. SS

Psychology

PSY 201 Introductory Psychology 4 cr
Survey of major content areas in psychology. Topics include research methodology, learning, memory, cognition, biological psychology, sensation, perception, motivation, emotion, development, personality, psychopathology and social psychology. Students may not receive credit for both PSY 201 and PSY 202. SS

PSY 202 Introductory Psychology 3 cr
(See PSY 201 course description.) Students who have taken PSY 201 may not take this course for credit. SS

PSY 203 Individuals and Institutions: Concepts/Experience 3 cr
Lecture/discussion presentation of concepts of human behavior will be related to concurrent experiences in community agencies such as schools, social service departments and hospitals. Agency placements involve a minimum commitment of four hours per week and will provide some direct contact between the students and agency clients. Two hours of lecture and discussion will be required, with opportunity for additional individual discussion. Prereq: PSY 201 or PSY 202 or concurrent registration and cons. instr. AP

PSY 208 Psychology of Gender 3 cr
(Same as WOM 208.) The process and consequences of gender development; review of current gender research and theory in the context of cultural, psychological, biological, historical and cross-cultural perspectives. The course focuses on female and male experience as it relates to issues such as cognition, value systems, achievement, interpersonal relationships, aggression and sexuality. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. SS

PSY 210 Statistical Methods in Psychology 3 cr
An introduction to descriptive and inferential statistics. Topics include measures of central tendency, measures of variability, correlation and regression, sampling distributions, and hypothesis testing procedures including t-tests and analysis of variance. Prereq: PSY 201 or 202 or concurrent registration and introductory college algebra or exemption. MS

PSY 224 Conceptual Introduction to Statistics 1 cr
This course is a supplement to PSY 225 for students who have had no previous course in statistics. It is not a substitute for PSY 210 and does not satisfy requirements for an introductory course in statistics. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. and concurrent registration in PSY 225. MS

PSY 225 Experimental Psychology 5 cr
Emphasis on research techniques, design, and methodologies including the collection, analysis and reporting of psychological data. Lecture and laboratory. Prereq: PSY 210, equivalent statistics course or cons. instr. NS/LS

PSY 250 Life Span Developmental Psychology 3 cr
A survey of human development theories and research. Topics include the biological, cognitive, emotional and social development of the individual from the prenatal period through old age. Students may not receive credit for both PSY 250 and PSY 360 or PSY 362. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. SS

PSY 254 Behavioral Neuroscience 3 cr
Discussion of the biological substrates of attention, emotion, motivation, learning, cognition, language and psychopathology; includes an examination of research using lesions, stimulation and neuroimaging. Some background in biology is strongly recommended. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. NS

PSY 270 Psychological Approaches to Minority Issues 3 cr
The use of psychological concepts, principles and research to enhance understanding of the experience of racial/ethnic minority groups. Topics may include identity formation, prejudice, discrimination, developmental variations, family life, socialization and mental health issues. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. SS/ES

PSY 299 Directed Study in Psychology 1-3 cr
Directed reading of the literature in a particular subject, possibly including a research project, under the personal supervision of the instructor. Prereq: PSY 201 or 202 (grade of C- or better) and cons. instr. 

PSY 307 Psychology of Personality 3 cr
Discussion of major theories and research in personality; may include psychoanalytic, dispositional, behavioral, cognitive, humanistic, and biological perspectives. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. SS

PSY 309 Abnormal Psychology 3 cr
Contemporary theory and research on abnormal behavior, includes diagnostic categories, approaches to treatment and understanding of abnormal behavior. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. One additional course in psychology is recommended. SS

PSY 311 Current Topics in Psychology 1-3 cr
Specific topic to be announced in campus timetable. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. 

PSY 330 Social Psychology 3 cr
Theory and research in areas such as social cognition, attitude formation and change, attribution theory, attraction, group processes, social influence, aggression and prosocial behavior. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. SS

PSY 360 Psychology of Childhood and Adolescence 3 cr
A survey of human development theories and research. Topics include the biological, cognitive, emotional and social development of the individual from the prenatal period through adolescence. Students may not receive credit for both PSY 360 and PSY 250. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. SS
PSY 362 Psychology of Adulthood and Aging 3 cr
Topics include physical, intellectual, personal and interpersonal development, with emphasis on adaptive responses to life challenges such as career choices, marriages, parenthood, aging and dying. Students may not receive credit for both PSY 362 and PSY 250. Prereq: PSY 201/202 (grade of C- or better) or cons. instr. SS

Sociology

SOC 101 Introduction to Sociology 3 cr
Introduction to the basic concepts, theories and methods of sociology, emphasizing the significance of the self and culture, social process and organization, and forces of social stability and change. SS

SOC 125 American Society in the Contemporary World 3 cr
Explores contemporary U.S. society in an international and comparative context. Focuses on social structure and institutions, cultural values, the forces of change and the web of relations among countries. SS

SOC 130 Contemporary Social Problems 3 cr
Sociological analysis of the nature, extent, causes and potential solutions to selected major social problems such as poverty and wealth, racial and gender discrimination, crime and violence, drug abuse, family problems, quality of education, inadequate health care, population problems, intergroup conflict and threats to the environment. SS

SOC 160 Sociology of Human Sexuality 3 cr
Sociological overview of issues in human sexuality. Course is based on sociological investigations of the origins, nature and biosocial consequences of varying customs and ideals of human sexuality. Among topics that may be covered are: sex and family life, contraception, abortion and social power, violations of sexual norms and ideas about sexual propriety, origins and impact of sexual liberation movements, sociosexual aspects of epidemics, sociological interpretations of sexual dissatisfaction. SS

SOC 220 Sociology of Marriage and the Family 3 cr
Marriage and the family as social institutions in a changing world. Historical changes and societal variations in family patterns. Changes over the life cycle. Explores the sources and consequences of a variety of family forms. SS

SOC 231 Crime and Criminal Justice 3 cr
Explores the nature of crime and reviews ideas about definitions, causes, and solutions. Includes an introduction to the day-to-day functioning of the criminal justice system, the police, lawyers, courts, and correctional personnel. SS

SOC 234 Sociology of Race and Ethnicity 3 cr
The experience of American racial, religious, ethnic and nationality groups. The nature of intergroup relations in the United States. Relationship of intergroup dynamics to social change, and to basic ideological, technological, and institutional structures and processes. Emphasis on social conflict over the distribution of economic and political power, family patterns, housing, education and access to the legal system. SS/ES

SOC 238 Sociological Perspectives on Gender 3 cr
A sociological examination of roles assigned to women and men in society, including the experiences of marriage, parenthood, employment and occupational attainment. Pays particular attention to gender role socialization and its cultural reinforcement, to patterns of gender relations and to ongoing changes. SS

SOC 246 Juvenile Delinquency 3 cr
Examines the theories of the nature, causes, consequences, and prevention of juvenile misbehavior through examination of historic changes in the definition and frequency of juvenile offenses. Controversies over the practice of distinguishing juvenile crime and misbehavior from adult crime. Controversies over the treatment and punishment of juveniles, in connection with the activities of juvenile courts, parents and school officials, local communities, police departments, politicians, networks of attorneys and treatment personnel, and correctional authorities. Prereq: sophomore standing or cons. instr. SS

SOC 250 People, Organizations and Society 3 cr
Role of organizations, such as business, government, education and religion in American society. Impact of organizations on members and clients, the internal dynamics of organizations, and the interchange between organizations and their environment, including the society as a whole. Prereq: sophomore standing. SS

SOC 270 Introduction to World Population 3 cr
Determinants and consequences of population size and growth. Changing levels of fertility, mortality, and migration rates and patterns and their social and economic implications. Examination of population policy in countries at various stages of economic development, e.g., international labor migration, China's one-child policy, U.S. immigration laws, euthanasia policy in the Netherlands, controversies over international aid for population regulation, influence of world religions on population policy. SS

SOC 275 Sociology of Religion 3 cr
A sociological approach to the study of religion, its institutional forms, aims, and impact on society. Attention is given to the theories of the sociology of religion and to the interaction of religion and the social, political, and economic structures of society. Special emphasis is given to those religions which influence U.S. society. SS

SOC 285 Sociology of Health and Illness 3 cr
Sociological perspectives on health and illness, with special attention to changes in patterns of illness and death as they relate to broader socio-economic changes and to changes in the orientation and organization of health care providers. Among major topics that the course covers are: competing theories of disease and death trends; social circumstances under which epidemics emerge and are curbed; public health and medical center models of providing health care and preventing disease, injury, and death; organization of health care providers; comparisons among health systems. SS

SOC 291 Selected Topics in Sociology 1-3 cr
A specific topic in an instructor's area of special competence. When offered, the particular topic is indicated in the campus timetable. A prerequisite or cons. instr. may be required. *

**Spanish**

*Not all courses are available on all campuses on a regular basis.*

The first four semesters of Spanish may be offered as two modules, Part I and Part II, carrying two credits each. Part I is a prerequisite for Part II. It is expected that students will complete both modules. If only Part I is completed, elective credit will be granted. The student should consult with the transfer institution regarding the acceptance of single module credit.

**Third Semester-Part I**

Continuation of SPA 101 or SPA 104. This is the first module of a two-part second-semester sequence. Field trip may be required. Prereq: SPA 101 or SPA 104 or cons. instr. (This course in combination with SPA 107 is equivalent to SPA 105.) AP

**Third Semester-Part II**

Continuation of SPA 106 and second module of a two-part second-semester sequence. Field trip may be required. Prereq: SPA 106 or cons. instr. (This course in combination with SPA 106 is equivalent to SPA 105.) AP

**Fourth Semester Spanish**

Continuation of SPA 201 or SPA 204. Reading, writing, audio/oral practice, cultural insights based on literary texts in Spanish. Field trip may be required. Prereq: SPA 201 or SPA 204 or cons. instr. AP

**Fourth Semester-Part I**

Continuation of SPA 204. This is the first module of a two-part fourth-semester sequence. Reading, writing, audio/oral practice, cultural insights based on literary texts in Spanish. Field trip may be required. Prereq: SPA 201 or SPA 204 or cons. instr. (This course in combination with SPA 207 is equivalent to SPA 205.) HU

**Fourth Semester-Part II**

Continuation of SPA 206 and second module of a two-part fourth-semester sequence. Field trip may be required. Prereq: SPA 206 or cons. instr. (This course in combination with SPA 206 is equivalent to SPA 205.) HU
SPANISH - WOMEN'S STUDIES

SPA 215 Elementary Conversation and Composition 1-2 cr
May be taken concurrently with SPA 201 or by itself. Stresses practical application of theory learned in 4-credit courses. Written and audio/oral exercises based on cultural, everyday topics. Carries no retroactive credit. Prereq: SPA 105 or SPA 107 or cons. instr. AP

SPA 216 Elementary Conversation and Composition 1-2 cr
May be taken concurrently with SPA 205. Carries no retroactive credit. Prereq: SPA 215 or cons. instr. AP

SPA 219 Spanish for Business 3 cr
Designed to acquaint the student with the vocabulary and practices of the business community. Oral and written practice in the preparation of letters and forms. Carries no retroactive credit for work completed in high school. Prereq: SPA 201 or SPA 204 or cons. instr. AP

SPA 221 Introductory Survey of Peninsular Literature, Eighteenth to Twentieth Centuries 3 cr
Modern masterpieces in fiction, drama, poetry and essay. Lectures in literary history and criticism, exercises in interpretation, compositions, oral presentations and class discussions in Spanish. Prereq: SPA 205 or SPA 207 or cons. instr. HU

SPA 222 Introductory Survey of Peninsular Literature, Twelfth to Seventeenth Centuries 3 cr
Masterpieces in fiction, drama, poetry and essay from the medieval period through the Golden Age. Lectures in literary history and criticism, exercises in interpretation, compositions, oral presentations and class discussions in Spanish. Prereq: SPA 205 or SPA 207 or cons. instr. HU

SPA 225 Intermediate Conversation and Composition 3 cr
Development of written and oral proficiency through systematic exposure to modern cultural developments as found in a variety of contemporary texts. Discussion and composition exercises deal with cultural topics introduced by original authors. Prereq: SPA 205 or SPA 207 or cons. instr. HU

SPA 226 Intermediate Conversation and Composition 3 cr
Continuation of SPA 225. Prereq: SPA 225 or cons. instr. HU

SPA 235 Spanish Culture and Civilization 1-3 cr
Lectures and readings in English on the art, music, architecture, politics, economics and history of Spain. No knowledge of Spanish required. No foreign language credit. HU

SPA 236 The Culture and Civilization of Latin America 1-3 cr
Lectures and readings in English on the art, music, architecture, history and politics, as well as the social and economic problems of Latin-American countries from Pre-Columbian times to the present. No knowledge of Spanish required. No foreign language credit. HU

SPA 237 Chicano Literature 3 cr
Lectures and readings in English of novels, plays and poetry written by Chicano authors. Focuses on cultural differences and alternatives in order to lead students to question previous stereotypes and to come to a new understanding of the Chicano struggle for identity. No knowledge of Spanish required. Prereq: ENG 102 or a grade of B or better in ENG 101. HU/ES

SPA 277 Special Topics in Literature in Translation 2-3 cr
and/or Culture and Civilization
Treats various topics of Spanish or Latin-American literature and/or culture to be specified by instructor in campus timetable. Lectures, class discussions and written work in English. No knowledge of Spanish necessary. No foreign language credit. HU

SPA 291 Selected Topics in Spanish 2-3 cr
Cultural, literary or linguistic themes as specified in campus timetable. Prereq: SPA 205 or SPA 207 or cons. instr. * (Associate degree designation will be determined by course content.)

SPA 299 Intermediate Independent Reading 1-3 cr
Individual student(s) assigned readings, reports and papers on topic determined by instructor. One-on-one meetings to be arranged. Prereq: SPA 205 or SPA 207 and cons. instr. * (Associate degree designation will be determined by course content.)

Wildlife (see Biological Sciences)

Women's Studies 82

WOM 101 An Introduction to Women's Studies 3 cr
An introduction to the major problems addressed by women's studies with an emphasis on the theoretical and methodological issues involved in gaining accurate knowledge about women. Literary, philosophical, historical and social science perspectives are used to understand the experience of women and the cultural construction of gender. SS

WOM 138 Sociological Perspectives on Gender Roles 3 cr
(Same as SOC 258.) A sociological examination of roles assigned to women and men in society, including the experiences of marriage, parenthood, employment and occupational attainment. Pays particular attention to gender role socialization and its cultural reinforcement, to patterns of gender relations and to ongoing changes. SS

WOM 202 Feminist Philosophy 3 cr
(Same as PHI 202.) An introduction to feminist philosophies through a study and critique of traditional and feminist views about women, their lives, society and knowledge, with particular attention to theories of women's oppression. Prereq: three credits in philosophy recommended but not required. HU

WOM 208 Psychology of Gender 3 cr
(Same as PSY 208.) The process and consequences of gender development: review of current gender research and theory in the context of cultural, psychological, biological, historical and cross-cultural perspectives. This course focuses on female and male experience as it relates to issues such as cognition, value systems, achievement, interpersonal relationships, aggression and sexuality. Prereq: PSY 201 or 202 (grade of C- or better) or cons. instr. SS

WOM 231 Feminism, Equality and Public Policy 3 cr
(Same as PHI 231 and POL 231.) This course involves a discussion and examination of the issues which generate public policy such as affirmative action, compatible worth, pornography, abortion, etc. from the viewpoint of philosophy and political science. EL
**WOMEN'S STUDIES - NON-DEGREE CREDIT COURSES**

**WOM 250 Women in Cross-Cultural Perspective**  
3 cr  
(Same as ANT 250.) Study of women in a variety of cultures around the world, both past and present. Includes consideration of the sexual division of labor, marriage systems, child rearing, relationships between men and women, systems of myth and ideology concerning women's roles, and the effects of socio-economic development and rapid social change. SS

**WOM 279 Women in Literature**  
3 cr  
(Same as ENG 279.) A study of women characters and/or authors in their cultural contexts through an examination of representative literary works by significant authors. Prereq: Exemption from ENG 101 based on placement test score, ENG 101 or cons. instr. HU

**WOM 291 Selected Topics in Women's Studies**  
1-3 cr  
Designed to focus in depth on a particular area of women's studies. Specific topic to be announced in campus timetable. Prereq: cons. instr. *

**WOM 299 Independent Study in Women's Studies**  
1-3 cr  
Extensive reading for the purpose of surveying the literature in a particular area, possibly including a research project, under the personal supervision of the instructor. Prereq: cons. instr. *

**Zoology (see Biological Sciences)**

### Non-Degree Credit Courses

**English**

**ENG 095 Basics of Composition**  
3 non-degree cr  
A study of fundamental writing skills, including grammatical conventions, usage, sentence structure, paragraph development and the organization of short essays. This course is offered through a contractual arrangement with the local WTCS institution.

**ENG 097 Basics of Composition**  
3 non-degree cr  
A study of fundamental writing skills, including grammatical conventions, usage, sentence structure, paragraph development and the organization of short essays. This course is offered by the campus TRIO/minority/disadvantaged program.

**ENG 098 Basics of Composition**  
3 non-degree cr  
A study of fundamental writing skills, including grammatical conventions, usage, sentence structure, paragraph development and the organization of short essays.

**ENG 099 Basic Writing Tutorial**  
1-3 non-degree cr  
Intended primarily for students concurrently enrolled in Basics of Composition or Composition I, this tutorial will provide individualized instruction to help students develop the fundamental writing skills and basic techniques of composition required for success in those courses and in higher-level composition courses. Non-degree credit.

**Learning Resources**

**LEA 100 Grammar Skills**  
1-3 non-degree cr  
Designed to improve student understanding and use of written English, this course covers the principles and patterns of grammar and writing.

**LEA 101 Speed and Efficiency in Reading**  
1-3 non-degree cr  
The aim of this course is to help the student develop the vocabulary and comprehension skills needed for studying college materials. The student learns to analyze challenging materials for immediate understanding and interpret it for long-term memory.

**LEA 102 Learning Skills**  
1-3 non-degree cr  
This course is designed for the student who needs to develop generalized learning skills. Areas of study may include managing time, taking notes, reading and studying textbooks, reading comprehension, developing vocabulary, organizing the research paper and making oral presentations.

**LEA 103 Study Skills**  
1-3 non-degree cr  
This course is designed to aid students in learning effective study systems. The student also learns to use appropriate reading rates.

**LEA 104 Career Planning & Preparation**  
1-3 non-degree cr  
This course will enable students to develop career goals and lay out a path for achieving these goals. Students will examine their personal interests, aptitudes, values, decision making skills, academic plans and career awareness. This personal, educational and occupational information will then be organized and translated into an individualized course of action. Integration of career goals with current and future college course work will be stressed.

**LEA 105 Basic Math**  
1-3 non-degree cr  
Designed for students with minimum algebra background or who have been away from mathematics for several years. Subject areas to be covered include arithmetic of whole numbers, fraction and decimals, and basic algebraic concepts.

**LEA 106 English as a Second Language**  
1-3 non-degree cr  
A program dealing with English as a second language for students whose native language is not English. The program is designed to assist foreign students in improving their skills in spoken and written English for successful academic work at the university level. Prereq: for students who (1) are not native speakers of English and who (2) have studied English as a second language prior to being enrolled in the UW Colleges.

**LEA 110 Grammar Skills**  
1-3 non-degree cr  
Designed to improve student understanding and use of written English, this course covers the principles and patterns of grammar and writing. This course is offered by the campus TRIO/minority/disadvantaged program.

**LEA 111 Speed and Efficiency in Reading**  
1-3 non-degree cr  
The aim of this course is to help the student develop the vocabulary and comprehension skills needed for studying college materials. The student learns to analyze challenging materials for immediate understanding and interpret it for long-term memory. This course is offered by the campus TRIO/minority/disadvantaged program.

**LEA 112 Learning Skills**  
1-3 non-degree cr  
This course is designed for the student who needs to develop generalized learning skills. Areas of study may include managing time, taking notes, reading and studying textbooks, reading comprehension, developing vocabulary, organizing the research paper and making oral presentations. This course is offered by the campus TRIO/minority/disadvantaged program.
LEA 113 Study Skills 1-3 non-degree cr
This course is designed to aid students in learning effective study systems. The student also learns to use appropriate reading rates. This course is offered by the campus TRIO/minority/disadvantaged program.

LEA 114 Career Planning & Preparation 1-3 non-degree cr
This course will enable students to develop career goals and lay out a path for achieving these goals. Students will examine their personal interests, aptitudes, values, decision making skills, academic plans and career awareness. This personal, educational and occupational information will then be organized and translated into an individualized course of action. Integration of career goals with current and future college course work will be stressed. This course is offered by the campus TRIO/minority/disadvantaged program.

LEA 115 Basic Math 1-3 non-degree cr
Designed for students with minimum algebra background or who have been away from mathematics for several years. Subject areas to be covered include arithmetic of whole numbers, fraction and decimals, and basic algebraic concepts. This course is offered by the campus TRIO/minority/disadvantaged program.

LEA 116 English as a Second Language 1-3 non-degree cr
A program dealing with English as a second language for students whose native language is not English. The program is designed to assist foreign students in improving their skills in spoken and written English for successful academic work at the university level. Prereq: for students who (1) are not native speakers of English and who (2) have studied English as a second language prior to being enrolled in the UW Colleges. This course is offered by the campus TRIO/minority/disadvantaged program.

Mathematics

MAT 081 Topics in Geometry 3-3 non-degree cr
Designed for students who have not had high school geometry. Includes methods of proof, properties of simple plane figures, congruence and similarity. Course does not carry degree credit.

MAT 085 Topics in Geometry 3 non-degree cr
Designed for students who have not had high school geometry. Includes methods of proof, properties of simple plane figures, congruence and similarity. This course is offered through a contractual arrangement with the local WTCS institution.

MAT 087 Topics in Geometry 3-3 non-degree cr
Designed for students who have not had high school geometry. Includes methods of proof, properties of simple plane figures, congruence and similarity. This course is offered by the campus TRIO/minority/disadvantaged program.

MAT 090 Basic Mathematics 2-3 non-degree cr
Designed for students with minimum algebra background or who have been away from mathematics for several years. Subject areas to be covered include arithmetic of whole numbers, fraction and decimals, ratios and percents, and basic algebraic concepts. Prepares the student for MAT 091.

MAT 091 Elementary Algebra 3-4 non-degree cr
Intended for students with little or no previous algebra. Topics include the real number system and operations with real numbers and algebraic expressions, linear equations and inequalities, polynomials, factoring and introduction to quadratic equations. Course does not carry degree credit.

MAT 092 Basic Mathematics 2-3 non-degree cr
Designed for students with minimum algebra background or who have been away from mathematics for several years. Subject areas to be covered include arithmetic of whole numbers, fraction and decimals, ratios and percents, and basic algebraic concepts. Prepares the student for MAT 095. This course is offered through a contractual arrangement with the local WTCS institution.

MAT 094 Basic Mathematics 2-3 non-degree cr
Designed for students with minimum algebra background or who have been away from mathematics for several years. Subject areas to be covered include arithmetic of whole numbers, fraction and decimals, ratios and percents, and basic algebraic concepts. Prepares the student for MAT 097. This course is offered by the campus TRIO/minority/disadvantaged program.

MAT 095 Elementary Algebra 3-4 non-degree cr
Intended for students with little or no previous algebra. Topics include the real number system and operations with real numbers and algebraic expressions, linear equations and inequalities, polynomials, factoring and introduction to quadratic equations. This course is offered through a contractual arrangement with the local WTCS institution.

MAT 097 Elementary Algebra 3-4 non-degree cr
Intended for students with little or no previous algebra. Topics include the real number system and operations with real numbers and algebraic expressions, linear equations and inequalities, polynomials, factoring and introduction to quadratic equations. This course is offered by the campus TRIO/minority/disadvantaged program.
campuses

the best start for the life you want
The University of Wisconsin-Baraboo/Sauk County is located on 68 scenic hillside acres on the northwest side of Baraboo.

**Student Body**

UW-Baraboo/Sauk County maintains an enrollment of approximately 550 students, about 30 percent of whom are age 22 and older. The majority of UW-Baraboo/Sauk County students come from Sauk, Columbia, Dane, Adams, and Juneau counties.

**Resources**

There are four main buildings on the UW-Baraboo/Sauk County campus. The John and Murrel Lange Center, which was completed in 1997, serves as the campus Student Center and Athletic Facility. The upper level houses the campus cafeteria, student lounge and activity areas, Student Services and Student Government Association offices, Career Resource Center, conference rooms, and art gallery. The lower level includes an aerobics studio, fitness and weight rooms, a training room, two racquetball courts, and a gymnasium with combination game courts, three practice courts, running track, and shower and locker facilities.

The Administration Building is the site of multi-media classrooms, administrative and faculty offices, state-of-the-art computer and natural science laboratories, the Study Center, and a greenhouse. The 32,000 volume Library/Learning Resources Center is linked to a statewide network of university, college, and public libraries. The Fine Arts Building is home to the newly-completed Hill Music Center, as well as the art department, campus theatre, and bookstore.
SPE CIA L programs

Collaborative
LW-Baraboo/Sauk County collaborates with UW-La Crosse to offer graduate courses for educators, with UW-Madison to teach nursing on campus and by distance education, and with UW-Stein to offer a Hospitality Management Certificate Program.

Academic
At LW-Baraboo/Sauk County, students can begin any of over 200 majors. In addition to the traditional academic offerings at LW-Baraboo/Sauk County, an Evening Associate Degree Program, along with compressed video and online courses are among options to optimize access for students. Individual academic and career planning are available, and a campus Study Center assists students in math, writing, and study skills.

Scholarships
The Friends of the Campus, Inc., scholarship Program annually provides thousands of dollars in financial help for students.

Extracurricular
Campus activities include: intercollegiate women's volleyball, cross country, golf, track, basketball, bowling, tennis, dance team, intramural sports, The Chase student newspaper, theatre productions, jazz ensemble, Band, Choir, Vocal Ensemble, Instrumental Chamber Ensemble, Outdoor Club, Wellness Alliance, Student Government Association, and a variety of social and recreational programs and activities.

Community Interest Programs
Community partnership and outreach activities include a wide range of Continuing Education courses and programs, Elderhostel, College for Kids, Campus-Community Theatre Program, Civic Chorus, Community Band, and Brass Ensemble.

M.F.A., Rochester Institute of Technology
The University of Wisconsin-Barron County is located on 110 acres of land in the city of Rice Lake, which is 60 miles north of Eau Claire and 120 miles northeast of Minneapolis/St. Paul.

**Student Body**

UW-BC enrolls approximately 500 full- and part-time students with about 20% over age 25. Students at UW-BC come from northwest Wisconsin and beyond.

**Facilities**

The seven buildings on campus are nestled on partially wooded land along the winding Red Cedar River. The main facilities are Meggers Hall (administration), Ritzinger Hall (classrooms and labs), Fine Arts Building, Library, Gymnasium, Student Center and the Physical Plant. Other educational and recreational facilities include the Observatory, Japanese Garden, tennis court, three-hole golf course, baseball diamonds and soccer field. A prairie restoration and wildlife habitat study area is also on campus and the Cedar Side Trail for walking/biking runs through the campus.

**COLLABORATIVE programs**

**Service Learning/Internship Programs**

Through partnerships developed between UW-BC and area businesses and community agencies, students can earn 1-2 credits while undertaking...
Educational Opportunity Center
The UW-BC Educational Opportunity Center (BOC) provides assistance and information to adults who seek to enter into or complete a program of post-secondary education. Services include academic and financial aid counseling, career exploration and student affairs assessment services, and assistance with the re-entry process. UW-BC provides this service in cooperation with the UW-Eau Claire BOC.

Academic
UW-BC has an evening program, colloquium sessions, educational tutoring services, learning lab, Service Learning, and Internship programs, online courses, Career Development Center, and a summer session.

Scholarships
A scholarship program for new, returning, and transferring students is sponsored by the Barron County Campus Foundation. The scholarship fund is supported by donations from area businesses, individuals, and civic groups along with the UW-BC faculty and staff.

Extracurricular
Activities include intramural and varsity sports, Student Government...
Association, Phi Theta Kappa national honors society, Theatre (for returning adult students), Roots (the campus weekly newsletter), Red Cedar Review literary magazine, Sociology Club and United Students along with other special interest organizations.

Community Interest Programs

Continuing Education courses include a wide range of personal enrichment and professional development courses for all ages along with the Kids' College and Theatre for the Talented programs in the summer. Other campus programs include the Beyond Broadway series and fine arts events sponsored by the Barron County Campus Foundation theatre productions, Humanities Days; open forums, Community Band, Red Cedar Choir, and art gallery exhibitions.

B.S., University of Wisconsin-River Falls
M.S., University of Wisconsin

Tollefson, Linda (1981)
Professor, Psychology
B.S., University of North Dakota
Ph.D., University of Texas at Austin
The University of Wisconsin-Fond du Lac is located on 183 acres on the northeast side of Fond du Lac, north of East Johnson Street (Hwy. 23).

**Student Body**

In fall of 2000, 572 students were enrolled, 25 percent of whom were age 22 or older. Sixty-five percent of students attend the campus on a full-time basis.

**Facilities**

The park-like campus is composed of six buildings that surround a two-acre lake. A 60-acre Gottfried Arboretum is under development and will serve as an outdoor classroom and provide recreational opportunities.

An extensive renovation was completed in the fall of 2000. The campus now features a beautiful two-story University Center which houses a library, theater, music suite, campus store and student commons. After completion of additional renovations in the fall of 2001, campus facilities will be state-of-the-art and fulfill the technical needs of 21st century students.

**SPECIAL programs**

**Academic**

Offerings include day and evening credit courses, study skills workshops and a college success course. A collaborative degree program with UW-Oshkosh offers the opportunity to earn a bachelor's degree in Organizational Administration entirely on the UW-Fond du Lac campus. The Learning Lab
provides free tutoring in Math and English and arranges for study groups in most subjects. The Transfer Information Center has catalogs, schedules, and information for all UW System and private colleges.

Scholarships

UW-Fond du Lac Foundation offers a large number of academic scholarships for new, continuing, and returning adult students. The Foundation awards more than 30 scholarships ranging from $500 to full tuition.

Extracurricular

Phi Theta Kappa national/community college honor society, Student Activities Committee, theater program, band and vocal groups, student government, leadership conferences, intramural and varsity sports and personal and career seminars are all a part of campus life.

Community Interest Programs

Through Continuing Education courses area residents can update their computer skills, learn a foreign language or take an educational tour. College for Kids and LEAPS are offered to area youngsters each summer. The campus also sponsors an area High School Quiz Bowl, fine arts performances, lectures and symposiums.

The University of Wisconsin-Fox Valley is a 41-acre contemporary campus located in Menasha. As part of the dynamic Fox Cities, the campus is accessible by major streets, highways, and two major regional airports (Oshkosh/Winnebago County and Appleton/Outagamie County). There is on-campus parking for over 800 motorized vehicles.

**Student Body**
In the fall 2000, 1,685 were enrolled at UW-Fox Valley. 32% of the students enrolled are age 22 or older, with 68% being age 21 or younger. There is a mixture of full-time (47%) and part-time (53%) students.

**Facilities**
The campus facilities include the Aaron Bohrod Fine Arts Gallery, the world-class Barlow Planetarium, UWFox Fine Arts Theatre, Student Union, art and music studios, radio and television studios, library, computer labs, child-care center, contracted food service, distance learning classrooms, and a state-of-the-art science wing with greenhouse complex. The campus also has a multi-purpose fieldhouse, soccer fields, weight/fitness room, tennis courts and a nature study area. There are many on-campus areas available for students to work on group projects, study, read, and socialize.

**Collaborative Programs**
The University of Wisconsin-Fox Valley works with its students to take advantage of several inter-university agreements in order to make their transfers smooth. Campus advisors help students tie their freshman-sophomore studies to their specific career paths.

SPECIAL
programs

UW-Fox Valley assists students interested in nursing degrees at the five UW System Schools of Nursing (Oshkosh, Madison, Milwaukee, Eau Claire, and Green Bay), and helps them get instruction through the distance education program offered through the UW System.

UW-Fox Valley also offers a number of options for its students, including:

- an articulation agreement in Archaeology with the University of Wisconsin-La Crosse;
- a collaborative program in Industrial Management with the University of Wisconsin Stout;
- articulation agreements with Beloit College; Ripon College; the School of Business at the University of Wisconsin-Oshkosh and the University of Wisconsin-Eau Claire;
- a dual enrollment through a preengineering program with the University of Wisconsin-Platteville.

Beginning in the Fall 1999, UW-Fox Valley began offering a collaborative bachelor's degree (a four-year degree in Organizational Administration) through the University of Wisconsin Oshkosh. Other collaborative bachelor's degree programs may be offered in the future.

Academic

Evening courses, tutoring programs, math and English preparatory courses, undergraduate research opportunities, learning skills programs, Youth Options program for high school students; Phi Theta Kappa Honorary Society, traditional age student and returning adult student academic advisement, and career exploration services are all offered.

Scholarships

The University of Wisconsin-Fox Valley Foundation awards up to 30 scholarships to new, continuing, and returning students.

Extracurricular

The Student Association, intramural and intercollegiate athletics, Fox Times campus newspaper, TBN (campus radio and TV), multicultural association, Campus Activity Board, campus Ambassadors, films, BACCUS/Wellness Alliance, Business Club, Cyclone Dance Team, Drama Club, Earth Science Club, Education Club, Fox Eyes, Human Services Club, Political Science Club, Writers' Club, Astronomy Club, NOHML, Campus Crusade for Christ, Bible Study Club, Literature Club, Fox City Review literary magazine, and a variety of other activities and events help make up part of a student's co-curricular interests.

Community Interest

Continuing Education courses offer a wide range of interesting topics.

The Aaron Bohrod Fine Arts Gallery hosts scheduled art shows and displays. The Barlow Planetarium presents regularly scheduled shows with new titles on a periodic basis. The UW-Fox Theater showcases university and community-based productions on campus. The Lecture Series and The Noot Entertainment Series bring local and regional experts and talent to the campus for the intellectual and entertainment pleasure of the community. The Senior Science Society brings nationally and internationally acclaimed experts to the campus for presentations to members of the community past and present. The Fox Cities Concert Band, the UW-Fox Jazz Ensemble, and the UW-Fox Valley Chorale present quarterly concerts for the community.

UW-Fox is a regional resource that is utilized by many area groups for a wide range of community activities. University students often have the opportunity to attend and participate in many of these events.

The University of Wisconsin-Manitowoc is located on the southeastern edge of Manitowoc. The 40-acre campus is bound by Lake Michigan on the east and a 78-acre wooded park on the south.

**Student Body**
In fall 2000, 612 students were enrolled. Approximately 20 percent are 24 years old or older. Both full-time and part-time students are enrolled. Students from every high school in Manitowoc County attend UW-Manitowoc, as do students from Brown, Calumet, Door, Kewaunee, Oconto and Sheboygan counties.

**Resources**
Ground was broken in July 2000 for the addition of a fine arts building that will be home to a 350-seat theater, rehearsal rooms, art gallery, a commons area, and both the communication arts and music departments. There will also be extensive remodeling done to the two existing buildings. When completed (Fall 2001), the campus's three connected buildings will house classrooms, a state-of-the-art distance education classroom, a lecture hall, bookstore, science labs, weight room, greenhouse, offices and a 30,000-volume library, which is linked by computer to the other 25 UW campus libraries around the state and has an inter-library loan service. The campus also includes a physical education facility, geography/geology lab, and two computer labs with state-of-the-art software and full internet and e-mail access at all of the stations. The grounds include a weather station, a sand volleyball court, soccer field and fire pit.

SPECIAL programs

Collaborative
UW-Manitowoc has collaborative degree programs with UW-Milwaukee and UW-Stout. With both programs students complete their general education courses at UW-Manitowoc. For a Bachelor's Degree from UW-Milwaukee in Organizational Administration (BACO), students continue their upper division classes on the Manitowoc campus. For those students pursuing a Bachelor's of Science Degree in Industrial Technology from UW-Stout, degree completion will be via distance education, available at various sites.

Academic
Offerings include an evening associate degree program, AODA program, remedial mathematics and English, a student tutoring service, a math and writing lab, a computerized Transfer Information System, and courses offered through compressed video, online and audio-graphics.

Scholarships
Numerous community and UW-Manitowoc Foundation scholarships are available for new and returning students.

Extracurricular
The following activities are available to students: the student newspaper, student senate, non-traditional student association, business club, history club, environmental club, wellness alliance, a literary magazine, chemistry club, theater club, music association (MENC), Phi Theta Kappa, intramural and varsity sports.

Community Interest Programs
The community may participate in UW-Manitowoc's Continuing Education courses, College for Kids, Upward Bound Program, campus-community band, chorus and theater, jazz ensemble, art exhibits in the Art Gallery, and a speaker's bureau.

Ph.D., University of Tennessee
The University of Wisconsin-Marathon County welcomes you. We are an urban campus, adjacent to Marathon Park in Wausau. Wausau is located in north central Wisconsin, 150 miles north of Madison.

Student Body
We're just the right size for your best start—in the fall of 2000, 1,226 students were enrolled on our campus. We have a diversified student body, which includes students of color, international students and students with disabilities. Our classes are small, so you get more one-on-one attention. They're taught by experienced, caring faculty, who want you to succeed. UWMC's Foundation annually awards over $95,000 in scholarships to incoming, present and transfer students.

Academic Excellence
Ready for a challenge? UWMC is highly respected for our academic program. Our distinguished alumni design BMWs, act on Broadway, teach at colleges, run international businesses and perform oral surgery. At UWMC we offer honors classes and award Associate Degrees. You can also complete a UW Bachelor's Degree in Business, Nursing, and General Studies right here. And Guaranteed Transfer ensures you a place at the UW campus of your choice.

Academic Support
If you need extra help to succeed academically, our dedicated faculty, staff and peer tutors are happy to assist at no cost. Career counseling, basic skills classes, academic advising, financial aid advice and transfer assistance; you'll get it all on our campus.
Campus Life
UWMC is an active campus. Student activities include: theater productions, Lecture & Fine Arts events, intercollegiate and intramural sports, show choir, concert and jazz band. Ambassador program, student government, activities programming board, student newspaper, and a variety of clubs and special-interest organizations.

Community Programs
UWMC's Continuing Education Department offers a wide range of personal enrichment and professional development classes, including College of the Environment for ages 50+, College for Kids, international study/tours, dinner lectures, children's language camps, and theater trips.

The UWMC Campus
UWMC is the only UW two-year campus with a traditional residence hall. It houses 162 students, and coordinates social, study and life skills programs for its residents. Our main campus building includes a student union, computerized library, theater, planetarium, greenhouse, computer lab, tutoring lab, cafeteria, classrooms and offices. The field house houses a pool, weight room, racquetball court and gymnasium. A small art studio houses our sculpture and two- and three-dimensional art classes.

The University of Wisconsin-Marinette is located on the shores of Lake Michigan's Green Bay. Downtown Marinette and downtown Menominee, Michigan, are both within a five-minute drive of the campus.

**Student Body**
In fall 2000, 518 students were enrolled, 28% of whom were age 22 or older. Students attend the campus on a full-time or part-time basis. Almost one third of the students are Menominee County residents who, because of a reciprocal tuition agreement, pay Wisconsin resident tuition fees.

**Resources**
In fall 2000, UW-Marinette opened its newly expanded and renovated facilities including the student union, student services, science laboratories and computer classroom in the main building. Fine arts facilities were expanded to include a new digital photography lab, sculpture studio and garden for exhibits, a digital arts computer lab, seminar room and performance hall overlooking the bay. The Library Technology Building now includes two distance education classrooms, an expanded library, open access computer lab and foreign language lab. Campus computers have internet access linking them to worldwide information resources. Completing the four-building complex is the University YMCA with the Max E. Peterson Field House gym, Nautilus weight-training room and six-lane Olympic swimming pool.

SPECIAL programs

Academic
Students may enroll in Learning Community courses with syllabi that are linked across disciplines to explore real-world issues. Tutorial services are available in English, math and computer science. Interdisciplinary computer-assisted instructional programs also aid students.

International student programs add to campus diversity, and graduate courses are offered at UW-Marinette from UW-Green Bay and Northern Michigan University.

Scholarships
Local companies and citizens offer over $12,000 to scholarships every year based on academic potential and leadership.

Extracurricular
Several student organizations offer opportunities outside the classroom including Phi Theta Kappa, a national junior college honors fraternity, Student Senate, the Campus Activities Board, Student Ambassadors, the Manifest student newspaper, intramural and varsity sports, and Southern Litho, the annual arts journal, along with other special interest organizations.

Community Interest Programs
Since 1987, Theatre on the Bay has offered year-round programming giving students experience in all areas of theatre from box office to acting in major productions.

Other activities open to the public include brown bag discussion series, the West Shore Chorale and the Community University Jazz Ensemble.

COLLABORATIVE programs

UW-Marinette and the YMCA share the cooperative management of the campus fitness center and pool facilities. Students from UW Marinette (and Northeast Wisconsin Technical College) get YMCA pool time at no charge, in exchange for YMCA use of the field house gym. This agreement enables UW-Marinette to offer classes in swimming, lifeguarding and water safety. In addition to pool and gym facilities, a fully-equipped Nautilus center in the field house is available to students for their personal use or for physical conditioning classes.

A collaborative agreement between UW-Marinette and several UW baccalaureate schools (Green Bay, Eau Claire, Madison, Milwaukee and Oshkosh) gives students in the Nursing Degree Completion program the opportunity to take rotating core courses at UW-Marinette via telegraphics and 2-way video. UW Marinette provides technical support for the distance.
education courses, while the regular curriculum supports the students' general education requirements. UW-Green Bay is the "home institution" responsible for registration and advising. For the distance education courses, students pay UW-Green Bay in-state tuition regardless of their residency.

The Michigan Compact is Wisconsin's first reciprocal tuition-valuation agreement. Residents of Menominee County, Michigan, may take courses at UW Marinette for in-state tuition rates. This agreement extends to residents of Iron and Marinette Counties in Wisconsin, who may take courses at Gogebic and Bay de Noc Community Colleges in Michigan, for out-of-state, in-state tuition rates. Menominee County students who complete their AAS degrees at UW-Marinette may transfer to UW-Green Bay with a 55% discount in out-of-state tuition.

Ph.D., University of Michigan
The University of Wisconsin-Marinette/Wood County is located on 114
acres on the west side of Marshfield in the heart of Wisconsin's dairyland.

Student Body
In fall 2001, 552 students were enrolled, 28% of whom were age 22 or older.
Of these, 59% were registered as full-time students and 41% attended part-
time. The majority of students come from Wood, Clark, Marathon, Portage and
Adams counties.

Facilities
The $5 million building project completed in 1998 added new computer labs;
distance education classrooms, a Fitness Center, enlarged Student Services
offices, an intimate Black Box Theatre, expanded facilities for music and
drama, and a new Commons area with cafeteria, lounge and bookstore. The
project connected the Helen Connor Laird Fine Arts Building to the Physical
Education Building via a spacious, pillar-lined hallway.

Other major buildings are the WW. Clark Administration Building, Alco
Leopold Science Building, and A.C. Forder Student Center. The 340-seat theatre
of the Helen Connor Laird Fine Arts Building hosts our Campus Community Players,
Marshfield/Wood County Symphony Orchestra and Performing Arts Series, as well
as recitals, lectures, classes and community events. The Art Gallery located in the
same building features regular exhibits through the Visual Arts Series. The 30,000-
volume Learning Resource Center serves students, faculty and the public.

Outdoor recreational facilities include lighted tennis courts, soccer fields, football
field, baseball diamond and a 44-acre Arboretum with nature trails. The privately-
managed University Apartments provide student housing adjacent to the campus.
Collaborative Programs

The Marshfield/Wood County campus offers bachelor’s degree programs in business administration and general studies through the Collaborative Degree Program with UW-Stevens Point. The campus also offers a joint bachelor of science degree in nursing through a collaborative program with the UW Eau Claire School of Nursing.

Academic Programs

Our Evening Degree Program allows students to complete an associate’s degree through evening classes. About one-third of all classes meet after 4 p.m. Distance education, via compressed video or audiovisual media, continues to flourish in three specially-equipped classrooms, bringing a wide range of professors and courses to students at the Marshfield campus. A total of 20 courses were offered in the 2000-2001 school year. Other academic resources include two computer labs, a math/skill lab, free tutoring and a developmental skills program.

Extracurricular

Students can choose from one—or all—of these activities: Student Senate; intramural and varsity sports including volleyball, basketball and tennis; Concert Choir; Vocal Jazz Ensemble; Swing Choir; Marshfield/Wood County Symphony Orchestra; University Band; drama; “Uranium” student newspaper; “Paragone” literary magazine; Program Board events; Student Education Association; Student Nursing Association; Inter-Varsity Christian Fellowship; Business Club; Phi Theta Kappa; and Math Club.

Community Interest Programs

Continuing Education offers courses for all ages and interests, including a Business Communication Certificate program, youth gymnastics program and summer music groups. “Arts at the UW” includes Campus–Community Players productions, Performing Arts Series events, Marshfield/Wood County Symphony Orchestra concerts and Visual Arts Series exhibits. Elderhostel, lectures by faculty and visiting professors, and cultural trips round out the cultural and educational opportunities for the public.

Ph.D., University of Minnesota-Twin Cities
the University of Wisconsin-Richland is located in the southwestern Wisconsin city of Richland Center, midway between La Crosse and Madison, on U.S. Highway 14.

**Student Body**
In fall 2000, 420 students were enrolled, with 18% over the age of 22. The campus attracts students from southwest Wisconsin and also from throughout the state, other states and around the world.

**Resources**
The 135-acre campus has six main buildings: the Miller Memorial Library, Wallace Student Center, Classroom Building, Science Building, Roadrunner Gymnasium and Melvill Hall. Also located on campus is the Symons Recreation Complex which houses a heated swimming pool, whirlpool, sauna, two racquetball courts, weight-training area and a multi-purpose room. Adjacent to the campus are the student residence halls: Edith Rice Symons Hall, Meyer Hall and Deans Hall. These facilities provide apartment-style and suite-style housing for 116 UW-Richland students. Outdoor facilities include an athletic field, Wellness Trail, tennis and basketball courts, and an arboretum with a trail that accommodates cross-country skiing in winter.
SPECIAL programs

Academic
- New Student Orientation
- International Student Orientation
- Guaranteed Transfer Program
- Southwest Wisconsin Technical College microcomputer specialist degree program on UW-Richland campus
- Join the engineering program with UW-Platteville
- Academy Alliance
- The Integrated Learning Community
- Mocks Day
- Transfer Information System
- Pre-College Program
- High School Math Competition
- "Return to Learn" for adult students
- P.E. Theta Kappa honor society
- Quaintences, a publication of the best in student writing from courses
- Developmental Skills program
- Study Skills workshop
- Youth for Understanding (YFU)

Scholarships
More than 70 scholarships ranging from $150 to full tuition are available through the Richland County Campus Foundation Scholarship Program. The program annually awards over $35,000.

Extracurricular
- Intercollegiate and intramural sports
- Student Senate
- Express, student newspaper
- Educators of the Future
- Psychology Club
- Biology Club
- International Club
- Days of Learning lecture series
COMMUNITY PROGRAMS

Continuing Education courses for people of all ages are offered, including College for Kids, computer skills, literature and a wide variety of others. UW-R also sponsors campus-community theater, campus-community band, community choir, and lecture series. The YU international student program adds an international flavor to the campus atmosphere.

Aagaard, James K. (1976)
Assistant Professor, Music
B.A., Waldorf College
M.A., Saint Olaf College
M.A., University of Northern Iowa

Armstrong, Margaret (1990)
Associate Professor, Psychology
B.A., University of San Diego
M.A., University of California-San Diego
Ph.D., University of California-San Diego

Bower, Jerry (1967)
Professor, History
B.S., University of Wisconsin-Stevens Point
M.A., Michigan State University
Ph.D., Michigan State University

Cavanaugh, Clifton (1979)
Associate Professor, Physics/Computer Science
B.S., Morningside College
M.S., The Ohio State University

M.S., University of Wisconsin-Madison
Ph.D., University of Wisconsin-Madison
The University of Wisconsin-Rock County is located in Janesville, 10 miles south of Madison and 80 miles southwest of Milwaukee.

Student Body
In fall 2000, 850 students were enrolled, 40% of whom were age 22 or older. There is a mix of full-time and part-time students.

Facilities
The 50 acre commuter campus includes Hyatt Smith Hall, which houses the administration offices, cafeteria, student lounge, backstage lounge and video-conference center; Andrews and Williams Halls, large classroom buildings which house the science laboratories; Academic Skills Center, computer lab and the 65,000 volume library, and Wells Cultural Center, with a 250-seat theater; a gymnasium; and the art, music, and drama departments.

COLLABORATIVE programs
UW-Milwaukee and UW-Rock County have developed a collaborative program, which offers students the ability to complete a bachelor's degree on the UW-Rock County campus. This degree, a B.A. in Organizational Administration, is an interdisciplinary major with an emphasis on business.

The collaborative degree between UW-Rock County and UW-Whitewater allows students to complete a Bachelor of Arts degree in liberal studies.
doing all of the course work on the
UW Rock County campus.

UW Rock County is a partner with
the University of Wisconsin-Madison
in a BSN completion program. Students
enrolled in this program have already
earned an associate degree in nursing
and are working toward the bachelor's
degree in nursing. Advanced nursing
courses will be taken through UW-
Madison, either at the campus or
occasionally on the UW-Rock County
campus. In addition, a number of
pre-professional courses (General
Chemistry, Biochemistry, Microbiology;
Anatomy and Physiology) as well as
the liberal arts requirements in the
humanities and social sciences can be
completed at UW-Rock County.

Philipp, Janet S. (2006)

SPECIAL programs

Academic
UW-Rock County offers a daytime and evening Associate Degree Program, an Academic Skills Center, tutoring, college orientation workshops for pre-college students or interested adults, course work leading to bachelor's degree and an extensive film library.

Study Abroad
The UW Colleges offer a number of short (one and two week) study abroad opportunities. Students can incorporate academic credit while participating in these exciting and intense experiences in Europe and Latin America. Specific course offerings vary from year to year.

Scholarships
New and continuing students planning to enroll for six or more credits are eligible to apply for a variety of scholarships. Selection is based on academic achievement and leadership ability.

Extracurricular
In addition, students at UW-Rock County may participate in a special support group for adult students, intercollegiate sports, student government, theater groups, various clubs, jazz ensemble, band, mixed chorus and Madrigal Singers.

Community Interest Programs
Lecture & Fine Arts programming, community band, theater events, videoconferencing, College for Kids, Breakfast of Champions and non-credit courses offered through the Continuing Education Office are open to the public.

The University of Wisconsin-Sheboygan is the perfect setting in which to get "The Best Start for the Life You Want." Located on a picturesque hilltop overlooking the western edge of Sheboygan, the campus is enclosed by a meandering river valley, bluffs and ravines, and wooded areas populated with wildlife.

**Student Body**
In fall 2006, UW Sheboygan opened its doors with its highest enrollment ever - 771 students. Approximately one third are "adult" students, that is, age 22 or older.

**Facilities**
The campus includes a Main Administration Building; Learning Resources Building which houses the library; Fine Arts Building with an intimate, thrust-stage, 226 seat theatre; and Physical Education Building. Connecting the Main and Learning Resources Buildings is UW-Sheboygan's newest addition—a student Commons which houses a computer lab, bookstore, student organization office, and Coffee Cafe.

University grounds feature tennis courts, areas for field sports, and a natural terrain cross-country track.

**Academic**
Associate of Arts and Science Degree; Evening Associate Degree Program; evening academic career counseling; a Learning Skills Lab which provides free tutoring; and Phi Theta Kappa, international educational honorary society.

Collaborative Degrees
Students can now complete a UW-Sheboygan, one of four baccalaureate degrees. They can earn a UW-Milwaukee bachelor of arts with a major in Organizational Administration and an optional minor in Business; a bachelor of arts in Communication or a bachelor of science in information resources. They can also complete a UW-Stout bachelor of science in Industrial Management through distance education. In addition, area high school, middle school, and elementary teachers can earn a UW-Oshkosh master of science in Education—Curriculum & Instruction, all at their local university campus.

Scholarships
A variety of scholarships ranging from $100 to $2000, including UW-Sheboygan Foundation Talent Grants and Wagner Foundation Business Scholarships.

Extracurricular
Student Government Association (SGA), University Theatre and Theater for Young Audiences, campus newspaper, The Voice; Circle K; a service club; advanced and varsity sports; vocal and instrumental music groups; literary magazine, Luce; Zosimes Club for international students; InterVarsity Christian Fellowship; Phi Theta Kappa; international scholastic honorary society, Film Club; and Unity Coalition.

Community Interest Programs
Continuing Education short courses and workshops; Precollege and Upward Bound college preparation programs for middle school students; dual-credit college/high school program; theater productions; wind ensemble and choir concerts; lecture and film series and classic film series.

The University of Wisconsin-Washington County is located on the glacially sculpted Kettle Moraine, near the growing city of West Bend. The campus is one block west of the intersection of US Highway 45 and State Highway 33. West Bend is a 30-minute drive both from downtown Milwaukee and the unspoiled heart of the Northern Kettle Moraine Forest.

Student Body
In the fall of 2000, 911 students were enrolled; 22% are age 22 and older; 73% full time; 52% female and 48% male. The campus draws students from more than 30 area high schools in a five county region. Many of the students enjoy financial support in the form of more than $200,000 in scholarships, awarded over the past two years by the Washington County Campus Foundation.

Facilities
The campus has four fully-connected buildings with multimedia, Internet-connected classrooms; Pentium II general access computer labs, one of which contains high resolution graphics machines; a fully-interactive compressed video classroom, and a state-of-the-art computerized business/economics laboratory. The newly remodeled theater is used by campus and community theater and musical groups throughout the year, and there are ample individual and group musical rehearsal facilities as well as an electronic piano laboratory. The Student Union has a food coop, a Rathskellar, and contains student club, newspaper and government association offices. Science labs and a greenhouse support coursework in biology, chemistry, geology, and physics, while the campus observatory has
a 16-inch reflecting telescope.
The library houses an extensive collection of books, periodicals, and computerized materials and is linked to the UW computerized catalog system. The spacious gym complex has an indoor track, multi-purpose basketball and volleyball facilities, a weight room and locker rooms. The immediately maintained soccer field is used both by our varsity teams and by community groups.

**Collaborative Programs**

UW-Washington County maintains several programs in collaboration with UW-Milwaukee. Most recent is the Bachelor of Arts in Organizational Administration, which can be completed entirely on our campus. UWMC provides the first two years of this program, while UW-M offers the junior and senior years. The campus has an articulation agreement with the School of Social Welfare, which allows UW-WJC students to enter their programs with full junior status.

Marquette University, and Beloit, Carroll and Ripon Colleges all offer special scholarships and junior status to UW-WJC students who transfer with 60 or more credits.

The campus works closely with surrounding school districts to provide enrichment opportunities for local children.

**Academic**

Honors program, learning communities, internships, service learning courses, intensive human anatomy course, field ecology in Canada, foreign travel for academic credit.

**Scholarships**

The Washington County Campus Foundation offers scholarships to incoming, continuing, and transferring students. The Foundation awarded over $100,000 to students in 2000.

**Co-curricular**

Varsity and Intramural sports, Lecture and Fine Arts Series, University community band, chorus, the ability to play in Horace Symphony Orchestra, a nationally recognized on-campus newspaper, the Writers' Guild, clubs and other common interest groups.

**Community Interest Programs**

B.S., University of Wisconsin-Oshkosh
M.A., Marquette University
Ph.D., Purdue University

Cahill, Michael E. (1974)
Associate Professor, Physics
B.S., Manhattan College
M.S., University of Illinois at Urbana-Champaign
Ph.D., University of Illinois at Urbana-Champaign

Cahill, Rotraud C. (1974)
Associate Professor, Mathematics/Computer Science
B.A., Rutgers State University
M.A., University of Rochester
Ph.D., University of Illinois at Urbana-Champaign

Denz, Linda (1995)
Lecturer, Developmental Mathematics

Ekunsanmi, Toye J. (1999)
Assistant Professor, Biology
B.S., University of Lagos, Nigeria
M.S., University of Ibadan, Nigeria
Ph.D., University of Ibadan

Assistant Professor, Communication/Theater Arts
B.A., Wayne State University
M.F.A., University of Southern Mississippi

Gibau, Peter W. (1992)
Associate Professor, Music
B.A., Oberlin Conservatory
M.M., University of Arkansas-Fayetteville
Ph.D., University of Wisconsin-Madison

Gomes, Lawrence J. (1979)
Professor, Business/Economics
B.A., Dacca University, Bangladesh
M.A., Dacca University, Bangladesh
M.A., Cleveland State University
Ph.D., Wayne State University

Gross, Thomas C. (1966)
Professor, Art
B.S., University of Wisconsin-Madison
M.S., University of Wisconsin-Madison
M.F.A., University of Wisconsin-Madison

Hamilton, Margaret M. (1992)
Associate Professor, Psychology
B.A. University of Pennsylvania
M.A., Johns Hopkins University
Ph.D., Johns Hopkins University

Huehner, David R. (1972)
Professor, History
B.A., University of Illinois at Urbana-Champaign
M.A., University of Illinois at Urbana-Champaign
Ph.D., University of Illinois at Urbana-Champaign

Hayes, Christopher (2000)
Assistant Professor, Anthropology
B.A., University of Virginia
M.A., Binghamton University
Ph.D., Binghamton University

Johnson, Mechtild (1999)
Assistant Professor, Computer Science
B.S., University of Wisconsin-Milwaukee
M.S., University of Wisconsin-Milwaukee

Kara, Orhan (2000)
Lecturer, Economics
Ph.D., University of Wisconsin-Madison
Ph.D., University of Wisconsin-Milwaukee

Peterson, Mark C. (1988)
Associate Professor, Philosophy
B.A., University of South Alabama
M.A., University of Toronto, Canada
Ph.D., University of Toronto, Canada

Peterson, Roger D. (1981)
Associate Professor, Mathematics
B.A., Northwestern University
Ph.D., Ohio State University

Associate Professor, Business
B.A., University of Madras, India
M.S., University of Wisconsin-Madison
C.P.A.

Assistant Professor, Geology/Geography
B.S., Texas Tech University
M.S., Texas Tech University
Ph.D., University of California-Los Angeles

Schaefer, Wayne F. (1977)
Professor, Biology
B.S., Brigham Young University
M.S., University of Wisconsin-Madison
Ph.D., Brigham Young University

Thorn, J. Michael (1986)
Associate Professor, History
B.A., Oxford University, England
M.A., University of South Carolina
M.B.A., University of Missouri-Columbia

Vachuska, Colleen A. (1990)
Associate Professor, Mathematics
B.S., Mankato State University
M.S., Marquette University
Ph.D., Marquette University

Wall, G. Roger
Associate Professor, Political Science
B.A., Millikin University
M.A., University of Stockholm, Sweden
Ph.D., University of Stockholm, Sweden
UNIVERSITY WISCONSIN

WAUKESHA
A Campus of the University of Wisconsin Colleges

Location
At approximately the geographic center of Waukesha County, the University of Wisconsin-Waukesha is located on the western edge of the city of Waukesha on 86 acres of land. It is one mile south of Interstate 94 at the Hwy T South exit.

Student Body
With over 2000 students UW-Waukesha is the largest of the UW Colleges campuses; 28% are age 22 or older; 54% full-time; 46% part-time students; 54% female and 46% male students.

Facilities
The facilities include classrooms, library, science laboratories, a computer center, a study center, a greenhouse, a 337-seat theater and art gallery, on-site child care facility, a newly remodeled gymnasium and fitness center, soccer field, tennis courts, student union, dining area and bookstore. UW-Waukesha also operates a 98-acre field station 10 miles southwest of the campus on Hwy 18 at Waterville.

SPECIAL programs

Academic
Associate Degree Program with evening and Saturday classes, Honors program, TRIO-Student Support Services.

Collaborative Degrees
Site for UW-Milwaukee Organizational Administration and the Information
UW-WAUKESHA
administrative & support services

Stewart, Brad (1999)
Campus Executive Officer/Dean
B.A., William Penn College, IA
M.S., Iowa State University, Ames, IA
Ph.D., Iowa State University, Ames, IA

Zweifel, Philip L. (1976)
Associate Campus Dean
B.A., St. John's University (MN)
M.A., University of Wisconsin-Madison
Ph.D., University of Wisconsin-Madison

Ayad, Dahlia (1994)
Senior Advisor, Student Support Services
B.A., University of Wisconsin-Madison
M.S., University of Wisconsin-Madison

Becker, Judith (1997)
Student Services Coordinator
B.A., University of Wisconsin-Milwaukee
M.S.W., University of Wisconsin-Milwaukee

Bengston, Catherine M. (2000)
Math Specialist, Student Support Services
A.S., University of Wisconsin-Waukesha
B.S.F.E., University of Wisconsin-Whitewater

Bracco, Donald (1984)
Outreach Program Manager II, Continuing Education
Associate Professor
University of Wisconsin-Extension
B.S., University of Wisconsin-La Crosse
M.S.T., University of Wisconsin-La Crosse

Brammer, Jon (1998)
Development Skills Specialist
Student Support Services
B.A., University of California-Santa Barbara
M.A., University of Wisconsin-Milwaukee

Brown, Janet (1977)
Instructional Program Manager III, Student Support Services
B.A., Knox College
M.S., Chicago State University
Ph.D., University of Wisconsin-Milwaukee

Cavanaugh, Jane (1984)
Academic Librarian
Library and Media Services
B.S., University of Wisconsin-Milwaukee
M.L.S., University of Wisconsin-Milwaukee

Current, Tina (2000)
Advisor, Student Services
B.A., University of Washington
M.S., University of Wisconsin-Madison

Edwards, Mary (1999)
Advisor, Adult Student Services
B.S., St. Joseph's College
M.S., Indiana University

Eichman, Steven J. (1993)
Business Manager
B.B.A., University of Wisconsin-Whitewater
M.S.E., University of Wisconsin-Whitewater

Flesia, Faye A. (1969)
Director, Library and Media Services
B.S., Northland College
M.S., University of Wisconsin-Madison
M.S., University of Wisconsin-Milwaukee

Johnson, Martin (1967)
Senior Instructional Specialist, Field Station
B.S., University of Wisconsin-Madison
M.S., University of Wisconsin-Madison

Kalinika, Sue (2000)
Student Services Coordinator, Student Services
B.S., University of Wisconsin-Parkside
M.Ed., Eastern Illinois University

Kauth, Barb (1993)
Director of Student Services
B.S., University of Wisconsin-Whitewater
M.S., University of Wisconsin-Whitewater

Kelsey, Penny (1988)
University Relations Specialist
B.A., Marquette University

Knight, Lynn J. (1971)
Director of University Relations
A.A., University of Wisconsin-Waukesha
B.A., University of Wisconsin-Milwaukee
M.A., Marquette University

Mollendorf, Sara A. (2000)
Writing Specialist
Student Support Services
B.A., St. Norbert College
M.A., Marquette University

Morton, Mike (2000)
Math Specialist, Student Support Services
B.A., San Francisco State University
B.S., University of Utah
M.S., University of Michigan

O'Hara, Ann K. (1993)
Associate Academic Librarian
B.A., Marquette University
M.L.S., University of Wisconsin-Milwaukee

Associate Lecturer, Mathematics
Senior Administrative Specialist, Student Support Services
B.S., Marquette University
M.Ed., Carroll College

Smerz, Jeffrey (1995)
Instructional Specialist
B.A., University of Wisconsin-Stevens Point

Spieas, Denise L. (1987)
Administrative Program Manager II
Library and Media Services
B.A., University of Northern Iowa
M.A., University of Northern Iowa

Turner, Lori B. (1993)
Assistant Director, Student Services
B.A., Luther College
M.S., Marquette State University

Weber, David J. (1990)
Information Processing Consultant
Computer Center Director
A.A., University of Wisconsin-Waukesha

Ziegert, Susan (1994)
Developmental Skills Specialist
Student Support Services
B.S., University of Wisconsin-Platteville
M.A., Cardinal Stritch College
Resources bachelor's degrees.
UW Whitewater offers evening MBA classes at UW-Waukesha.

Support Services
Academic advising, peer tutoring, disabled-student services, group study, career advising and resources, and transfer assistance. Provide specialized advising to returning adult students.

Scholarships
Friends & Alumni Foundation Scholarship awards range from $250 to $2,500.

Extracurricular
Intramural and varsity sports, special interest clubs, student government, campus student radio station, and newspaper. Phi Theta Kappa, Honor Society, and student activities.

Community Interest Programs
50 Minutes lecture series, Visions & Expressions lecture series, clerical concerts, Uni-PointArte Ensemble (theater, Jazz Ensemble, Symphonic Band, and UW Extension noncredit continuing education classes.

UW-WAUKESHA faculty

Ahrenhoerster, Gregory (1997)
Assistant Professor, English
B.S., University of Wisconsin-LaCrosse
M.A., University of Wisconsin-Milwaukee
Ph.D., University of Wisconsin-Milwaukee

Anderson, Susan E. (1968)
Professor Emeritus, Psychology
B.S., Alverno University (Cuno)
Ph.D., University of Chicago

Bassouni, Salah (1992)
Associate Professor,
Sociology/Anthropology
B.A., Ain Shams University, Egypt
M.A., Ain Shams University, Egypt
Ph.D., Alexandria University, Egypt
Ph.D., Northwestern University

Bernard, Robert L. (1976)
Professor, Psychology
B.A., Drew University
M.A., University of Kansas
Ph.D., University of Kansas

Calkins, Charles E. (1993)
Visiting Professor, Geography
B.S., Carroll College
M.A., University of Oklahoma
Ph.D., University of Nebraska

Cheney, James (1972)
Professor, Philosophy
B.A., University of California-Berkeley
M.A., University of Wisconsin-Madison
Ph.D., University of Wisconsin-Madison

Copeloudis-Selle, Stephanie (1974)
Professor, Art
B.A., University of Wisconsin-Milwaukee
M.S., University of Wisconsin-Milwaukee
M.F.A., University of Wisconsin-Milwaukee

Crisler, Jane (1991)
Associate Professor, History
A.B., Indiana University
M.A., Indiana University
Ph.D., University of Wisconsin-Madison

Dennett, Nancy L. (1968)
Associate Professor, Biological Sciences
B.A., University of Wisconsin Milwaukee
M.A., University of Michigan-Ann Arbor

Esfahani, Joe W. (1986)
Associate Professor, Economics
B.A., University of Cape Coast, Ghana
M.A., University of Wisconsin-Madison
M.S., University of Wisconsin-Madison
Ph.D., University of Wisconsin-Madison

Ewins, Janee E. (1971)
Professor, Psychology
B.A., University of Santa Clara
M.A., University of Houston
Ph.D., University of Houston

Fischer, Carol A. (1976)
Professor, Business
B.B.A., University of Wisconsin-Madison
M.B.A., University of Wisconsin-Madison
C.P.A.

Habib, Anis Butter (1989)
Associate Professor, Chemistry
B.S., University of the Punjab, Pakistan
M.S., University of the Punjab, Pakistan
Ph.D., Catholic University of America

Assistant Professor,
Physical Education and Athletics
B.S., University of Wisconsin-LaCrosse
M.S., University of Wisconsin-LaCrosse

Hirschberg, Margaret (1999)
Associate Professor, Political Science
B.A., Illinois Wesleyan University
M.A., Purdue University
Ph.D., Purdue University

Huef, Craig W. (1999)
Assistant Professor, Music
B.M., Roanoke College
M.M., North Texas State University
Ph.D., University of North Texas

Janis, Martha G. (1982)
Associate Professor, Business
B.B.A., University of Wisconsin-Milwaukee
M.B.A., University of Wisconsin-Milwaukee
C.P.A.

Professor, Anthropology
B.A., Wayne State University
M.A., Wayne State University
Ph.D., Wayne State University

### 2001-2002 ACADEMIC YEAR CALENDAR

**Semester I**
- **First Day of Contract Year**: August 27, 2001
- **Registration**: August 27-31, 2001
- **Labor Day**: September 3, 2001
- **First Day of Classes**: September 4, 2001
- **Thanksgiving Recess**: November 22-23, 2001
- **Last Day of Classes**: December 14, 2001
- **Study Day**: December 15, 2001
- **Examinations**: December 17-22, 2001

**Semester II**
- **Registration**: January 14-18, 2002
- **Martin Luther King Jr. Holiday**: January 21, 2002
- **First Day of Classes**: January 22, 2002
- **Spring Vacation**: March 25-29, 2002
- **Last Day of Classes**: May 10, 2002
- **Study Day**: May 11, 2002
- **Examinations**: May 13-18, 2002
- **Last Day of Contract Year**: May 26, 2002

### 2002-2003 ACADEMIC YEAR CALENDAR

**Semester I**
- **First Day of Contract Year**: August 26, 2002
- **Registration**: August 26-30, 2002
- **Labor Day**: September 2, 2002
- **First Day of Classes**: September 3, 2002
- **Thanksgiving Recess**: November 28-29, 2002
- **Last Day of Classes**: December 13, 2002
- **Study Day**: December 14, 2002
- **Examinations**: December 17-22, 2002

**Semester II**
- **Registration**: January 13-17, 2003
- **Martin Luther King Jr. Holiday**: January 20, 2003
- **First Day of Classes**: January 21, 2003
- **Spring Vacation**: March 17-21, 2003
- **Last Day of Classes**: May 9, 2003
- **Study Day**: May 10, 2003
- **Examinations**: May 12-17, 2003
- **Last Day of Contract Year**: May 23, 2003
The freshman/sophomore UW campuses

- UW-Barron County (Rice Lake)
